Argentine Democracy The Politics Of Institutional Weakness:

Argentine Democracy Steven Levitsky, Maria Victoria Murillo, 2005 During the 1990s Argentina was the only country in Latin America to combine radical economic reform and full democracy In 2001 however the country fell into a deep political and economic crisis and was widely seen as a basket case This book explores both developments examining the links between the real and apparent successes of the 1990s and the 2001 collapse Specific topics include economic policymaking and reform executive legislative relations the judiciary federalism political parties and the party system and new patterns of social protest Beyond its empirical analysis the book contributes to several theoretical debates in comparative politics Contemporary studies of political institutions focus almost exclusively on institutional design neglecting issues of enforcement and stability Yet a major problem in much of Latin America is that institutions of diverse types have often failed to take root Besides examining the effects of institutional weakness the book also uses the Argentine case to shed light on four other areas of current debate tensions between radical economic reform and democracy political parties and contemporary crises of representation links between subnational and national politics and the transformation of state society relations in the post corporatist era Besides the editors the contributors are Javier Auyero Ernesto Calvo Kent Eaton Sebastian Etchemendy Gretchen Helmke Wonjae Hwang Mark Jones Enrique Peruzzotti Pablo T Spiller Mariano Tommasi and Juan Carlos Torre

Argentine Democracy: The Politics of Institutional Weakness, 2005 The Politics of Institutional Weakness in Latin America Daniel M. Brinks, Steven Levitsky, María Victoria Murillo, 2020-06-11 Rather than an unintended by product of poor state capacity weak political and legal institutions are often weak by design **Democracies and Dictatorships in Latin America** Scott Mainwaring, Aníbal Pérez-Liñán, 2014-01-31 This book presents a new theory for why political regimes emerge and why they subsequently survive or break down It then analyzes the emergence survival and fall of democracies and dictatorships in Latin America since 1900 Scott Mainwaring and Anibal Pérez Liñán argue for a theoretical approach situated between long term structural and cultural explanations and short term explanations that look at the decisions of specific leaders They focus on the political preferences of powerful actors the degree to which they embrace democracy as an intrinsically desirable end and their policy radicalism to explain regime outcomes They also demonstrate that transnational forces and influences are crucial to understand regional waves of democratization Based on extensive research into the political histories of all twenty Latin American countries this book offers the first extended analysis of regime emergence survival and failure for all of Latin America over a long period of time Argentina's Economic Growth and Recovery Michael Cohen, 2012-05-15 This book examines the causes of the economic and political crisis in Argentina in 2001 and the process of strong economic recovery It poses the question of how a country which defaulted on its external loans and was widely criticized by international observers could have succeeded in its growth and development despite this decision in 2002 It examines this process in terms of the impact of neo liberal policies on the economy and the role of

development strategy and the state in recovering from the crisis **Protest State** Mason Wallace Moseley, 2018 Why is social protest a normal almost routine form of political participation in certain Latin American democracies but not others In light of surging protests in countries like Argentina Brazil and Peru this book answers this question through a focus on recent trends in the quality of governance and socioeconomic development in the region Specifically it argues that increasingly engaged citizenries forged by economic growth and technological advances coupled with dysfunctional political institutions have fueled more radical modes of participation in Latin America as citizens demands for government responsiveness have overwhelmed many regimes capacity to provide it Where weak institutions and politically engaged citizenries collide countries can morph into protest states where contentious participation becomes so common as to render it a conventional characteristic of everyday political life Drawing on cross national surveys from Latin America and a case study of Argentina which includes a rich dataset of protest events and dozens of interviews with political elites and citizen activists Mason W Moseley tests his explanation against other leading theories in the contentious politics literature But rather than emphasizing how worsening economic conditions and mounting grievances fuel protest this book builds the case that it is actually the improvement of economic conditions amidst low quality political institutions that lies at the root of surging contention in the region Protest State offers a comprehensive study of one of the most intriguing puzzles in Latin American politics today in the midst of an unprecedented era of democratic governments and economic prosperity why are so many people protesting

Crisis and Contradiction , 2014-12-11 Since the late 1990s much of Latin America has experienced an uneven and contradictory turn to the Left in the electoral arena At the same time there has been a rejuvenation of Marxist critiques of political economy Drawing on the expertise of Latin American North American and European scholars this volume offers cutting edge theoretical explorations of trends in the region as well as in depth case studies of Argentina Bolivia Brazil and Venezuela Essays in the volume focus on changes to class formation in Latin America and offer new insights into the state form exploring the complex relationship between state and market in contexts of late capitalist development particularly in countries endowed with incredible natural resource wealth Contributors are Dario Azzellini Emilia Castorina Mariano F liz Juan Grigera Nicolas Grinberg Gabriel Hetland Claudio Katz Thomas Purcell Ben Selwyn Susan J Spronk Guido Starosta Leandro Vergara Camus and Jeffery R Webber **Democracy in Hard Places** , 2022-07-22 This is an open access title available under the terms of a CC BY NC ND 4 0 International license It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations The last fifteen years have witnessed a democratic recession Democracies previously thought to be well established Hungary Poland Brazil and even the United States have been threatened by the rise of ultra nationalist and populist leaders who pay lip service to the will of the people while daily undermining the freedom and pluralism that are the foundations of democratic governance The possibility of democratic collapse where we least expected it has added new urgency to the age old inquiry into how democracy once

