Superintendent of Documents, 1993 **Congressional Record Index**, 1991 Includes history of bills and resolutions **Fortitudine**, 2003 **Life of an American Soldier** Geoffrey A. Campbell, 2001 Describes the men and women who fought in the Persian Gulf War including their combat experiences, leisure activities, feelings, and more **Why Democracies Fight Dictators** Assistant Professor Department of Political Science Madison Schramm, Madison Schramm, 2025 This book explores how liberal democratic elites' perceptions of personalist adversaries dictators make democracies more likely to opt for military solutions than other regime types Madison V Schramm argues that when conflicts of interest between liberal democracies and personalist regimes arise, leaders in liberal democracies are predisposed to perceive personalist dictators as particularly threatening and to respond with anger, an emotional response that elicits more risk acceptance and aggressive behavior. Building on research in political science, history, sociology, and psychology, Schramm provides a novel and nuanced explanation of why democracies are so prone to military conflict with personalist regimes **Encyclopedia of Political Communication** Lynda Lee Kaid, Christina Holtz-Bacha, 2008 Political communication began with the earliest studies of democratic discourse by Aristotle and Plato. However, modern political communication relies on an interdisciplinary base which draws on concepts from communication, political science, journalism, sociology, psychology, history, rhetoric, and others. This two-volume resource considers political communication from a broad interdisciplinary perspective encompassing the many different roles that communication plays in political processes in the United States and around the world. The Encyclopedia of Political Communication discusses the major theoretical approaches to the field including direct and limited effects theories, agenda setting theories, sociological theories, framing and priming theories, and other past and present conceptualizations. With nearly 600 entries, this resource pays considerable attention to important political messages such as political speeches, televised political advertising, political posters, and print advertising, televised political debates, and Internet sites. The audiences for political communications are also central, necessitating concentration on citizen reactions to political messages, how the general public and voters in democratic systems respond to political messages, and the effects of all types of media and message types. **Key Features** Encompasses several channels of political communication including interpersonal and public communication, radio, television, newspapers, and the World Wide Web. Provides news media coverage and journalistic analysis of politics, political issues, political figures, and political institutions. Concentrates on the field of political communication since the middle of the 20th century. Emphasizes political communication from the point of view of the United States, but there is substantial and important research and scholarship on political communication in international contexts. Considers the role of communication in governing, incorporating communication activities that influence the operation of executive, legislative, and judicial bodies.

Theoretical Concepts Women in Politics The Encyclopedia of Political Communication is designed for libraries undergraduates and members of the public with an interest in political affairs Media and political professionals as well as government officials lobbyists and participants in independent political organizations will find these volumes useful in developing a better understanding of how the media and communication function in political settings http://catdir.loc.gov/catdir/enhancements/fy0828/2007026514_d.html **Justifying America's Wars** Nicholas Kerton-Johnson, 2010-09-13 This book examines the justifications for and practice of war by the US since 1990 and examines four case studies the Gulf War Kosovo Afghanistan and Iraq The author undertakes an examination of presidential speeches and public documents from this period to determine the focal points on which the respective presidents based their rhetoric for war The work then examines the practice of war in the light of these justifications to determine whether changes in justifications correlate with changes in practice In particular the justificatory discourse finds four key themes that emerge in the presidential discourses which are tracked across the case studies and point to the fundamental driving force in US motivations for going to war The four key themes which emerge from the data are international law or norms human rights national interest and egoist morality similar too but wider than exceptionalism This analysis shows that 9 11 resulted in a radical shift away from an international law and human rights focused justificatory discourse to one which was overwhelmingly dominated by egoist morality justifications and national interest This book will be of much interest to students of US foreign policy humanitarian intervention Security Studies and IR theory **Bombing to Provoke** Jaganath Sankaran, 2024-10-24 The influence of aerospace weapons on the battlefield is felt profoundly yet the mechanism of coercion by which these weapons alter the will of the adversary is poorly understood This book argues that it is not what these weapons physically do but how they weaponize fear and trigger a sense of defenselessness that matters for understanding their coercive effect For anyone seeking to understand why states at war in the age of aerospace weapon warfare operate and react in the ways that they do this book's methodical dissection of the strategic rationale behind these weapons makes it necessary reading **The Oxford Companion to American Military History**, **Capitol Idea** Donald E. Abelson, 2006-08-14 A Capitol Idea reveals the extent to which think tanks in the United States have become active and vocal participants in the foreign policy making process In this timely exploration Donald Abelson re-evaluates the role of these complex organizations and looks at how political influence is achieved on Capitol Hill and in the White House **Librarianship and Information Science in the Islamic World, 1966-1999** Sterling Joseph
