War's Waste Beth Linker, 2011-06-01 With US soldiers stationed around the world and engaged in multiple conflicts Americans will be forced for the foreseeable future to come to terms with those permanently disabled in battle At the moment we accept rehabilitation as the proper social and cultural response to the wounded swiftly returning injured combatants to their civilian lives But this was not always the case as Beth Linker reveals in her provocative new book War's Waste Linker explains how before entering World War I the United States sought a way to avoid the enormous cost of providing injured soldiers with pensions which it had done since the Revolutionary War Emboldened by their faith in the new social and medical sciences reformers pushed rehabilitation as a means to rebuild disabled soldiers relieving the nation of a monetary burden and easing the decision to enter the Great War Linker's narrative moves from the professional development of orthopedic surgeons and physical therapists to the curative workshops or hospital spaces where disabled soldiers learned how to repair automobiles as well as their own artificial limbs The story culminates in the postwar establishment of the Veterans Administration one of the greatest legacies to come out of the First World War

Making the World Safe Julia Irwin, 2013-05-23 In Making the World Safe historian Julia Irwin offers an insightful account of the American Red Cross from its founding in 1881 by Clara Barton to its rise as the government's official voluntary aid agency Equally important Irwin shows that the story of the Red Cross is simultaneously a story of how Americans first began to see foreign aid as a key element in their relations with the world As the American Century dawned more and more Americans saw the need to engage in world affairs and to make the world a safer place not by military action but through humanitarian aid It was a time perfectly suited for the rise of the ARC Irwin shows how the early and vigorous support of William H Taft who was honorary president of the ARC even as he served as President of the United States gave the Red Cross invaluable connections with the federal government eventually making it the official agency to administer aid both at home and abroad Irwin describes how during World War I the ARC grew at an explosive rate

and extended its relief work for European civilians into a humanitarian undertaking of massive proportions an effort that was also a major propaganda coup Irwin also shows how in the interwar years the ARC's mission meshed well with presidential diplomatic styles and how with the coming of World War II the ARC once again grew exponentially becoming a powerful part of government efforts to bring aid to war torn parts of the world The belief in the value of foreign aid remains a central pillar of U S foreign relations Making the World Safe reveals how this belief took hold in America and the role of the American Red Cross in promoting it

Coming Home Wendy Kline, 2019 Coming Home tells the story of how a significant number of parents in postwar America opted out of the standardized medicated hospital birth and recast home birth as a legitimate and desirable choice

Everything Is Possible Sylvia Kleiman Fields, 2016-01-08 Everything is Possible A Nurses Memoir recounts the personal and professional life of a woman who is daughter mother nurse wife friend educator scholar and mentor through decades that span the second half of the twentieth century and reaches into the new millennium In her own words Sylvia Kleiman Fields shares her diverse experiences and places them in the context of the sweep of events that mark these decades By combining the insights gleaned from a keen memory of her life and the perceptions of a health care professional steeped in the power of observation and diagnosis the author tells a story that is both intimate and expansive With courage and conviction her journey takes her beyond the intimate confines of the small New York apartment she sometimes shared with Holocaust survivors She explores the halls of academia the adventure of international conferences the challenges of making and maintaining family life the opportunities to pursue health care missions and the excitement of conducting research and interprofessional teaching If you find yourself attracted to the accounts of the lives of determined and intelligent individuals or if you desire to learn more about the people who shape significant institutions in American life then Everything Is Possible A Nurses Memoir will speak to you through the voice of a woman of persistence insight and achievement

Arequipa Sanatorium Lynn Downey, 2019-09-12 As San Francisco recovered from the devastating earthquake and fire of 1906 dust and ash filled the city's stuffy factories stores and classrooms Dr Philip King Brown noticed rising tuberculosis rates among the women who worked there and he knew there were few places where they could get affordable treatment In 1911 with the help of wealthy society women and his wife Helen a protégé of philanthropist Phoebe Apperson Hearst Brown opened the Arequipa Sanatorium in Marin County Together Brown and his all female staff gave new life to hundreds of working class women suffering from tuberculosis in early twentieth century California Until streptomycin was discovered in the 1940s tubercular patients had few treatment options other than to take a rest cure at a sanatorium and endure its painful medical interventions For the working class and minorities especially women the options were even fewer Unlike most other medical facilities of the time Arequipa treated primarily working class women and provided the same treatment to all including Asian American and African American women despite the virulent racism of the time Author Lynn Downey's own grandmother was given a terminal tuberculosis diagnosis in 1927 but after treatment at Arequipa she lived to

be 102 years old Arequipa gave female doctors a place to practice female nurses and social workers a place to train and white society women a noble philanthropic mission Although Arequipa was founded by a male doctor and later administered by his son the sanatorium's mission was truly about the women who worked and recovered there and it was they who kept it going Based on sanatorium records Downey herself helped to preserve and interviews she conducted with former patients and others associated with Arequipa Downey tells a vivid story of the sanatorium and its cure that Brown and his talented team of Progressive women made available and possible for hundreds of working class patients

