

The background of the book cover is a dark, textured surface featuring intricate, light-colored wood carvings. On the left side, there is a large, ornate cross-shaped carving with elaborate floral and foliate patterns. To the right of the cross, there are vertical bands of similar decorative carvings. In the bottom right corner, a fossilized ammonite shell is visible, showing its characteristic spiral structure. The overall aesthetic is historical and scholarly.

Armenian History And The Question Of Genocide:

Armenian History and the Question of Genocide M. Gunter, 2011-05-09 An analysis of the Turkish position regarding the Armenian claims of genocide during World War I and the continuing debate over this issue the author offers an equal examination of each side's historical position The book asks what is genocide and illustrates that although this is a useful concept to describe such evil events as the Jewish Holocaust in World War II and Rwanda in the 1990s the term has also been overused misused and therefore trivialized by many different groups seeking to demonize their antagonists and win sympathetic approbation for them The author includes the Armenians in this category because although as many as 600 000 of them died during World War I it was neither a premeditated policy perpetrated by the Ottoman Turkish government nor an event unilaterally implemented without cause Of course in no way does this excuse the horrible excesses committed by the Turks

The Armenians in History and the Armenian Question Esat Uras, Cengiz Kürşat, 1988 English translation of the revised and expanded 2 edition **The History of the Armenian Genocide** Vahakn N. Dadrian, 2003 Dadrian a former professor at SUNY Geneseo currently directs a genocide study project supported by the Guggenheim Foundation The present study analyzes the devastating wartime destruction of the Armenian population of the Ottoman Empire as the cataclysmic culmination of a historical process involving the progressive Turkish decimation of the Armenians through intermittent and incremental massacres In addition to the excellent general bibliography there is an annotated bibliography of selected books used in the study Annotation copyright by Book News Inc Portland OR **Mass Media and the Genocide of the Armenians**

Stefanie Kappler, Sylvia Kasparian, Richard Godin, Joceline Chabot, 2016-03-29 The role of the mass media in genocide is multifaceted with respect to the disclosure and flow of information This volume investigates questions of responsibility denial victimisation and marginalisation through an analysis of the media representations of the Armenian genocide in different national contexts

A Question of Genocide Ronald Grigor Suny, Fatma Muge Gocek, Norman M. Naimark, 2011-02-23 A collected volume featuring the work of Armenian Turkish and other scholars this book presents the story of the Armenian Genocide coolly and objectively exploring how and why the Young Turk government ordered and carried out the mass deportations and massacres of its Christian subjects *The History of the Armenian Genocide* United States. Congress.

Subcommittee on Future Foreign Policy Research and Development, 1976 **The Hidden Histories of War Crimes Trials**

Kevin Heller, Gerry Simpson, 2013-10 Several war crimes trials are well known to scholars but others have received far less attention This book assesses a number of these little studied trials to recognise institutional innovations clarify doctrinal debates and identify their general relevance to the development of international criminal law **The Armenian Genocide**

Richard G. Hovannisian, 2011-12-31 World War I was a watershed a defining moment in Armenian history Its effects were

unprecedented in that it resulted in what no other war invasion or occupation had achieved in three thousand years of identifiable Armenian existence This calamity was the physical elimination of the Armenian people and most of the evidence of their ever having lived on the great Armenian Plateau to which the perpetrator side soon gave the new name of Eastern Anatolia The bearers of an impressive martial and cultural history the Armenians had also known repeated trials and tribulations waves of massacre captivity and exile but even in the darkest of times there had always been enough remaining to revive rebuild and go forward This third volume in a series edited by Richard Hovannisian the dean of Armenian historians provides a unique fusion of the history philosophy literature art music and educational aspects of the Armenian experience It further provides a rich storehouse of information on comparative dimensions of the Armenian genocide in relation to the Assyrian Greek and Jewish situations and beyond that paradoxes in American and French policy responses to the Armenian genocides The volume concludes with a trio of essays concerning fundamental questions of historiography and politics that either make possible or can inhibit reconciliation of ancient truths and righting ancient wrongs

The volume provides critical insights into approaches adopted by curricula textbooks and teachers around the world when teaching about the past in the wake of civil war and mass violence discerning some of the key challenges and opportunities involved in such endeavors The contributors discuss ways in which history teaching has acted as a political tool that has at times been guilty of exacerbating inter group conflicts It also highlights history teaching as an important component of reconciliation attempts showcasing examples of curricular reform and textbook revision after conflict and discussing how the contestations and difficulties surrounding such processes were addressed in different post conflict societies

