*Mindfulness, Now and Zen: The sceptics guide to Ultimate Reality* Wally Barr, 2017-02-22 This book explores how each of us knows what we know. It considers claims that we see only illusions and that behind it all there is an indescribably beautiful reality both a God and a Nirvana. The book goes on to explain in simple terms how these two ideas so different on the surface may not be so different at all. Ranging across the centuries the book draws on the teachings of a wide variety of thinkers from vastly different cultural philosophical and religious backgrounds. The message they each bring is distilled into one consistent story in which our everyday sense of reality can be thought of as a deceptive and rather pale reflection of what's really going on. And although our thinking processes are seriously limited the book describes how we can all transcend these limitations and experience Ultimate Reality through the simple practice of mindfulness for mindfulness meditation offers freedom from thinking.

*The Rhetorical Use of Numbers in the Deuteronomistic History* Denise C. Flanders, 2022-04-11 The Deuteronomistic History contains many vast troop and casualty numbers. What purpose does this literary device of numerical

hyperbole serve What rhetorical purposes do any of the numbers in this text serve In The Rhetorical Use of Numbers in the Deuteronomistic History Saul Has Killed His Thousands David His Tens of Thousands Denise Flanders explores the variety of rhetorical effects that numbers have on the narrative of Joshua 2 Kings Flanders demonstrates that numbers in Joshua 2 Kings often work in surprising and subversive ways Rather than regularly glorifying a leader large casualty numbers may actually anticipate a ruler's downfall Rather than underscoring an Israelite battle victory numbers sometimes qualify or undermine the triumph of victories **The Publishers Weekly**, 2005 **Special Relativity** Jürgen Ehlers, Claus Lämmerzahl, 2006-09-11 After a century of successes physicists still feel the need to probe the limits of the validity of theories based on special relativity Canonical approaches to quantum gravity non commutative geometry string theory and unification scenarios predict tiny violations of Lorentz invariance at high energies The present book based on a recent seminar devoted to such frontier problems contains reviews of the foundations of special relativity and the implications of Poincaré invariance as well as comprehensive accounts of experimental results and proposed tests The book addresses besides researchers in the field everyone interested in the conceptual and empirical foundations of our knowledge about space time and matter

Humor in Twentieth-Century British Literature Don Lee Fred Nilsen, Ralph Ellison, 2000-03-30 Analyzes humor in literary works by British authors of the 20th century and provides extensive bibliographical information **Becoming a Plurilingual Child** Roberto Gómez Fernández, 2013-05-20 The present research aims at illustrating the newcomer's process of becoming an emergent plurilingual member of a heterogeneous and multilingual primary school classroom in Luxembourg It is a 8 month case study about a child belonging to one of the ethnic and linguistic communities most affected by school failure in Luxembourg namely Romanophones or romance language speaking students The country of Luxembourg has three official languages and a great diversity both factors demanding a unique educational system The Luxembourgish educational system is then confronted with the common practice of trilingualism and a high proportion of foreigners in its classrooms A detailed analysis of the actors in contact with this child including the different teachers parents and peers allows for an observation of which practices are legitimated and which ones are marginalized It also provides valuable insights on how such practices emerge and how the newcomer's identity evolves within the class group **Representation in Mind** Hugh Clapin, Phillip Staines, Peter Slezak, 2004-06-04 Representation in Mind is the first book in the new series Perspectives on Cognitive Science and includes well known contributors in the areas of philosophy of mind psychology and cognitive science The papers in this volume offer new ideas fresh approaches and new criticisms of old ideas The papers deal in new ways with fundamental questions concerning the problem of mental representation that one contributor Robert Cummins has described as THE problem in philosophy of mind for some time now The editors introductory overview considers the problem for which mental representation has been seen as an answer sketching an influential framework outlining some of the issues addressed and then providing an overview of the papers Issues include the relation between mental representation and public non
