are detailed worked solutions to each problem The answers are given first because many students do not want to see a worked solution immediately upon finding that their answer is not the correct one At the end of the book are two Final Exams that test whether or not the student has grasped all of the concepts in the book Because students must be able to solve problems regardless of the order that they appear on their college high school exams the Finals are not in the same order as that given in the Table of Contents The first Final Exam groups concepts that are similar although not in the same order as presented in the book and the second Final Exam completely randomizes the concepts and problems As with every other problem in the Step By Step series both answers and solutions to all Final Exam questions are included in the book
