ATI Technologies Inc. was a semiconductor technology corporation based in Markham, Ontario, Canada, that specialized in the development of graphics processing units and chipsets. Founded in 1985 as Array Technologies Inc., the company became publicly traded in 1993 and was acquired by Advanced Micro Devices (AMD) in 2006. As a major fabless semiconductor company, ATI conducted in-house research and development and outsourced the manufacturing and assembly of its products. ATI and its chief rival, Nvidia, emerged as the two dominant players in the graphics processors industry, eventually forcing other manufacturers into niche roles. The acquisition of ATI in 2006 was important to AMD's strategic development of its Fusion generation of computer processors, which integrate general processing abilities with graphics processing functions within a single chip. The ATI brand name was discontinued from AMD.
