Driver, 2022-11-22 Churches around the world have been confronted by shame and culpability in widespread revelations of child sexual abuse In this book Jeffrey Driver who has served the Australian Anglican Church as both a diocesan bishop and archbishop explores some of the underlying cultural and theological influences that may have predisposed the possibility of abuse as well as the defensiveness and cover ups that sometimes followed The first responses of most churches to the revelations of abuse were of necessity mostly structural and programmatic Recognizing the institutional temptation to do only enough to settle a crisis Jeffrey Driver calls for something different from the churches Drawing on the imagery of Holy Saturday he encourages a deeper journey of reflection and change for churches and church leaders to linger reflectively in the grey spaces of loss and shame long enough to hear the voice of God addressing them through the vulnerable and the wounded once more calling the church back to itself and into a deeper humbler relationship with the world it is called to serve **Literacy and Reading**

Canon Constitution and Canon Change in Children's Literature Bettina Kümmerling-Meibauer, Anja Muller, 2016-12-01 This volume focuses on the de canonization processes in children s literature considering the construction and cultural historical changes of canons in different children s literatures Chapters by international experts in the field explore a wide range of different children s literatures from Great Britain Germany Scandinavia the Low Countries Eastern and Central Europe as well as from Non European countries such as Australia Israel and the United States Situating the inquiry within larger literary and cultural studies conversations about canonicity the contributors assess representative authors and works that have encountered changing fates in the course of canon history Particular emphasis is given to sociological canon theories which have so far been under represented in canon research in children s literature The volume therefore relates historical changes in the canon of children s literature not only to historical changes in concepts of childhood but to more encompassing political social economic cultural and ideological shifts This volume s comparative approach takes cognizance of the fact that if canon formation is an important cultural factor in nation building processes a comparative study is essential to assessing transnational processes in canon formation This book thus renders evident the