"They Can Live in the Desert but Nowhere Else" Ronald Grigor Suny, 2017-05-09

A definitive history of the 20th century's first major genocide on its 100th anniversary Starting in early 1915 the Ottoman Turks began deporting and killing hundreds of thousands of Armenians in the first major genocide of the twentieth century By the end of the First World War the number of Armenians in what would become Turkey had been reduced by 90 percent more than a million people A century later the Armenian Genocide remains controversial but relatively unknown overshadowed by later slaughters and the chasm separating Turkish and Armenian interpretations of events In this definitive narrative history Ronald Suny cuts through nationalist myths propaganda and denial to provide an unmatched account of when how and why the atrocities of 1915-16 were committed Drawing on archival documents and eyewitness accounts this is an unforgettable chronicle of a cataclysm that set a tragic pattern for a century of genocide and crimes

against humanity **Hidden Genocides** Alexander Laban Hinton, Thomas La Pointe, Douglas Irvin-Erickson, 2013-12-18 Why are some genocides prominently remembered while others are ignored hidden or denied Consider the Turkish campaign denying the Armenian genocide followed by the Armenian movement to recognize the violence Similar movements are building to acknowledge other genocides that have long remained out of sight in the media such as those against the Circassians Greeks Assyrians the indigenous peoples in the Americas and Australia and the violence that was the precursor to and the aftermath of the Holocaust The contributors to this collection look at these cases and others from a variety of perspectives These essays cover the extent to which our biases our ways of knowing our patterns of definition our assumptions about truth and our processes of remembering and forgetting as well as the characteristics of generational transmission the structures of power and state ideology and diaspora have played a role in hiding some events and not others Noteworthy among the collection s coverage is whether the trade in African slaves was a form of genocide and a discussion not only of Hutus brutalizing Tutsi victims in Rwanda but of the execution of moderate Hutus as well Hidden Genocides is a significant contribution in terms of both descriptive narratives and interpretations to the emerging subfield of critical genocide studies Contributors Daniel Feierstein Donna Lee Frieze Krista Hegburg Alexander Laban Hinton Adam Jones A Dirk Moses Chris M Nunpa Walter Richmond Hannibal Travis and Elisa von Joeden Forgey Dark Pasts Jennifer M. Dixon, 2018-11-15 In Dark Pasts Jennifer M Dixon asks why states deny past atrocities and when and why they change the stories they tell about them In recent decades states have been called on to acknowledge and apologize for historic wrongs Some have apologized while others have silenced denied and relativized past crimes Dark Pasts unravels the complex and fraught processes through which state narratives of past atrocities are constructed contested and defended Focusing on Turkey s narrative of the Armenian Genocide and Japan s narrative of the Nanjing Massacre Dixon shows that international pressures increase the likelihood of change in states narratives of their own dark pasts even as domestic considerations determine their content Combining historical richness and analytical rigor Dark Pasts is a revelatory study of the persistent presence of the past and the politics that shape narratives of state wrongdoing **Brief History of the Armenian Question and the Armenian Genocide** Arman Dzhonovich Kirakosian, 2014 **Handbook of Genocide Studies** David J. Simon, Leora Kahn, 2023-02-14 Providing an intellectual biography of the challenging concept of genocide this topical Handbook takes an interdisciplinary approach to shed new light on the events processes and legacies in the field Destroy Them Gradually Andrew R. Basso, 2024-02-16 Perpetrators of mass atrocities have used displacement to transport victims to killing sites or extermination camps to transfer victims to sites of forced labor and attrition to ethnically homogenize regions by moving victims out of their homes and lands and to destroy populations by depriving them of vital daily needs Displacement has been treated as a corollary practice to crimes committed not a central aspect of their perpetration Destroying Them Gradually examines four cases that illuminate why perpetrators have destroyed populations using

displacement policies Germany's genocide of the Herero 1904 1908 Ottoman genocides of Christian minorities 1914 1925 expulsions of Germans from East Central Europe 1943 1952 and climate violence twenty first century Because displacement has been typically framed as a secondary aspect of mass atrocities existing scholarship overlooks how perpetrators use it as a means of executing destruction rather than a vehicle for moving people to a specific location to commit atrocities