attained can be made to last In *Democracy in Hard Places* Scott Mainwaring and Tarek Masoud bring together a distinguished cast of contributors to illustrate how democracies around the world continue to survive even in an age of democratic decline Collectively they argue that we can learn much from democratic survivals that were just as unexpected as the democratic erosions that have occurred in some corners of the developed world Just as social scientists long believed that well established Western educated industrialized and rich democracies were immortal so too did they assign little chance of democracy to countries that lacked these characteristics And yet in defiance of decades of social science wisdom many countries that were bereft of these hypothesized enabling conditions for democracy not only achieved it but maintained it year after year How does democracy persist in countries that are ethnically heterogenous wracked by economic crisis and plagued by state weakness What is the secret of democratic longevity in hard places This book the first to date to systematically examine the survival persistence of unlikely democracies presents nine case studies in which democracy emerged and survived against the odds Adopting a comparative cross regional perspective the authors derive lessons about what makes democracy stick despite tumult and crisis economic underdevelopment ethnolinguistic fragmentation and chronic institutional weakness By bringing these cases into dialogue with each other Mainwaring and Masoud derive powerful theoretical lessons for how democracy can be built and maintained in places where dominant social science theories would cause us to least expect it

Parties under Pressure Matthias Dilling, 2024-08-07 An illuminating investigation into why some parties evolve with their times while others fall behind Around the world established political parties face mounting pressures insurgents on the Left and Right altered media environments new policy challenges and the erosion of traditional strongholds to name just a few Yet parties have differed enormously in their ability to move with the times and update their offers to voters This variation matters While adaptation does not guarantee a party's electoral success the failure to modernize can spell its decline even collapse and create openings for radical and populist parties that may threaten the future of liberal democracy *Parties under Pressure* examines why some parties adapt meaningfully to social economic and political transformations while others flounder focusing especially on the fate of Western Europe's Christian democratic parties Matthias Dilling reveals the under appreciated importance of party factions While very high levels of factionalism are counter productive and create paralysis more moderate levels of factionalism help parties to adapt by giving visibility to fresh groups and ideas Dilling draws on extensive archival research in Germany Italy and Austria as well as evidence from France Japan and beyond Taking a comparative historical approach *Parties under Pressure* sheds new light on parties varying records of adaptive reforms over more than seventy five years

Argentina's Radical Party and Popular Mobilization, 1916-1930 Joel Horowitz, 2010-11-01

Social and Political Foundations of Constitutions Denis James Galligan, 2013 This volume analyses the social and political forces that influence constitutions and the process of constitution making It combines theoretical perspectives on the social and political foundations of constitutions with a range of detailed case studies

of constitution making in nineteen different countries In the first part of the volume leading scholars analyse and develop a range of theoretical perspectives including constitutions as coordination devices mission statements contracts products of domestic power play transnational documents and as reflection of the will of the people In the second part of the volume these theories are examined through in depth case studies of the social and political foundations of constitutions in countries such as Egypt Nigeria Japan Romania Bulgaria New Zealand Israel Argentina and others The result is a multidimensional study of constitutions as social phenomena and their interaction with other social phenomena The approach combines social science analysis of the nature of constitutions with case studies of selected constitutions **Routledge Handbook of Latin**

American Politics Peter Kingstone, Deborah J. Yashar, 2013-03-05 The Routledge Handbook of Latin American Politics brings together the leading figures in the study of Latin America to present extensive empirical coverage and a cutting edge examination of the central areas of inquiry in the region **Reorganizing Popular Politics** Ruth Berins Collier, Samuel Handlin, 2015-10-29 A historic shift has occurred in the organizational structures through which the lower classes in Latin America express voice and find political representation With the political and economic reforms of the 1980s and 1990s networks of community based associations and nongovernmental organizations replaced party affiliated labor unions as the predominant organizations to which the lower classes turned This volume examines the new interest regime in Argentina Chile Peru and Venezuela through two extensive surveys one of individuals and one of associations undertaken in those nations capital cities Contrary to common perceptions the new interest regime is neither a vibrant autonomous civil society nor a set of weak atomized organizations Participation in associations is generally high compared to direct action as a strategy for pursuing collective interests and associations more frequently coordinate and engage the state than has sometimes been assumed However various forms of interaction with the state pose a classic trade off between representation and state control and the new interest regime is marked by representational distortion in that the lower classes are less likely to use the new structures than the middle classes Within these general patterns distinct national models are emerging This volume represents the most ambitious and systematic effort to date to examine individual participation and associational life in Latin America and to carry out a cross national analysis of new forms of political representation **The Poor's Struggle**

