Advocacy Practice for Social Justice, Second Edition Richard Hoefer, Roy E Dulak Professor for Community Research
Richard Hoefer, 2012-06-01 Social justice is one of the six core values of the social work profession as defined in the NASW Code of Ethics Professor Hoefer demonstrates that advocacy is a key tool in achieving social justice at all levels of practice and he argues that social workers have an obligation not only to actively advocate but to empower others to do so as well Using evidence based information anecdotes case studies and his own personal experiences Professor Hoefer presents the ethical imperative for advocacy Advocacy Practice for Social Justice shows that rather than being an ancillary or subordinate practice within an existing social work practice the process of advocating is composed of basic steps familiar to all social workers in generalist practice Successful advocacy begins with establishing a relationship with the client continues with the creation and implementation of a plan of action and ends with short and long term evaluation The author's clear step by step design acts as a blueprint for advocacy that can be incorporated into any existing practice Advocacy Practice for Social Justice Richard Hoefer, 2015 Current economic and social forces are creating a society with less equality justice and opportunity for all but the privileged few Social workers are called upon by their code of ethics to counteract these trends and actively work to achieve social justice Hoefer's empirically based step by step approach demonstrates how to integrate advocacy for social justice into everyday social work practice The book shows through anecdotes case studies examples and the author's own personal experiences exactly how advocacy can be conducted with successful outcomes Each chapter builds upon the previous to provide a concise yet detailed blueprint for conducting successful advocacy The previous two editions of this book have been used and admired by professors and students alike Students value its clarity and praise the book for opening their eyes to what they often believed was the scary and bad world of politics and policy After reading the book they are motivated to become advocates for social justice because they understand how to do so If you want to empower your students to effect changes in laws regulations and other types of policy at all levels you will find this text the perfect resource to do so An Experiential Approach to Group Work, Second Edition Rich Furman, Kimberly Bender, Diana Rowan, 2014-06 An Experiential Approach to Group Work is not your typical group work text Using dozens of exercises that build practice tested skills the authors approach is in perfect step with CSWE's competence based education requirements The book is organized into three sections the first addresses stages of group practice the second looks at major types of groups and the final section looks at examples of group work practice with special populations **Inclusive Group Work** William Pelech, Robert Basso, Cheryl D. brought together some of the leaders in the field of multicultural counseling to create a text for mental health professionals that not only addresses diversity but also emphasizes the counselor's role as an advocate of social justice. The theoretical foundation for this book rests on research into diversity, spirituality, religion, and color-specific issues. Each chapter addresses the unique needs and relevant issues in working with a specific population such as women, men, African Americans, Asian Americans, Spanish-speaking clients, North America's indigenous people, members of the LGBT community, new citizens, and the poor, underserved, and underrepresented. Issues that enter into the counselor-patient relationship are discussed in detail for all of these groups with the hope that this will lead to a greater understanding and sensitivity on the part of the counselor for their patients. This is an important and timely book for both counselors in training and those already established as professionals in today's highly diverse and constantly changing society.

Social Work Education and the Grand Challenges R. Paul Maiden, Eugenia L. Weiss, 2023-04-04. The Grand Challenges for Social Work (GCSW) provides an agenda for society and for the social work profession. The 13 GCSW have been codified by the American Academy of Social Work and Social Welfare and are emerging as a significant underpinning in the education of undergraduate and graduate social work students throughout the USA. This volume serves as a guide as to how this can best be achieved in alignment with the 2022 Educational Policy and Accreditation Standards (EPAS) from the Council of Social Work Education. Divided into four parts: Individual and Family Well-Being, Stronger Social Fabric, A Just Society, and The Grand Challenges in the Field. Each chapter introduces a Grand Challenge, situates it within the curricula, and provides teaching practices in one of the targeted domains, as well as learning objectives, class exercises, and discussions. By showing how to facilitate class discussion, manage difficult conversations, and address diversity, equity, and inclusion as part of teaching the topic, this book will be of interest to all faculty teaching at both undergraduate and graduate levels. It should be noted that there are additional supplementary chapters beyond the 13 GCSW that provide further context for the reader.
