American Sniper University:

American Snipers K.A. Harrison, America has for a long time produced outstanding sharpshooters like Chuck Mawhinney and Adelbert Waldron but the most memorable and deadliest are Chris Kyle and Carlos Hathcock This is their story *American Sniper (Enhanced Edition)* Chris Kyle, Scott McEwen, Jim DeFelice, 2012-01-03 NOW A BLOCKBUSTER MOTION PICTURE DIRECTED BY CLINT EASTWOOD NOMINATED FOR SIX ACADEMY AWARDS INCLUDING BEST PICTURE This special enhanced edition features more than 10 exclusive videos with Chris Kyle and an additional 15 images and descriptions of the weapons used by the armed forces in their fight against terrorism overseas From 1999 to 2009 U S Navy Seal Chris Kyle recorded the most career sniper kills in United States military history His fellow American warriors whom he protected with deadly precision from rooftops and stealth positions during the Iraq War called him The Legend meanwhile the enemy feared him so much they named him al Shaitan the devil and placed a bounty on his head Kyle who was tragically killed in 2013 writes honestly about the pain of war including the deaths of two close SEAL teammates and in moving first person passages throughout his wife Taya speaks openly about the strains of war on their family as well as on Chris Gripping and unforgettable Kyle s masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time Please note that due to the large file size of these special features this enhanced e book may take longer to download than a standard e book **The Written Dead** Kyle William Bishop, Angela Tenga, 2017-06-29 From Victor Halperin s *White Zombie* 1932 to George A Romero s landmark *Night of the Living Dead* 1968 and AMC s hugely successful *The Walking Dead* 2010 zombie mythology has become an integral part of popular culture In a reversal of the typical pattern of adaptation the zombie developed onscreen before appearing in short stories and comic books during the 20th century and more recently as subjects of more traditional novels This collection of new essays examines some of the most influential and inventive zombie literature from the early stories to the most recent narratives including some told from a zombie perspective *Docu-Fictions of War* Tatiana Prorokova, 2019-05-01 Historical writing and fiction are not the same thing though historians often creatively manipulate material in imposing plot structures selecting starting and ending points and fashioning compelling literary characters from historical figures In *Docu Fictions of War* Tatiana Prorokova argues that the opposite is also true war fiction offers a kind of history that both documents its subjects and provides a snapshot of the cultural representation of the United States most recent military involvements She covers a largely neglected body of cinematic and literary texts about the First Gulf War the Balkan War the Afghanistan War and the Iraq War to open a fresh analysis of cultural texts on war Prorokova contends that these texts are not pure fiction but docu fictions works of imagination that can document their subjects while disclosing the social political and historical link between war and culture during the last three decades *Docu Fictions of War* analyzes how these representational narratives have highlighted a humanitarian rationale behind American involvement in each war whether the stated goals were to free the oppressed from

tyranny stop genocide or rid the world of terrorism The book explores the gap between history what allegedly happened and the cultural mythology that is both true and inexact tangible and sensed recognized and undocumented Islamophobia in Higher Education Shafiqah Ahmadi,Darnell Cole,2023-07-03 While Islamophobia was present in our society before 9 11 it has become more pervasive in recent years This is evidenced by the current social and political climate hate speech and hate crimes directed at Muslims and the Supreme Court s upholding of Presidential Proclamation 645 that effectively bans Muslim immigration from coming to the U S What does this mean for Muslim students in college and indeed for institutions of higher education as they navigate law and policy on the one hand and adhere to their mission of achieving inclusive and equitable educational environments on the other Two thirds of Muslims in the U S are vexed with current policy and there has been an alarming increase in reports of bigotry and discrimination against them since the 2016 presidential elections The fear of Islam in general and Muslims specifically not only compels non Muslims to differentially treat Muslims but also trade some of their own civil rights and civil liberties under the guise of national security To address these issues institutions require a nuanced understanding of laws and policies that institutionalize Islamophobia and a greater understanding of the diverse college students that identify as Muslim This book fills what has been a dearth of research that explores the experiences and navigation of Muslim students in colleges and universities and addresses the even less studied domain of the experiences of Muslim students who hold multiple marginalized identities such as race ethnicity and LGBTQ status as well as the intersection of those identities that may create multiple burdens of oppression and discrimination This book begins by critically engaging with how current laws and policies institutionalize Islamophobia and affect the intersectionality and diversity within the Muslim community It includes multidisciplinary voices such as an international human rights attorney a civil rights attorney a criminal law attorney student affairs practitioners and research faculty whose work on this marginalized student population is traditionally not recognized within academic settings and brings the voices of female Muslim scholars to the fore Each chapter includes a critical analysis of the literature a legal analysis when appropriate a set of recommendations for policy and practice and discussion questions *Politically Incorrect Guide to Jihad* William Kilpatrick,2016-09-26 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country **The Enemy in Contemporary Film** Martin Löschnigg,Marzena Sokołowska-Paryż,2018-08-21 Culture and conflict inevitably go hand in hand The very idea of culture is marked by the notion of difference and by the creative fraught interaction between conflicting concepts and values The same can be said of all key ideas in the study of culture such as identity and diversity memory and trauma the translation of cultures and globalization dislocation and emplacement mediation and exclusion This series publishes theoretically informed original scholarship from the fields of literary and cultural studies as well as media visual and film studies It fosters an interdisciplinary dialogue on the multiple ways in which conflict supports and constrains the production of meaning on how