for Political Incorporation Federico M. Rossi, 2017-09 A study of the poor's movements in response to the ever widening gap between the poor and the state in Latin American politics **Who Decides Social Policy?** Bonvecchi, Alejandro, Scartascini, Carlos, 2020-11-02 This book combines an institutional political economy approach to policy making with social network analysis of social policy formulation processes Based on extensive interviews with governmental and nongovernmental actors the case studies of social policy formulation in Argentina The Bahamas Bolivia and Trinidad and Tobago show that while societal actors are central in the networks in South American countries government officials are the main participants in the Caribbean countries The comparative analysis of the networks of ideas information economic

resources and political power across these cases indicates that differences in the types of bureaucratic systems and governance structures may explain the diversity of actors with decision power and the resources used to influence social policy formulation across the region. These analytical and methodological contributions combined with specific examples of policies and programs will help to enhance the efficiency, efficacy, and sustainability of public policies in the social arena.

Intergovernmental Transfers in Federations Serdar Yilmaz, Farah Zahir, 2020-01-31. *Intergovernmental Transfers in Federations* presents a synthesis of international experience of large federations in the most recent times in addressing the most fundamental issue of horizontal and vertical imbalances in their countries through the prism of intergovernmental transfers. Contributors delve into the various aspects of policy making as well as policy choices in selecting an efficiency path for a meaningful fiscal devolution aimed at integrating performance and incentives to reach an expenditure mix that facilitates better service delivery.

Party Systems in Latin America Scott Mainwaring, 2018-02-08. This book generates a wealth of new empirical information about Latin American party systems and contributes richly to major theoretical debates about party systems and democracy.

Weak Institutions and the Governance Dilemma Mariella Falkenhain, 2020-04-07. *Weak Institutions and the Governance Dilemma* is especially important and welcome since it offers a very incisive analysis of the role of NGOs in transitional democracies and the effect of institutional setting on NGO effectiveness in representing citizen interests. This book offers a very creative conceptual framework and timely penetrating case studies which provide valuable insights on NGO strategy, governmental capacity, and the possibilities for social change. Steven Rathgeb Smith, Executive Director, American Political Science Association and Georgetown University, USA. This book provides a novel analytical perspective on policymaking, policy effects, and NGOs in hybrid regimes. It examines the sources and patterns of gaps between formal rules, political practice, and longer term effects, and explores how NGOs navigate the tension-laden environments that gaps represent. The book shows how weak institutions and malfunctioning policies turn NGOs into ambivalent actors. Empirically, it covers criminal justice and social protection policies in post-Soviet Georgia and Armenia. The findings from the in-depth case studies are then extended by a discussion of gaps in hybrid regimes as diverse as Malaysia, Kenya, and Russia. The book's approach and findings will appeal to scholars, students, and practitioners interested in NGOs, institutional theory, and public policy.

Reflections on Uneven Democracies Daniel Brinks, Marcelo Leiras, Scott Mainwaring, 2014-09-22. A tour de force analysis of the current state of democracy studies as seen through the scholarly legacy of Guillermo O'Donnell. Winner of the CHOICE Outstanding Academic Title of the Choice ACRL. The third wave of democratization produced a wealth of enduring social science. Beginning in the 1970s, it prompted scholars to develop important theories on authoritarian breakdowns and transitions to democracy. No one in the field was more influential than Guillermo O'Donnell (1936-2011), whose pathbreaking work shaped the scholarship of generations of social scientists. *Reflections on Uneven Democracies* honors the legacy of O'Donnell's research by advancing debates related to his work on

democracy Drawing together a veritable Who's Who of eminent scholars including two of O'Donnell's closest collaborators Philippe Schmitter and Laurence Whitehead the volume examines issues related to democratic breakdowns and stability the nature and quality of new democracies institutional strength the rule of law and delegative democracy This reexamination of some of the most influential arguments about democracy of the past forty years leads to original approaches and insights for a new era of democracy studies Students of democracy and institutional performance both Latin Americanists and comparativists more generally will find this essential reading

Policymaking in Latin America Pablo T. Spiller, Ernesto H. Stein, Mariano Tommasi, Carlos Scartascini, Marcus André Melo, Bernardo Mueller, Carlos Pereira, Cristóbal Aninat, John Londregan, Patricio Navia, Joaquín Vial, Mauricio Cárdenas, Mónica Pachón, Andrés Mejía Acosta, María Caridad Araujo, Aníbal Pérez-Liñán, Sebastián Saiegh, Fabrice Lehoucq, Gabriel Negretto, Francisco Javier Aparicio, Benito Nacif, Allyson Lucinda Benton, José R. Molinas, Marcela Montero, Francisco Monaldi, Rosa Amelia González de Pacheco, Richard Obuchi, Michael Penfold, 2008-01-01 What determines the capacity of countries to design approve and implement effective public policies To address this question this book builds on the results of case studies of political institutions policymaking processes and policy outcomes in eight Latin American countries The result is a volume that benefits from both micro detail on the intricacies of policymaking in individual countries and a broad cross country interdisciplinary analysis of policymaking processes in the region
