Operation Iraqi Freedom Catherine Dale, 2011-04 Operation Iraqi Freedom OIF the U S led coalition military operation in

Iraq was launched on March 20 2003 with the goal of removing Saddam Hussein's regime and destroying its ability to use weapons of mass destruction. The focus of OIF has shifted from regime removal to helping the Gov't of Iraq improve security, establish a system of governance and foster economic development. This report addresses these policy issues: Identifying how U.S. national interests and strategic objectives in Iraq and the region should guide further U.S. engagement; Monitoring and evaluating the impact of the changes in the U.S. presence and role in Iraq; and Laying the groundwork for a traditional bilateral relationship. Commander and Staff Officer Guide September 2011 United States Government US Army, 2013-03-24. This Army tactics techniques and procedures ATTP reinforces the fundamentals of mission command established in field manual FM 3-0 Operations FM 5-0 The Operations Process and FM 6-0 Mission Command. Whereas the above manuals focus on the fundamentals of mission command, this manual provides commanders and staff officers with tactics techniques and procedures TTP essential for the exercise of mission command. This is a new Army publication. It includes many of the appendices currently found in FM 5-0 and FM 6-0 that addressed the how-to of mission command. By consolidating this material into a single publication, Army leaders now have a single reference to assist them with TTP associated with planning, preparing for, executing, and continually assessing operations. This ATTP also enables the Army to better focus the material in future editions of FMs 5-0 and 6-0 on the fundamentals of the operations process and mission command respectively. How and Why States Defect from Contemporary Military Coalitions Kathleen J. McInnis, 2019-06-19. This book identifies contemporary military coalition defections, builds a theoretical framework for understanding why coalition defection occurs, and assesses its utility for both the scholarly and policy practitioner communities. Drawing upon the author's own experiences managing the Afghanistan coalition for the Pentagon, the volume builds a relevant policy and practical understanding of some of the key aspects of contemporary coalition warfare. Ultimately, it concludes that coalition defection is prompted by heightened perceptions of political and military risk. Yet the choice of how to defect, whether to completely withdraw forces or instead find another, less risky way to participate, is largely a function of international and alliance pressures to remain engaged.
