Atomic Age Cinema The Offbeat The Classic And The Obscure:

Atomic Age Cinema The Offbeat, the Classic and the Obscure Barry Atkinson, 2013-05-30 British author Barry Atkinson *You're Not Old Enough Son* Indie Horrors plunges us into a cinematic world dominated by the atomic bomb and presents us with a buffet of delights from the rare to the unusual. Although the classics get a deserved mention, the author concentrates mainly on the neglected lesser titles many not seen for decades, giving them a much needed public airing. Readers will indulge in chapters devoted to key actors, companies, directors, and composers. Comparisons between Japanese monster movies and their Americanized counterparts. Scarce unseen American, British, and foreign horror, sci-fi, fantasy features. Stone Age women of the B variety. A couple of out and out schlock classics. *The Abominable Snowman* in the 1950s. A reappraisal of much maligned but much loved guilty pleasures. Toho's forgotten monsters. Dr. Jekyll's evil offspring. British science fiction and noir thrillers of the 50s. *Jungle Jim*. Chaney, Karloff, and Lugosi in the 1950s. Best entrant in Universal's Creature trilogy. Does colorization enhance a black and white favorite? How do monster special effects rate before CGI? Do Regal International's widescreen program fillers really add up to that much? Which scenes constitute the decade's most memorable fantasy moments? Does dialogue matter? What impact did New Age science have on the vampire and werewolf myths of old? All this and much, much more in a fresh evaluation of what most fans and critics now recognize as the pivotal decade for horror, sci-fi, and fantasy.

Watching the World Die Mike Bogue, 2023-10-23 During the 1980s, popular fear of World War III spurred moviemakers to produce dozens of nuclear threat films. Categories ranged from monster movies to post-apocalyptic adventures to realistic depictions of nuclear war and its immediate aftermath. Coverage of atomic angst films isn't new, but this is the first book to solely analyze 1980s nuclear threat movies as a group. Entries range from classics such as *The Day After* and *WarGames* to obscurities such as *Desert Warrior* and *Massive Retaliation*. Chronological coverage of the 121 films released between 1980 and 1990 includes production details, chapter notes, and critical commentaries.

Apocalypse Then Mike Bogue, 2017-09-14 The United States, the only country to have dropped the bomb, and Japan, the only one to have suffered its devastation, understandably portray the nuclear threat differently on film. American science fiction movies of the 1950s and 1960s generally proclaim that it is possible to put the nuclear genie back in the bottle. Japanese films of the same period assert that once freed, the nuclear genie can never again be imprisoned. This book examines genre films from the two countries released between 1951 and 1967, including *Godzilla* (1954), *The Mysterians* (1957), *The Incredible Shrinking Man* (1957), *On the Beach* (1959), *The Last War* (1961), and *Dr. Strangelove* (1964) to show the view from both sides of the Pacific.
