Networks of Empire Giles Scott-Smith, 2008 Exchange programmes have been a part of US foreign relations since the nineteenth century but it was only during and after World War II that they were applied by the US government on a large scale to influence foreign publics in support of strategic objectives This book looks at the background organisation and goals of the Department of State s most prestigious activity in this field the Foreign Leader Program The Program still running as the International Visitor Leadership Program enabled US Embassies to select and invite talented influential opinion leaders to visit the United States meet their professional counterparts and gain a broad understanding of American attitudes and opinions from around the country By tracking the operation of the Program in three key transatlantic allies of the United States a full picture is given of who was selected and why and how the target groups changed over time in line with a developing US European relationship The book therefore takes a unique in depth look at the importance of exchanges for the extension of US informal empire and the maintenance of the transatlantic alliance during the Cold War **Women Writers**
