Are You Stupid A Second Revolution Might Save America From Herself:

Are You Stupid? Mihai Nadin, 2013-07-05 In the most dynamic and prosperous country on Earth the USA stupidity overshadows the intellectual and technical accomplishments that other nations envy If Americans continue to delude themselves about their country the USA will end up like the USSR imploding from within This work analyzes the systemic aspects of America s current condition across the board dumbing down through media and in education growing dependence on and demand for entitlements corruption in the private and political domains chronic cronyism the opportunistic engineering of reality Consequently individual and collective stupidity not only leads to crises it renders the USA impotent in dealing with the challenges of the fast dynamics characteristic of our time of post industrial capitalism oriented towards consumption The causes for this state of stupidity are examined the people s willful ignorance of the nation s true history and development an economic system that does not foster a sense of citizenry cultivated mediocrity in education and entertainment corruption of justice rampant consumerism a state of prosperity that lulls the people into complacency Taking the rewards of change for granted Americans no longer understand what change entails Gazing into the rear view mirror of history in search of answers they forget that the USA was founded in a world more similar to the 1st century than the 21st Americans will have to start fighting their own stupidity instead of further exhausting the country s and the world s resources in wars and entitlement measures America has to reset herself within an authentic democratic process on a foundation appropriate to the integrated world of the global information age

The Fight to Save American Freedoms Stanley Duncan, 2022-01-28 The Fight to Save American Freedom must be led by American patriots so that legal voting citizens can preserve our birthright freedoms in the elections of 2022 and 2024 The November 3 2020 election was a five alarm fire Thomas Jefferson said the Missouri Compromise of 1820 awakened him like a fire bell in the night The November 3 2020 election was a power grab by the radical left to fundamentally change America in ways that spell doom for the greatest nation on earth This book is an easy read that will evoke many thoughts of pride about the United States as well as an alarming fear for our nation s survival Read historical facts that will serve as a counterargument to the actions of radical leftists and the untrue propaganda that threatens individual freedoms economic stability and the existence of our country This book provides history and common sense as a north star for navigation to evaluate the current path that America is traveling Two polar opposites of ideology are struggling for the soul of America The author engages readers via a Socratic questioning methodology that evokes the reader s inductive reasoning capabilities for an analysis of real factual history propaganda and the causes and effects of current events This unique writing style will allow readers to formulate with clarity their position regarding the turmoil taking place in America today Read this book and you will learn for the first time or experience a reaffirmation of the greatness of the United States of America enjoyed by our citizens and the world at large All Americans are invited to study the story of the greatest nation ever To all patriots fence sitters and those on the other side

you are invited to engage in this dialogue with the author What is at stake in 2022 and 2024 everything The facts of this story must be told to all Americans **The Development of Black Theater in America** Leslie Catherine Sanders,1989-08-01 In

The Development of Black Theater in America Leslie Sanders examines the work of the American black theater's five most productive playwrights Willis Richardson Randolph Edmonds Langston Hughes LeRoi Jones and Ed Bullins Sanders sees the history of black theater as the process of creating a black stage reality while at the same time transforming conventions borrowed from white European culture into forms appropriate to black artists and audiences The author argues that only when these things were accomplished could the aim of black playwrights often articulated as the realistic portrayal of the Negro be fully realized This study also examines the changing nature of the dialogue black playwrights have held with the dominant tradition and how that dialogue has shaped their imaginations Sanders discussion of Richardson Edmonds Hughes Jones and Bullins provides a context for approaching the work of other black playwrights such as James Baldwin Lorraine Hansberry and Owen Dodson And her argument provides a concrete way of understanding how the context of a dominant culture influences the artistic imagination of writers not of that culture who must come to terms with its influences and transform it into a vehicle of their own **Two Addresses: American Youth and the World Revolution,delivered at the**
