Evidence and lessons
from Latin America

By organising regionally, an innovative network of Latin American civil society organisations is successfully expanding the right to freedom of expression and access to information in the region.

CIVIL SOCIETY'S REGIONAL NETWORK FOR ADVANCING FREEDOM OF EXPRESSION AND ACCESS TO INFORMATION

SUMMARY

The Regional Alliance for the Freedom of Expression and Information (the Alliance), an innovative civil society network, has had a major role in promoting freedom of expression and the right to information regionally. The Alliance coordinates the efforts of 23 civil society organisations (CSOs) from 19 American countries and carries out extensive advocacy work at the regional level.¹ This network's experience, achievements and lessons learned could be useful to CSOs in Sub-Saharan and South Asian countries aiming to advance freedom of expression and access to information in their own regions.

Dawson,2016-04-29 New Era New Religions examines new forms of religion in Brazil The largest and most vibrant country in Latin America Brazil is home to some of the world s fastest growing religious movements and has enthusiastically greeted home grown new religions and imported spiritual movements and new age organizations In Brazil and beyond these novel religious phenomena are reshaping contemporary understandings of religion and what it means to be religious To better understand the changing face of twenty first century religion New Era New Religions situates the rise of new era religiosity within the broader context of late modern society and its ongoing transformation *The Handbook For Advanced Primary Care Nurses* Neno, Rebecca,Price, Debby,2008-10-01 This important new handbook for Primary Care Nurses is designed to assist senior nurses in developing the understanding and skills required to be effective at both strategic and operational levels *The Threefold Logic of Advanced Architecture* Manuel Gausa,Jordi Vivaldi,2021-04-15 During the last 30 years Advanced Architecture has consolidated an interactive and informational logic that differs from that of Modernity and Postmodernity This logic is threefold it is modulated through three coexisting protocols modes of action whose peaks of intensity occur in three different decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 This work proposes a threefold cultural narrative whose interactive and informational logic differs from that of modernity and postmodernity It positions three different ethos by critically approaching the architectural side of a cultural mutation that has been affecting the Western experimental areas of knowledge and practice since the end of the last century A transformative process constituted by a constellation of transdisciplinary manifestations accelerations turns shortcuts and clusterizations that by no means can be read under one single epistemological umbrella In this sense rather than approaching the practice of architecture focusing on its disciplinary inner specificity this book approaches the research of experimental architecture focusing on its extra disciplinary entanglements It argues that a vast multiplicity of fields of knowledge participates in a cultural endeavour modulated through three protocols forms of action that singularize three decades Conformative Protocols 1990 2000 Distributive Protocols 2000 2010 and Expansive Protocols 2010 2020 These three periods shouldn t be read as three hermetic and concatenated monades but as three different modulations of the same narrative that is as three overlapping and coexisting systems whose peaks of intensity occur in three different decades However the main purpose of this book is not limited to unveiling the ethos of these three conjugations It also aims at using this framework as a time field a narrative map that moves from the classificatory to the cartographical in order to vectorize the last 30 years of experimental architecture In this sense this book argues that this threefold set of protocols represents the progressive attempt to constitute critical interiorities looking for and produced through interactions that are increasingly more intimate and whose agents are increasingly more diverse A tendency oriented towards the consolidation of an intimacy between strangers that highly resonates with the cultural and technological landscape in which experimental architecture operates *Advanced Methodologies and Technologies in Artificial Intelligence, Computer Simulation, and*
