**Lopsided** Meredith Norton, 2008 Not your ordinary cancer memoir this is the debut of a masterful humorist Norton chronicles every step of her experience starting with her bizarre symptoms while living in Paris to moving back home to California and living with her compulsive parents and their five television sets Irreverent and incredibly funny Norton rails against self pity and victimhood and rants about the innumerable copies of Lance Armstrong's cancer survival book pressed on her by well meaning family and friends If surviving this required any of the Lance like traits such as willingness to physically exert myself I was as good as dead Alongside the harrowing portrait of her treatments Norton offers equally amusing memories from her offbeat life in an affluent African American family as well as her marriage to a Frenchman From publisher description Lopsided Meredith Norton, 2009 Breast cancer Mammographies Mary K. DeShazer, 2013-06-10 While breast cancer continues to affect the lives of millions contemporary writers and artists have responded to the ravages of the disease in creative expression Mary K DeShazer's book looks specifically at breast cancer memoirs and photographic narratives a category she refers to as mammographies signifying both the imaging technology by which most Western women discover they have this disease and the documentary imperatives that drive their written and visual accounts of it Mammographies argues that breast cancer narratives of the past ten years differ from their predecessors in their bold address of previously neglected topics such as the link between cancer and environmental carcinogens the ethics and efficacy of genetic testing and prophylactic mastectomy and the shifting politics of prosthesis and reconstruction Mammographies is distinctive among studies of contemporary illness narratives in its exclusive focus on breast cancer its analysis of both memoirs and photographic texts its attention to hybrid and collaborative narratives and its emphasis on ecological genetic transnational queer and anti pink discourses DeShazer's methodology best characterized as literary critical feminist and interdisciplinary includes detailed interpretation of the narrative strategies thematic contours and visual imagery of a wide range of contemporary breast cancer memoirs and photographic anthologies The author explores the ways in which the narratives constitute a distinctive testimonial and memorial tradition a claim supported by close readings and theoretical analysis that demonstrates how these narratives question hegemonic cultural discourses empower reader viewers as empathic witnesses and provide communal sites for mourning resisting and remembering **Memoir of a Debulked Woman** Susan Gubar, 2012-04-23 A 2012 New York Times Book Review Notable Book Staggering searing Ms Gubar deserves the highest admiration for her bravery and honesty New York Times Diagnosed with ovarian cancer in 2008 Susan Gubar underwent radical debulking surgery an attempt to excise the cancer by removing part or all of many organs in the lower abdomen Her memoir mines the deepest levels of anguish and devotion as she struggles to come to terms with her body's betrayal and the frightful protocols of contemporary medicine She finds solace in the abiding love of her husband children and friends while she searches for understanding in works of literature visual art and the testimonies of others who suffer

with various forms of cancer Ovarian cancer remains an incurable disease for most of those diagnosed even those lucky enough to find caring and skilled physicians Memoir of a Debulked Woman is both a polemic against the ineffectual and injurious medical responses to which thousands of women are subjected and a meditation on the gifts of companionship art and literature that sustain people in need **The British National Bibliography** Arthur James Wells,2009 People,2008-04 **MultiCultural Review** ,2008 *New Books on Women, Gender and Feminism* ,2009 *New Books on Women and Feminism* ,2009 Book Review Index - 2009 Cumulation Dana Ferguson,2009-08 Book Review Index provides quick access to reviews of books periodicals books on tape and electronic media representing a wide range of popular academic and professional interests The up to date coverage wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool More than 600 publications are indexed including journals and national general interest publications and newspapers Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year *Lopsided* Meredith Norton,2008 One ordinary woman s journey through breast cancer and out the other side Meredith Norton is in love and moves to Paris to be with her husband She thought that coming to grips with the French and how they live life was hard enough and then she discovered that she had breast cancer Funny sharp and witty Meredith chronicles her experiences starting with her bizarre symptoms while living in Paris to moving back home to California and her compulsive parents with their five TV sets Irreverent and incredibly funny Meredith rails against self pity and victimhood and rants about the innumerable copies of Lance Armstrong s cancer survival book offered by well meaning friends And deals with my pig hunting Buddhist ex boy friend who believed that organic meat and meditation could make me better Most astounding was my unrevelation the revelation that I would not be having a revelation something to help me progress towards the enlightened being I hope to become effortlessly **The Empowered Woman and Encounters with Breast Cancer, the Year's Chick Disease** Lucinda M. Rasmussen,2014 This dissertation examines a postfeminist subgenre of women s autobiography referred to as sick lit The primary texts all published between 2004 and 2009 are Cancer Vixen by Marisa Acocella Marchetto Breastless in the City A Young Woman s Story of Love Loss and Breast Cancer by Cathy Buetti Why I Wore Lipstick to My Mastectomy by Geralyn Lucas Lopsided How Having Breast Cancer is Really Distracting by Meredith Norton My One Night Stand with Cancer by Tania Katan and Nordie s at Noon The Personal Stories of Four Women Too Young for Breast Cancer by Patti Balwanz Jana Peters Kim Carlos and Jennifer Johnson I show that sick lit is a postfeminist manifestation of a genre of life writing more broadly known as the breast cancer narrative While the breast cancer narrative was initially clearly a product of second wave feminism in the United States during the 1970s and 1980s sick lit s contents and paratexts reflect the presence of postfeminism as an oppressive and pervasive ideology one which now discourages its authors from making explicit feminist demands for gender equity despite the fact that they write of encountering oppressive

circumstances Sick lit is written by women who have been aggressively targeted by a heteronormative consumer culture which conveys the message that consumption is an antidote to breast cancer These authors frequently use irreverent humour and self deprecation in the form of confession to talk about the struggles they experience as a part of this social order Thus sick lit resembles the contemporary women s fiction known as chick lit as well as the chick flick While I argue that sick lit is an aesthetic strategy which some writers use to reclaim their identities after cancer and even at times to unsettle the normative social order ultimately sick lit writers particularly those tied to breast cancer s cause related marketing campaigns are yoked to commodity culture in ways which jeopardizes the legacy they might otherwise earn through life writing For these reasons sick lit helps to reveal postfeminism s harms and potentials at the beginning of the twenty first century
