Aristophanes Knights Classical Texts Ancient Greek Edition

Niall Livingstone

Aristophanes Knights Classical Texts Ancient Greek Edition:

Department of the Classics and Department of Indic Philology Anonymous, 2025-07-10 Reprint of the original first published in 1883 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *The Athenaeum*, 1853 *School of engineering. Examination for diploma* Dublin city, univ, 1857 **The Political Theory of Aristophanes** Jeremy J. Mhire, Bryan-Paul Frost, 2014-04-09 This original and wide ranging collection of essays offers for the first time a comprehensive examination of the political dimensions of that madcap comic poet Aristophanes Rejecting the claim that Aristophanes is little more than a mere comedian the contributors to this fascinating volume demonstrate that Aristophanes deserves to be placed in the ranks of the greatest Greek political thinkers As these essays reveal all of Aristophanes plays treat issues of fundamental political importance from war and peace poverty and wealth the relation between the sexes demagoguery and democracy to the role of philosophy and poetry in political society Accessible to students as well as scholars The Political Theory of Aristophanes can be utilized easily in the classroom but at the same time serve as a valuable source for those conducting more advanced research Whether the field is political philosophy classical studies history or literary criticism this work will make it necessary to reconceptualize how we understand this great Athenian poet and force us to recognize the political ramifications and underpinnings of his uproarious comedies **The Saturday Review of Politics, Literature, Science and Art**, 1868 **Athenian Power in the Fifth Century BC** Leah Lazar, 2024-01-03 Athenian Power in the Fifth Century BC provides a new analysis of the fifth century BC Athenian empire a central topic in ancient Greek history Challenging orthodox approaches which have been mostly empirical monolithic and focused on Athens the book argues that Athenian power was flexible and a matter of negotiation between the Athenians and their allies It brings the allies to centre stage as active agents and considers how the Athenian empire operated in different regions The first three chapters focus on political fiscal and religious interactions between the Athenians and their allies in Athenian contexts The subsequent three chapters then offer studies of the empire in three different regions the North Aegean Rhodes and the straits between the Aegean and the Black Sea showing how the empire employed overlapping but differentiated regional strategies This book is distinct from previous contributions in three key ways First it offers new perspectives on well known Athenian epigraphic and literary sources while also utilising different categories of non Athenian evidence including varied forms of material culture Second it provides sophisticated economic analysis Third the monograph makes use of critical historical comparison with other imperial powers with later Athenian power and with the operation of fifth century Athenian power in different regions *The Manuscript Tradition of Procopius' Gothic Wars* Maria Kalli, 2011-11-30 The Introduction which gives information about the life and work of Procopius and also about previous editions and studies of the text is followed by Chapter 1 which contains an analytical codicological and palaeological

description of codex Ath which was written in the late 13th century and is thus the earliest extant ms of Procopius Wars Section 2 examines the position of the codex in the stemma codicum proposed by the latest editor of the text Jacob Haury Procopius Caesariensis Opera Omnia Teubner Leipzig 1905 12 revised by G Wirth 1963 A collation of the text with the principal manuscripts K and L of the two families z and y shows that Ath belongs to the y family A further collation of Ath with all other extant manuscripts of this family of the fifteenth and sixteenth centuries illustrates the importance of Ath in the tradition of the text despite its minor phonetic grammatical syntactical and linguistic errors Section 3 gives a description and updated information of all manuscripts of family y which were briefly described by previous editors and some of them were not examined at all before their relation is examined and the stemma codicum is revised on the basis of a series of propositions It is concluded that Ath has been the exemplar for some of the later manuscripts either directly or through intermediaries The study concludes with a more theoretical chapter Section 4 which places the production of Ath and other manuscripts containing Procopius works and other early Byzantine historiographical texts in the general context of the intellectual milieu of the Palaeologan period

Athens Niall Livingstone, 2016-07-07 The citizens of ancient Athens were directly responsible for the development and power of its democracy but how did they learn about politics and what their roles were within it In this volume Livingstone argues that learning about political praxis how to be a citizen was an integral part of the everyday life of ancient Athenians In the streets shops and other meeting places of the city people from all levels of society from slaves to the very wealthy exchanged knowledge and competed for power and status The City as University explores the spaces and occasions where Athenians practised the arts of citizenship for which they and their city became famous In the agora and on the pnyx Athenian democracy was about performance and oratory but the written word opened the way to ever increasing sophistication in both the practice and theory of politics As the arts of spin proliferated spontaneous live debate in which the speaker's authority came from being one of the many remained a core democratic value Livingstone explores how ideas of democratic leadership evolved from the poetry of the legendary law giver Solon to the writings of the sophist Alcidas of Elaia The volume offers a new approach to the study of ancient education and will be an invaluable tool to students of ancient politics and culture and to all those studying the history of democracy

Athenaeum and Literary Chronicle, 1868

Sculpture, weaving, and the body in Plato Zacharoula Petraki, 2023-08-21 Plato's Timaeus is unique in Greek Antiquity for presenting the creation of the world as the work of a divine demiurge The maker bestows order on sensible things and imitates the world of the intellect by using the Forms as models While the creation myth of the Timaeus seems unparalleled this book argues that it is not the first of Plato's dialogues to use artistic language to articulate the relationship of the objects of the material world to the world of the intellect The book adopts an interpretative angle that is sensitive to the visual and art historical developments of Classical Athens to argue that sculpture revolutionized by the advent of the lost wax technique for the production of bronze statues lies at the heart of Plato's conception of the

relation of the human soul and body to the Forms It shows that despite the severe criticism of mīmōsis in the Republic Plato's use of artistic language rests on a positive model of mīmōsis Plato was in fact engaged in a constructive dialogue with material culture and he found in the technical processes and the cultural semantics of sculpture and of the art of weaving a valuable way to conceptualise and communicate complex ideas about humans relation to the Forms The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7 Michael Gagarin, 2010

John Ponet (1516-1556): Scholar, Bishop, Insurgent Mark Earngey, 2025-04-10 John Ponet 1516 1556 was a central figure in the English Reformation an intellectual ecclesiastical leader and political thinker This monograph revisits Ponet's contributions to theology humanism and political theory revealing his vital role in the Edwardian Reformation as a leading member of the Cambridge Athenians Using newly discovered archival material and his reconstructed personal library this study offers a fresh perspective on Ponet's influence from his promotion of evangelical reforms under Edward VI to his advocacy for limited monarchy and resistance against tyranny under Mary By rightly remembering Ponet this book challenges the prevailing narratives and reshapes our understanding of the early English Reformation and mid Tudor England A Companion to Greek Democracy and the Roman Republic Dean Hammer, 2014-11-17 A Companion to Greek Democracy and the Roman Republic offers a comparative approach to examining ancient Greek and Roman participatory communities Explores various aspects of participatory communities through pairs of chapters one Greek one Roman to highlight comparisons between cultures Examines the types of relationships that sustained participatory communities the challenges they faced and how they responded Sheds new light on participatory contexts using diverse methodological approaches Brings an international array of scholars into dialogue with each other

Encyclopedia of Ancient Greece Nigel Wilson, 2013-10-31 Examining every aspect of the culture from antiquity to the founding of Constantinople in the early Byzantine era this thoroughly cross referenced and fully indexed work is written by an international group of scholars This Encyclopedia is derived from the more broadly focused Encyclopedia of Greece and the Hellenic Tradition the highly praised two volume work Newly edited by Nigel Wilson this single volume reference provides a comprehensive and authoritative guide to the political cultural and social life of the people and to the places ideas periods and events that defined ancient Greece
