The Enemy in Contemporary Film Martin Löschnigg, Marzena Sokołowska-Paryż, 2018-08-21 Culture and conflict inevitably go hand in hand. The very idea of culture is marked by the notion of difference and by the creative, fraught interaction between conflicting concepts and values. The same can be said of all key ideas in the study of culture such as identity and diversity, memory and trauma, the translation of cultures and globalization, dislocation and emplacement, mediation and exclusion. This series publishes theoretically informed original scholarship from the fields of literary and cultural studies as well as media, visual and film studies. It fosters an interdisciplinary dialogue on the multiple ways in which conflict supports and constrains the production of meaning, on how conflict is represented, how it relates to the past and projects the present, and how it frames scholarship within the humanities. Conflict Management and Intercultural Communication Xiaodong Dai, Guo-Ming Chen, 2022-11-15 Conflict management and harmony building are two key issues of intercultural communication research and merit particular attention in the globally interconnected world. In the expanded second edition, the book explores the effective ways to manage intercultural conflict and develop intercultural harmony and takes an interdisciplinary approach to address the two issues. The book begins with the theoretical perspectives on conflict management and harmony building. It examines intercultural communication, ethics, diversity and inclusion, conflict resolution, conflict face negotiation and intercultural competence. It presents both Western and non-Western perspectives. The book then addresses, in its second section, conflict management and harmony building in specific contexts. These include communication in intergenerational relationships, multinational corporations and virtual spaces, and covers a range of national cultures including the USA, Japan, Germany and China. Drawing on the current research findings, this book covers the major theoretical perspectives and provides for a wide range of discussions on intercultural conflict management. It is a crucial reference for teachers, students, researchers and practitioners alike.
