and ageing and explores shifting formulations of old age and gender in contemporary cinema Broad in its scope the book establishes the importance of silver audiences to the survival of cinema exhibition while also forging connections between the pleasures of old age films consumer culture the economy of celebrity and the gendered silvering of stardom The chapters examine gendered genres such as romantic comedies action and heist movies the prosthetics of costume and CGI enabled age transformations Through this analysis Josephine Dolan teases out the different meanings of ageing masculinity and femininity offered in contemporary cinema She identifies ageing femininity as the pathologised target of rejuvenation while masculine ageing is seen to enhance an enduring youthfulness This book has interdisciplinary appeal and will engage scholars interested in old age and gender representations in contemporary cinema *Hollywood's Imperial Wars* Armando José

Prats, 2024-04-16 When the Vietnam War punctured the myth of American military invincibility Hollywood needed a new kind of war movie The familiar triumphal narrative was relegated to history and with it the heroic legacy that had passed from one generation to the next for more than two hundred years How Hollywood helped create and instill the American myth of heroic continuity and how films revised that myth after the Vietnam War is what Armando José Prats explores in *Hollywood's Imperial Wars* The book offers a new way of understanding the cultural and historical significance of Vietnam in relation to Hollywood's earlier representations of Americans at war from the mythic heroism of a film like *Sands of Iwo Jima* to the rupture of that myth in films such as *The Deer Hunter* *Apocalypse Now* and *Platoon* As early as the mid 1940s Prats suggests fears aroused by the Cold War were stirring anxieties about sustaining the heroic myth anxieties reflected in the insistent aggressive patriotism in films of the period In this context Prats considers the immeasurable cultural importance of John Wayne the cinematic apotheosis of wartime valor and righteousness whose patriotism was nonetheless deeply compromised by his not having served in World War II Prats reveals how historical and cultural anxieties emerge in well known Vietnam movies in which characters inspired by the heroes of the Second World War are denied the heroic legacy of their fathers American war movies in Prats's analysis were forever altered by the loss in Vietnam Even movies like *American Sniper* that exalt war heroes are marked as much by the failure of the heroic tropes of old Hollywood war movies as by the tragic turn of actual historical events Tracing what Prats calls the anxiety of legacy through the films of the World War II and post Vietnam War periods this book offers a new way of looking at both the Hollywood war movie and the profound cultural shifts it reflects and refracts *Clint Eastwood* Ian Nathan, 2023-09-21 Clint Eastwood is Hollywood's elder statesman and its

conscience He is the standard by which other films and filmmakers are judged He represents both classical Hollywood and an entirely modern uncompromising and unfussy directorial presence There are those who adore him as a cowboy a superstar the rugged unyielding yet introspective face of American machismo There are those who read him as a great American auteur fashioning uncompromising fascinating intellectual films about his country about life about whatever the hell takes his fancy No single figure in all of Hollywood operates so freely outside of the strictures of commercial pressure

And yet or perhaps that is because he makes hit after hit Separation of actor and director is almost impossible They are intimately related cross pollinating but he has become in the latter half of his career to be view as one of the great American artists While drawing connections from his wider work as an actor and those who have influenced him it is his identity as a director that this book will celebrate This is not a career it is a landscape [The Year's Best Science Fiction: Thirty-Fourth Annual Collection](#) Gardner Dozois,2017-07-11 In the new millennium what secrets lay beyond the far reaches of the universe What mysteries belie the truths we once held to be self evident The world of science fiction has long been a porthole into the realities of tomorrow blurring the line between life and art Now in The Year s Best Science Fiction Thirty Fourth Annual Collection the very best SF authors explore ideas of a new world This venerable collection brings together award winning authors and masters of the field With an extensive recommended reading guide and a summation of the year in science fiction this annual compilation has become the definitive must read anthology for all science fiction fans and readers interested in breaking into the genre *Doug Pratt's DVD* Douglas Pratt,2005 Doug Pratt is the leading reviewer of DVDs a contributor to Rolling Stone and editor and publisher of The DVD Laserdisc Newsletter Choice says Pratt s writing is amusing comprehensive and informative Rolling Stone calls this two volume set the gold standard on all things DVD The set is unique in giving space to non feature film DVDs the fastest growing area of the market Not just a reference book it s also good reading *Fade to Gray* Timothy Shary,Nancy McVittie,2016-09-06 Americans are living longer and reinventing both work and retirement but Hollywood movies barely hint at this reality of contemporary society In many popular films older characters fade into irrelevance inactivity or absurdity or else they stay in the background as wise elders while younger characters provide the action Most American films do not attempt to portray the rich variety of experiences or the sensitive aging issues that people confront in the years beyond fifty Fade to Gray offers one of the first extended studies of the portrayal of older people in American cinema from the silent era to the present Writing in an accessible style for both general audiences and scholars Timothy Shary and Nancy McVittie examine social attitudes toward aging through an analysis of hundreds of individual films including such classics as You Can t Take It With You 1938 Rosemary s Baby 1968 Grumpy Old Men 1993 and Nebraska 2013 They show how representations of the aging process and depictions of older people embracing or enduring the various experiences of longer lives have evolved over the past century as well as how film industry practices have both reflected and influenced perceptions of aging in American society Exposing the social and political motivations for negative cinematic portrayals of the elderly Fade to Gray also gives visibility to films that provide opportunities for better understanding and appreciation of the aged and the aging process **Official Gazette of the United States Patent and Trademark Office** ,2004 **The Year's Best Science Fiction: Seventeenth Annual Collection** Gardner Dozois,2000-08-12 In science fiction s early days stories often looked past 1984 to the year 2000 as the far unknowable future Here now on the brink of the twenty first century the future remains as distant and as unknowable as ever and science

fiction stories continue to explore it with delightful results Collected in this anthology are such imaginative gems as *The Wedding Album* by David Marusek In a high tech future the line between reality and simulation has grown thin and it's often hard to tell who's on what side *Everywhere* by Geoff Ryman Do the people who live in utopian conditions ever recognize them as such *Hatching the Phoenix* by Frederik Pohl One of science fiction's Grand Masters returns with a star crossing tale of the Heechee the enigmatic vanished aliens whose discarded technology guides mankind through the future *A Hero of the Empire* by Robert Silverberg Showing that the past is as much a province of the imagination as the future this novelette returns to an alternate history when the Roman Empire never fell to show us just how the course of history can be altered The twenty seven stories in this collection imaginatively take us to nearby planets and distant futures into the past and into universes no larger than a grain of sand Included here are the works of masters of the form and of bright new talents Supplementing the stories are the editor's insightful summation of the year's events and a lengthy list of honorable mentions making this book a valuable resource in addition to serving as the single best place in the universe to find stories that stir the imagination and the heart [The Year's Best Science Fiction: Eighteenth Annual Collection](#) Gardner Dozois, 2001-08-18
