**Expedition and Wilderness Medicine** Gregory H. Bledsoe, Michael J. Manyak, David A. Townes, 2008-11-03 With an increase in visits to remote and dangerous locations around the world the number of serious and fatal injuries and illnesses associated with these expeditions has markedly increased Medical personnel working in or near such locations are not always explicitly trained in the management of unique environmental injuries such as high altitude sickness the bends lightning strikes frostbite acute dehydration venomous stings and bites and tropical diseases Many health care professionals seek training in the specialty of wilderness medicine to cope with the health risks faced when far removed

from professional care resources and the American College of Emergency Medicine has recently mandated that a minimum level of proficiency needs to be exhibited by all ER physicians in this discipline This book covers everything a prospective field physician or medical consultant needs to prepare for when beginning an expedition and explains how to treat a variety of conditions in a concise clinically oriented format

### **The Structured Oral Examination in Clinical Anaesthesia**

Cyprian Mendonca,,Carl Hillermann,,Josephine James,,Anil Kumar,2009-05-01 Winner of a HIGHLY COMMENDED AWARD in the Anaesthesia category of the 2010 BMA Medical Book Competition This book comprises structured questions and answers that closely simulate the structured oral examination SOE format of The Royal College of Anaesthetists final FRCA examination The style of exam questions has changed over the years and this book matches the most recent changes in this updated exam It consists of ten sets chapters of complete SOE papers Each SOE set chapter includes one long case three short cases and four different applied basic science topics anatomy physiology pharmacology and clinical measurement As this book is presented in the format of complete examination papers it will enable candidates to assess their knowledge and skills It will also assist trainers in setting up mock exams With thorough revision of this book trainees can confidently sit their exams The authors have been organising final FRCA viva courses for the past five years running four exam preparation courses a year attended by about 200 trainees each year This book includes updated knowledge based on the syllabus and more recent questions asked in the FRCA examination It is therefore essential study material for trainees and a great educational tool for trainers This book will also help candidates all over the world to pass highly competitive postgraduate examinations in anaesthesia It is an invaluable educational resource for all anaesthetists

### **Fundamentals of Neurosurgery**

Andrei Fernandes Joaquim,Enrico Ghizoni,Helder Tedeschi,Mauro Augusto Tostes Ferreira,2019-07-12 The aim of this book is to provide clinicians and medical students with basic knowledge of the most common neurosurgical disorders There is a vast array of signs and symptoms that every clinician should recognize as neurosurgical affectations allowing them to identify when to refer the patient to a neurosurgeon In this text the editors intend to bridge the gap between clinical medicine and neurosurgery making neurosurgical practice understandable to a wider medical public The book provides a smooth transition from neuroanatomy neurophysiology and neurological examination to neurosurgery focusing more on the knowledge underlying neurosurgical practice rather than on surgical technique The core of the book is composed of chapters discussing each of the most important medical conditions that deserve neurosurgical intervention providing key information on diagnosis clinical aspects disease management surgical procedures and prognosis Moreover complementary discussion of the frontiers and advances in neurosurgery are also covered In this sense this book has two main goals and intended audiences First and primarily it is intended for clinicians in a wide array of non surgical medical specialties such as general practitioners neurologists pediatricians oncologists and others aiming to give an overview on important characteristics and initial management of the most prevalent disorders treated by neurosurgeons Second and to a lesser degree it is intended to

be used as a practical guide for medical students who are initiating their study in neurosurgical sciences **Fundamentals of Neurosurgery A Guide for Clinicians and Medical Students** intends to be a comprehensive guide for all non neurosurgeons who want to broaden their knowledge of neurosurgery **Medical-Surgical Nursing** Linda Honan,2023-09-15 Confidently meet the demands of transitioning students into practice ready nurses with **Medical Surgical Nursing Focus on Clinical Judgment 3rd Edition** Expertly curated by experienced clinician and nursing educator Dr Linda Honan this practical approach distills complex concepts down to need to know details through the perspective of practicing nurses establishing a comprehensive foundation in medical surgical nursing by way of the most commonly encountered conditions and situations Extensive updates throughout this 3rd Edition broaden your students perspectives cultivate their clinical judgment and prepare them for success from the Next Generation NCLEX to the day to day challenges of today s medical surgical nursing practice **Pediatric Surgery Digest** Zacharias Zachariou,2008-09-27 This concise digest offers a practically oriented and up to date overview of all subjects in pediatric surgery according to the European surgical curriculum Additionally interdisciplinary aspects concerning pediatrics adult surgery obstetrics and other disciplines working with children are considered The tables enable quick access to indications for the operative and conservative therapy with schematic step by step illustrations for nearly all surgical procedures **IAPS Textbook of Pediatric Surgery** Rajeev Redkar,Prakash Agarwal,V Raveenthiran,Shirin Joshi Gosavi,Anant Bangar,2020-03-31

NEW Chapter specific quick links via QR codes provide quick access to online references which have been updated and  
limited to the highest value sources      *The Light of the Moon* Randy Styner,2013-03-31 One night in early 1976 the world of  
trauma medicine changed forever in a frozen Nebraska field where Dr James Styner crashed his small airplane with his wife  
and four children aboard The experience of the eight hours he spent isolated and awaiting rescue that never came his  
journey to the local hospital where he found inadequate care and his family's evacuation and arrival at the sanctity of Lincoln  
General Hospital compelled him to develop a revolutionary new concept of emergency medical care That night Advanced

Trauma Life Support was born and grew to become the standard of emergency trauma care throughout the world Today it continues to save countless lives and it continues to grow This is the story of ATLS and that tragic night for the Styner family but it is also the story of the author s personal journey to find the truth about the accident that not only took the life of his mother but nearly took his and how doing so was one of the most important things he ever did
