Woods, 2008 This unique and perceptive history unravels geopolitical intrigues and reveals how they have influenced the authors who fashioned one of the most popular forms of entertainment in the literate world the spy novel Espionage fiction is one of the most popular forms of entertainment in the literate world and since its widespread acceptance in the early twentieth century it has sought to pursue the secret politics of Western social order Drawn from reality exposing what is generally concealed it provides a unique glimpse into the darker more conspiratorial affairs of state through the use of fictional covert actions double agents treason and international intrigues It is a carefully crafted clandestine venue wherein the situations are circumscribed the moods are forever gray and the heroes if indeed there are heroes generally emerge as ordinary individuals who believe that virtues such as truth and loyalty are simply matters of convenience People who are in fact not that much different from those whom they oppose The concept of neutral ground the term adapted from Sir Walter Scott s early nineteenth century Waverly novels originally spoke to the geographic region between two warring armies a place controlled by neither but marked by fluid jurisdictions drawn by the ebb and flow of strategic influences or battle lines But with the passage of time and the refinement of espionage fiction the definition of neutral ground witnessed a transition emerging as both metaphor and cautionary note for the thematic conflicts and doubts that flourish in the absence of clear political authority An intellectual nether region reminiscent perhaps of Cold War Berlin that affords conflicting parties unrestricted rights of passage and where political ideology and

literary fiction can and do seamlessly intersect Yet in the grander historical sense the evolution of espionage fiction also reflects the history of a culture for as the genre evolved so too did Western society To explore these historical relationships Neutral Ground A Political History of Espionage Fiction takes the reader behind the fiction and explores the real world political military and diplomatic events that have consistently and significantly threaded their way through the fabric of the genre Against this historical timeline it examines how numerous authors including Rudyard Kipling Somerset Maugham Graham Greene and John le Carré have engaged reality in order to write the espionage novels that have become literary classics and in selected cases have also served to alter the course of government policy **Thrillers** Martin Rubin,1999-03-28 An in depth exploration of the thriller movie genre *The Perfect Murder* David Lehman,2000 Drawing on a selection of the best British and American detective fiction past and present Lehman takes readers on a probing investigation of why men and women of all educational and social backgrounds are continually fascinated by the murder mystery **Encyclopedia of British Writers** Christine L. Krueger,2014-07 This concise encyclopedic reference profiles more than 800 British poets **Jeffrey Hunter** Paul Green,2014-04-22 Jeffrey Hunter is best remembered today for his roles as half breed Martin Pawley in John Ford's classic western *The Searchers* 1956 as Jesus Christ in Nicholas Ray's *King of Kings* 1961 and as Christopher Pike the first captain of the U S S Enterprise in the original *Star Trek* pilot This work chronicles Hunter's entire film and television career from his beginnings as a 20th Century Fox contract player to his untimely death in 1969 at the age of 42 Fellow 20th Century Fox contract player Robert Wagner provides the Foreword and contributes his memories of working with Hunter Former vice president and head of Desilu Studios Herbert F Solow discusses Hunter's role in the original *Star Trek* pilot and Lloyd J Schwartz shares his memories of being present at Hunter's audition for the role of Mike Brady in *The Brady Bunch* 1969 Hunter's lost film *Strange Portrait* 1966 is also discussed in detail and his radio and theatre career highlighted **Warfare State** David Edgerton,2005-12-08 A challenge to the central theme of the existing histories of twentieth century Britain that the British state was a welfare state this book argues that it was also a warfare state which supported a powerful armaments industry This insight implies major revisions to our understanding of twentieth century British history from appeasement to wartime industrial and economic policy and the place of science and technology in government David Edgerton also shows how British intellectuals came to think of the state in terms of welfare and decline and includes a devastating analysis of C P Snow's two cultures This groundbreaking book offers a new post welfarist and post declinist account of Britain and an original analysis of the relations of science technology industry and the military It will be essential reading for those working on the history and historiography of twentieth century Britain the historical sociology of war and the history of science and technology **The Spy Story** John G. Cawelti,Bruce A. Rosenberg,1987-05 Why has the spy story become such a popular form of entertainment in our time In this fascinating account of the genre's evolution John G Cawelti and Bruce A Rosenberg explore the social political and artistic sources of the

spy story's wide appeal. They show how in a time of bewildering political and corporate organization the spy story has become increasingly relevant, the secret agent hero expressing the feelings of divided and ambiguous loyalties with which many individuals face the modern world. In addition to a general history of the genre, Cawelti and Rosenberg present in-depth analyses of the work of certain writers who have given the spy story its shape among them: John Buchan, Eric Ambler, Graham Greene, Ian Fleming, and John le Carré. *The Spy Story* also includes an extensive appendix featuring a literary and historical bibliography of espionage and clandestinity, a list of the best spy novels and films, a catalog of major spy writers and their heroes, and a selection of novels on espionage themes written by major twentieth-century authors and public figures. Written in a lively style that reflects the authors' enthusiasm for this intriguing form, *The Spy Story* will be read with pleasure by devotees of the genre as well as students of popular culture.

**Fearing the Dark** Edmund G. Bansak, 2003-10-09 *Cat People* 1942 and *I Walked with a Zombie* 1943 established Val Lewton's hauntingly graceful style where suggestion was often used in place of explicit violence. His stylish B-thrillers were imitated by a generation of filmmakers such as Richard Wallace, William Castle, and even Walt Disney in his animated *Adventures of Ichabod and Mr. Toad* 1949. Through interviews with many of Lewton's associates, including his wife and son, and extensive research, his life and output are thoroughly examined.

**At the End of the Street in the Shadow** Matthew Asprey

Gear, 2016-02-16 The films of Orson Welles inhabit the spaces of cities from America's industrializing midland to its noirish borderlands, from Europe's medieval fortresses to its Kafkaesque labyrinths and postwar rubblescapes. His movies take us through dark streets to confront nightmarish struggles for power, the carnivalesque and bizarre, and the shadows and light of human character. This ambitious new study explores Welles's vision of cities by following recurring themes across his work, including urban transformation, race relations, and fascism, the utopian promise of cosmopolitanism, and romantic nostalgia for archaic forms of urban culture. It focuses on the personal and political foundation of Welles's cinematic cities, the way he invents urban spaces on film to serve his dramatic, thematic, and ideological purposes. The book's critical scope draws on extensive research in international archives and builds on the work of previous scholars. Viewing Welles as a radical filmmaker whose innovative methods were only occasionally compatible with the commercial film industry, this volume examines the filmmaker's original vision for butchered films such as *The Magnificent Ambersons* 1942 and *Mr. Arkadin* 1955.

and considers many projects the filmmaker never completed an immense shadow oeuvre ranging from unfinished and unreleased films to unrealized treatments and screenplays