The Jurisdiction of the International Criminal Court Victor Tsilonis, 2019-11-23 The book provides a holistic examination of the jurisdiction of the International Criminal Court ICC The main focus is placed on the three pillars which form the ICC's foundation pursuant to the Rome Statute the preconditions to the exercise of its jurisdiction Article 12 Rome Statute the substantive competence i.e. the core crimes Article 5 8bis Rome Statute i.e. genocide crimes against humanity war crimes crime of aggression the principle of complementarity Article 17 1 a Rome Statute The latter governs the ICC's ultimate jurisdiction since it is not merely sufficient for a crime to be within the Court's jurisdiction according to the substantive geographical personal and temporal jurisdictional criteria but the State Party must also be unwilling or unable genuinely to carry out the investigation or prosecution Finally yet importantly the main negative preconditions for the Court's jurisdiction i.e. immunities Article 27 Rome Statute and exceptions via Security Council referrals are thoroughly examined The book is an excellent resource for scholars as well as practitioners and notably contributes to the existing literature

Buchanan, 2016-09-27 Since 9/11 war literature has become a key element in American popular culture spurring critical debate about depictions of combat Who can write war literature When can they do it This book presents a new way to closely read war narratives questioning the idea of combat gnosticism the belief that the experience of war is impossible to communicate to those who have not seen it that has dominated the discussion Adapting Kenneth Burke's scapegoat mechanism to the criticism of literature and film the author examines three novels from 2012 Ben Fountain's *Billy Lynn's Long Halftime Walk* David Abrams's *FOBBIT* and Kevin Powers' *The Yellow Birds* that represent the U.S. military responses to 9/11

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet, 2020-12-16 Combat Death in Contemporary American Culture Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination

The Transformations of Tragedy Fionnuala O'Neill Tønning, Erik Tønning, Jolyon Mitchell, 2019-11-26 The Transformations of Tragedy Christian Influences from Early Modern to Modern explores the influence of Christian theology and culture upon the development of post classical Western tragedy The volume is divided into three parts early modern modern and contemporary This series of essays by established and emergent scholars offers a sustained study of Christianity s creative influence upon experimental forms of Western tragic drama Both early modern and modern tragedy emerged within periods of remarkable upheaval in Church history yet Christianity s diverse influence upon tragedy has too often been either ignored or denounced by major tragic theorists This book contends instead that the history of tragedy cannot be sufficiently theorised without fully registering the impact of Christianity in transition towards modernity

Woke Army Asra Q. Nomani, 2023-02-27 From California to the West Bank former Wall Street Journal reporter Asra Q Nomani spans the globe investigating a hidden network of keyboard warriors who hide behind fake identities and pseudonymous Twitter and Facebook accounts These

digital trolls launch virulent attacks against Muslim reformers and others who challenge their divisive attempts to destroy American freedoms In *Woke Army* the author moves from being hunted by this network to being the hunter The book uncovers the real identities of the network's members chronicles their secret operations and reveals their impact on American public debate from policing to education in our K 12 schools In doing so Nomani uncovers an unholy alliance between radical Muslims who preach jihad against Western freedoms and far left activists whose divisive ideology turns all of society's issues into a race war The shock troops of this dangerous red green alliance work in tandem using harassment threats and bullying to silence critics and labeling those who speak out as Islamophobic or racist A must read for anyone who fears for America's freedoms *Woke Army* reveals what can happen when activism radicalism and the dark web collide

Victory Undone Carter Andress, Malcolm McConnell, 2014-10-20 Here is a dramatic first person account of how the United States won the war in Iraq only to see the peace lost by an unengaged administration with Iraqis terrorized and the new caliph of ISIS promising I'll see you in New York Military contractor Carter Andress was the ultimate boots on the ground civilian in Iraq While reporters aid workers diplomats and even U S soldiers were often cut off from the ground truth in Iraq by the blast walls protecting the Green Zone and our bases Andress was in the thick of things driving through insurgent infested territory negotiating with hostile tribes and witnessing the transformation of Iraq from chaos and violence to a stable multi ethnic multi sectarian democracy that needed only minimal American support to defend itself support however that thanks to the Obama administration was not forthcoming A page turner of a story but also an incredibly important account of what actually happened in the Iraq War and afterwards *Victory Undone* is a book every American needs to read

Transnational Film and the US Wars in Iraq & Afghanistan Marzena Sokołowska-Paryż, Marek Paryż, 2025-01-15 This book offers insights into diverse non American national perspectives on the US led military interventions in Afghanistan and Iraq within the generic frames of the war film While the best known films about the post 9 11 wars in the Middle East are American productions various other national cinematographies have responded to these conflicts which is not surprising given the fact that international coalitions were formed to support the US military effort However non American war films about these US instigated interventions have received little attention outside their own national contexts This volume fills in the gap in the existing war film criticism by offering insights into how the Afghanistan War 2001 2021 and the Iraq War 2003 2011 have been represented in popular and documentary filmic productions in Iraq Afghanistan Great Britain Germany Denmark Poland Spain and Australia The contributions prove the need for transnationalism as an eye opening perspective on the war film genre by underscoring nationally specific social political and aesthetic differences alongside important correspondences between cultural productions across nations *Transnational film and the US wars in Iraq and Afghanistan* will be a key resource for scholars and researchers of film studies media and cultural studies film history war studies literary criticism and sociology It was originally published as a special issue of *Journal of War Culture Studies* **Alpha**