Camus's The Plague

Peg Brand Weiser, 2023 La Peste in English The Plague originally published in 1947 by the Nobel Prize winning writer Albert Camus chronicles the progression of deadly bubonic plague as it spreads through the quarantined Algerian city of Oran While most discussions of fictional examples within aesthetics are either historical or hypothetical Camus offers an example of pestilence fiction Camus chose fiction to convey facts about plagues in the past his own bout with tuberculosis at age seventeen living under quarantine away from home for several years and forced separation from his wife who remained in Algiers while he was abroad in Nazi occupied France His own lived experiences undergird an imaginative account of shared human realities with which we can identify vulnerability to the disease isolation fear and finally humanitarianism The Plague teaches us to neither covet nor expect what we so casually took for granted This collection of original essays on philosophical themes in The Plague is of special relevance during and in the aftermath of Covid 19 but also provides reflections that will be of lasting value to those interested in this classic work of literature The novel explores questions of enduring importance Do we collectively meet the threshold of ethical behaviour posed by Camus who wrote What's true of all the evils in the world is true of plague as well It helps men to rise above themselves Or does the absurd undermine the compassionate Do heroes dutifully fight a plague with common decency or does human nature resign itself to the normalization of uncontrollable suffering and death There are myriad ways to approach the novel and this volume encourages readers to ponder human dilemmas in fictional Oran informed by our current pandemic

Philosophies and Practices of Emancipatory Nursing Paula N. Kagan, Marlaine C. Smith, Peggy L. Chinn, 2014-07-17 Awarded First Place in the 2015 AJN Book of the Year Award in two categories History and Public Policy and Professional Issues This anthology presents the philosophical and practice perspectives of nurse scholars whose works center on promoting nursing research practice and education within frameworks of social justice and critical theories Social justice nursing is defined by the editors as nursing practice that is emancipatory and rests on the principle of praxis which is practice aimed at attaining social justice goals and outcomes that improve health experiences and conditions of individuals their communities and society There is a lack in the nursing discipline of resources that contain praxis approaches and there is a need for new concepts models and theories that could encompass scholarship and practice aimed at purposive reformation of nursing other health professions and health care systems Chapters bridge critical theoretical frameworks and nursing science in ways that are understandable and useful for practicing nurses and

other health professionals in clinical settings in academia and in research In this book nurses ideas and knowledge development efforts are not limited to problems and solutions emerging from the dominant discourse or traditions The authors offer innovative ways to work towards establishing alternative forms of knowledge capable of capturing both the roots and complexity of contemporary problems as distributed across a diversity of people and communities It fills a significant gap in the literature and makes an exceptional contribution as a collection of new writings from some of the foremost nursing scholars whose works are informed by critical frameworks Strong Hearts and Healing Hands Clifford E. Trafzer, 2021-04-06 In 1924 the United States began a bold program in public health The Indian Service of the United States hired its first nurses to work among Indians living on reservations This corps of white women were dedicated to improving Indian health In 1928 the first field nurses arrived in the Mission Indian Agency of Southern California These nurses visited homes and schools providing public health and sanitation information regarding disease causation and prevention Over time field nurses and Native people formed a positive working relationship that resulted in the decline of mortality from infectious diseases Many Native Americans accepted and used Western medicine to fight pathogens while also continuing Indigenous medicine ways Nurses helped control tuberculosis measles influenza pneumonia and a host of gastrointestinal sicknesses In partnership with the community nurses quarantined people with contagious diseases tested for infections and tracked patients and contacts Indians turned to nurses and learned about disease prevention With strong hearts Indians eagerly participated in the tuberculosis campaign of 1939 40 to x ray tribal members living on twenty nine reservations Through their cooperative efforts Indians and health care providers decreased deaths cases and misery among the tribes of Southern California Good Tuberculosis Men Carol R. Byerly, 2013 In 1917 as the United States prepared for war in Europe Army Surgeon General William C Gorgas recognized the threat of Mycobacterium tuberculosis to American troops What the Army needed was some good tuberculosis men Despite the efforts of the nations best tuberculosis men the disease would become a leading cause of World War I disability discharges and veterans benefits The fact that tuberculosis patients often experienced cycles in which they recovered their health and then fell ill again challenged government officials to judge the degree to which a person was disabled and required government care and support This book tracks the impact of tuberculosis on the US Army from the late 1890s when it was a ubiquitous presence in society to the 1960s when it became a curable and controllable disease Nursing Interventions Through Time Patricia D'Antonio, Sandra Lewenson, 2011 Named a 2011 Choice Outstanding Academic Title Designated a Doody's Core Title This is a must read for nurses who are interested in where nursing has been and what nurses have done to get to the present day Score 94 4 stars Doody's Nursing has a rich history that consistently informs contemporary practice and standards This book by examining pivotal historical interventions across the spectrum of clinical care allows nurses of today to incorporate the wisdom of the past into their own daily work Maternal child health programs palliative care tuberculosis medications pediatric care and diabetes care and more are

