Moureau, 2024-12-28 This second edition offers updated and revised information on vessel health and preservation VHP It presents a model of care and systematic application of vascular access and administration of intravenous treatment to show how establishing and maintaining a route to the bloodstream with optimal methods is essential for patients in acute care today This model concept was first published in poster form in 2008 and in JVA in 2012 which has received a great deal of attention especially in the US UK and Australia Until now little thought has been given to an intentional process to guide selection insertion and management of vascular access devices VADs and by default actions are based on crisis management when a quickly selected VAD fails The book details how VHP establishes a framework or pathway model for each step of the patient experience intentionally guiding improving and eliminating risk when possible The evidence points to the fact that reducing fragmentation establishing a pathway and teaching the process to all stakeholders reduces complications with intravenous therapy improves efficiency and diminishes cost As such this book has become a strong point of reference appealing to vascular access specialists bedside nurses physicians and other health professionals Few authoritative guides provide the depth and descriptive evidence included in this VHP model of care suitable for hospital administrators directors educators and others to apply within their services **Current Catalog** National Library of Medicine (U.S.), 1993 *HADI PRACTICAL NEONATOLOGY BOOK 1* ABDELHADI ABDELGABBAR ABDELHADI, 2024-01-24 Hadi Practical Neonatology a 2 book series of practical guidelines is intended to provide a structured approach to the management of neonatal conditions

which are likely to face the neonatal team It is not intended to replace textbooks or to teach the beginners in the field Prior sound knowledge of Neonatal Medicine by the user is essential This book is the first in the series It covers aspects of RESUSCITATION THERMAL CONTROL RESPIRATORY CARDIOVASCULAR INFECTIONS ENDOCRINE METABOLIC GASTROINTESTINAL NUTRITION DERMATOLOGY and SURGICAL NEWBORN challenges It is my belief that neonatal doctors and nurses are an integrated team and any demarcation is an imaginary line The recipe of creating a backbone of good nurses is passionate support continuous education and practical teaching at every possible opportunity Mutual trust and appropriate delegations are crucial to the success of the team HADI PN series is written for the neonatal team and not just for the medical staff The best way for consolidating the team knowledge and experience is bedside teaching New methods and approaches of neonatal management are progressing but seem to slow down over the last few years This may reflect the fact neonatal advances are approaching our era peak of what is possible Nevertheless many of our current practices are yet to be scrutinized to fulfil the evidence based standards There is no robust verification of the evidence behind our current practice of many routine day to day applications This include but not limited to fluid requirements duration of antibiotics courses use of various blood products seizures pharmacological treatment and safe PaCO<sub>2</sub> levels I have reviewed multiple medical and nursing guidelines from Europe North America and Australia as well as Asia South America and Africa I integrated many of these guidelines within this book whenever they are in accord with the international acceptable practices Feedback and suggestions are welcome and can be sent to neonatologypractical gmail com The book is an updated version of the protocols and guidelines which I have developed during my work as Consultant Neonatologist Some are adopted from various reputable institutes and modified to reflect the current evidence plus a slight flavour of my experience Considerable effort has been exercised to ensure the doses of medications given in HADI PN are accurate However further confirmation by the nursing and medical staff is advised prior to the first use of each medication HADI PN reflects the author s own acceptable and safe practice and advice It is written with the intention of facilitating the delivery of care to the most vulnerable newborn The publication is written bearing in mind the wide variations in the skill mix of neonatal practitioners nurses and doctors Likewise the chall
