American Ecclesiastical Review Herman Joseph Heuser, 1916

Geographers Hayden Lorimer, Charles

W. J. Withers, 2015-10-29 Volume 34 of *Geographers* Biobibliographical Studies features eight essays that together demonstrate geographers' diverse scholarly engagement with the practice of their subject There are two physical geographers a Frenchman and an Englishman both geomorphologists a British historical geographer a French colonial geographer a Russian explorer naturalist of Central Asia and Tibet a British born but long time Australian resident and

scholar of India Pakistan and the Pacific world an American regionalist and eugenicist and a Scots born long time American resident one of the world s leading Marxist geographers and urban theorists Equally but differently committed to geography s many specialisms these subjects wonderfully illuminate the vibrancy and the contradictions behind the living of geographical lives

Fighting for the Good Cause Gerald Sweeney,2001 Sir Francis Galton was an influential mentor for the educational psychologists who supplied crucial doctrine to American eugenics from 1903 to 1930 Yet the nature of his influence has never been specified The psychologists own claim as to the Galton s contribution that he provided sufficient justification for their absolutist hereditarianism was clearly disingenuous Rather he appears to have functioned as a model for these figures who were informed by their perceptions of Galton s ulterior purposes in constructing eugenics as he did Any of various features in the 45 year long course of that development could have encouraged these particular legatees to appreciate both Galton and his product as surreptitious stanchers of democracy