discussed This invaluable resource documents how and why specific nursing interventions came about what aspects of these interventions are utilized today and why and how nurses of the past have addressed and solved the challenges of practice from adapting to new technologies to managing the tension of the nurse physician relationship Learn how nurses of the past 150 years have combated the challenges of Providing care to victims of pandemics such as yellow fever tuberculosis and influenza Adapting to new medical practices and technologies throughout the 20th century Integrating cultural sensitivity into clinical care for special populations and underserved communities Bringing public health services to rural communities Fighting for public health policies that support hospice services in the United States *FORTY-FIVE YEARS IN WHITE UNIFORMS* C.L.G. Solomon, 2013-06 Forty five years in white uniforms From the pen of the same writer of the book *Natural Bread Is Not Enough* comes a partial biographical account of her forty five year nursing career Seventeen years were spent working in various disciplines of nursing while the final twenty eight years were spent working in public health nursing In keeping with HIPPA laws which are designed to protect the privacy of clients and their information no part of this writing at any point ever divulges anyone s name or records The information is recollected from various work experiences in various cities and states over a period of years Forty five years have not qualified me to be an authority in the nursing field It has simply given me various insights that someone else may read about and make a quality career decision I had classmates who dropped out of nursing school and stated Nursing definitely is not for me Some students failed because they underestimated the amount of study and dedication involved in becoming a nurse Some students were not willing to spend long hours in study and research Some found that the sights and smells of blood and other body fluids were definite turnoffs One other classmate completed the entire nursing program with a 4.0 average only to say she hated it She never practiced a day of nursing She excelled in clinicals as well as in the classroom She received the highest academic award in our class yet nursing was not her cup of tea The experiences that I encountered in my personal life somewhat intensified my desire to become a nurse I am happy to have been able to practice the kind of work that was very satisfying to me The nursing knowledge that paralleled certain difficult times in my life was priceless Nursing is the type of profession that one can practice in different settings with various categories of people such as the aged the middle aged the young adults the teens the expectant moms and their children the newborn premature babies and people with special needs Work settings run the gamut from hospitals to jails institutions the military private homes clinics schools rehabilitation centers of different types and other settings not mentioned Someone once said Variety is the spice of life Variety abounds in the nursing profession A nurse can expand on her career by becoming an advanced registered nurse practitioner nurse anesthetist midwife legal consultant or she may go on to medical school to be a physician Nurses also train other nurses Administration is another career option within nursing One of the first things a prospective nurse needs to consider is which type of program she should choose Some students choose the certified nursing assistant CNA program They want to obtain some of the basic skills and a quick job These skills

often include learning to take vital signs such as blood pressure pulse and respiration They learn how to do basic care and other skills that can assist the nurse in his her work CNA skills can serve as a pivotal point for the person to move higher into the medical profession Some certified nursing assistants advance their training and become registered nurses and doctors Nurses are trained in programs of different length and at different levels Licensed practical nurses or LPNS may train one or more years depending on where they train Registered nurses or RNs may complete an associate s degree and start work after licensure RNs may also complete a four year baccalaureate degree program All levels must be certified Some medical facilities offer CNA training whereby a student may work and train in their facility at the same time Upon completion of training the student is expected to work for the institution for a contracted amount of time The student may stop at this level or move further into the profession Associate and baccalaureate programs are located on College campuses A C
