Ellis, 2014 This book presents for the first time a comprehensive overview of the seminal early work of a century of American architects including Richard Morris Hunt H H Richardson Raymond Hood and Charles Follen McKim who studied at the prestigious and influential cole des Beaux Arts Paris before going on to design and build many of this nation s most important buildings and monuments Cover page 4 **Railway Palaces of Portland, Oregon: The Architectural Legacy of Henry Villard** Alexander Benjamin Craghead, 2016 In 1883 railroad financier Henry Villard brought Portland and the Pacific Northwest their first transcontinental railroad Earning a reputation for boldness on Wall Street the war correspondent turned entrepreneur set out to establish Portland as a burgeoning metropolis To realize his vision he hired architects McKim Mead White to design a massive passenger station and a first class hotel Despite financial panics lost fortunes and stalled construction the Portland Hotel opened in 1890 and remained the social heart of the city for sixty years While the original station was never built Villard returned as a pivotal benefactor of Union Station saving its iconic clock tower in the process Author Alexander Benjamin Craghead tells the story of this Gilded Age patron and the architecture that helped shape the city s identity [Histories of Architecture Education in the United States](#) Peter L. Laurence, 2023-10-31 Histories of Architecture Education in the United States is an edited collection focused on the professional evolution experimental and enduring pedagogical approaches and leading institutions of American architecture education Beginning with the emergence of architecture as a profession in Philadelphia and ending with the early work but unfinished international effort of making room for women and people of color in positions of leadership in the field this collection offers an important history of architecture education relevant to audiences both within and outside of the United States Other themes include the relationship of professional organizations to educational institutions the legacy of late nineteenth century design concepts the role of architectural history educational changes and trans Atlantic intellectual exchanges after WWII and the Cold War the rise of the city and urban design in the architect s consciousness student protests and challenges to traditional architecture education and the controversial appearance of environmental activism This collection in other words provides a relevant history of the present with topics of concern to all architects studying and working today *Whistler to Cassatt* Timothy J. Standring, 2021-01-01 A revelatory look at an underexplored chapter of American art which took place not on American soil but in France In the late nineteenth and early twentieth centuries American artists flocked to France in search of instruction critical acclaim and patronage Some including James McNeill Whistler John Singer Sargent and Mary Cassatt became highly regarded in the French press advancing their careers on both sides of the Atlantic Others notably William Merritt Chase John Twachtman Childe Hassam and Thomas Wilmer Dewing part of the association known as The Ten found success working in the style of the French Impressionists while Henry Ossawa Tanner Cecilia Beaux and Elizabeth Jane Gardner focused on genre and history subjects This richly

illustrated volume offers a sophisticated examination of cultural and aesthetic exchange as it highlights many figures including artists of color and women who were left out of previous histories Celebrated scholars from both American and French institutions detail the complex history and diverse styles of these expatriate artists styles ranging from conservative academic modes to Tonalism and provide original perspectives on this fertile period of creativity expanding our

understanding of what constitutes American art **Henry James and Queer Filiation** Michael Anesko,2018-09-08 This study challenges the notion that closeted secrecy was a necessary part of social life for gay men living in the shadow of the trial and imprisonment of Oscar Wilde It reconstructs a surprisingly open network of queer filiation in which Henry James occupied a central place The lives of its satellite figures most now forgotten or unknown offer even more suggestive evidence of some of the countervailing forms of social practice that could survive even in that hostile era If these men enjoyed such exemption largely because of the prerogatives of class privilege their relative freedom was nevertheless a visible rebuke to the reductive stereotypes of homosexuality that circulated and were reinforced in the culture of the period This book will be of particular interest to scholars of Henry James and queer studies readers of late Victorian and modern literature and those interested in the history and social construction of gender roles *Fiske and Marie Kimball* Marie Frank,2025-12-04 The

fascinating journey of one of the art world s great midcentury power couples The essays in this interdisciplinary volume explore how Fiske and Marie Kimball together and in their own respective ways shaped the experience and understanding of art and architecture in the twentieth century From his pioneering publication *Thomas Jefferson Architect* in 1916 through his long connection with Monticello and position as director of the Philadelphia Museum of Art Fiske Kimball emerged as a powerful and influential voice He was dubbed the dean of American architectural history and his scholarship established the rich legacy of the past while his engagement with public monuments guided design in the present Marie Kimball was an accomplished historian and prolific writer whose multivolume biography of Jefferson was widely celebrated She was also the first curator of Monticello and played a key role in the display and interpretation of its historic objects Although both Fiske and Marie distinguished themselves independently they also regularly worked together and their joint efforts evidence a rare partnership of the mind This collection celebrates and contextualizes this remarkable pair **The Routledge Companion to**

American Colonisation and the City Beautiful Ian Morley,2019-10-30 Winner of the 2020 IPHS Koos Bosma Prize

American Colonisation and the City Beautiful explores the history of city planning and the evolution of the built environment in the Philippines between 1916 and 1935. In so doing it highlights the activities of the Bureau of Public Works Division of Architecture as part of Philippine national development and decolonisation. Morley provides new archival materials which deliver significant insight into the dynamics associated with both governance and city planning during the American colonial era in the Philippines with links between prominent American university educators and Filipino architecture students. The book discusses the two cities of Tayabas and Iloilo which highlight the significant role in the urban design of places beyond the typical historiographical focus of Manila and Baguio. These examples will aid in further understanding the appearance and meaning of Philippine cities during an important era in the nation's history. Including numerous black and white images, this book is essential for academics, researchers and students of city and urban planning, the history and development of Southeast Asia and those interested in colonial relations.

Trailblazing Architect Victoria Kastner, 2022-02-15. This new biography featuring over 150 archival images and full color photographs printed throughout introduces Julia Morgan as both a pioneering architect and a captivating individual. Julia Morgan was a lifelong trailblazer. She was the first woman admitted to study architecture at the École des Beaux-Arts in Paris and the first licensed to practice architecture in California. Over the first half of the 20th century, she left an indelible mark on the American West. Of her remarkable 700 creations, the most iconic is Hearst Castle. Morgan spent thirty years constructing this opulent estate on the California coast for the newspaper magnate William Randolph Hearst, forging a lifelong friendship and creative partnership with him. Together they built a spectacular and unequalled residence that once hosted the biggest stars of Hollywood's golden age and that now welcomes hundreds of thousands of visitors each year. This compelling biography draws on interviews, letters, and Morgan's diaries, including never-before-seen reflections on faith, art, and her life experiences. Morgan's friendship with Hearst, her passion for California's landscape, her struggles with familial dementia, and her devotion to architecture reveal her to have been a singularly brilliant and determined artist.
