Bringing Back the Child Lisa J. Brown,Peter E. Jones,2014-10-21 This book presents a unique multi faceted investigation of the language abilities of three older adopted Romanian orphans who experienced extreme deprivation in their early years Serena Gabrielle and Ingrid were aged 7 years 6 years and nearly 4 years respectively when rescued by UK families from the orphanages where they were placed at or around their birth In these institutions an absence of social and psychological stimulation nutritious food and physical exercise had left them completely dependent on care staff for their most basic needs and effectively without language The book presents the findings of a two year research study of the competencies in language nonverbal cognition and social and communicative behaviour which the girls acquired over several years in their new homes and discusses the implications of their linguistic progress for the Critical Period Hypothesis and modularity Detailed qualitative analysis of the girls language in everyday conversation is combined with quantitative analysis of developmental progress and structural complexity and with the results of standardized tests The authors argue that the girls progress in language defies the predictions of current Critical Period models and offers no evidence of modular dissociations between language and other cognitive domains These findings are

considered in relation to other research on language development in internationally adopted children *Alex Dogboy*

The Mystery of the Real Jeffrey Meyers,2016-06-14 The work of Alex Colville O C 1920 2013 one of the great modern realist painters combines the Flemish detail of Andrew Wyeth the eerie foreboding of George Tooker and the anguished confrontations of Lucian Freud Behind the North Americans stands their common master Edward Hopper Colville s works are in many museums in Canada and Germany He has affinities with Max Beckmann and appeals to the German secondary virtues cleanliness punctuality love of order In a long life he resolutely opposed the fashionable currents of abstract and expressionistic art In contrast to Jackson Pollock s wild action painting Colville created paintings of contemplation and reflection As Jeffrey Meyers writes I spent several days with Colville on each of three visits from California to Wolfville I received seventy letters from him between August 1998 and April 2010 and kept thirty six of my letters to him He sent me photographs and slides of his work and in his eighties discussed the progress and meaning of the paintings he completed during the last decade of his life His handwritten letters precisely explaining his thoughts and feelings provide a rare and enlightening opportunity to compare my insights and interpretations with his own intentions and ideas He also discussed his family health sexuality politics reading travels literary interests our mutual friend Iris Murdoch response to my writing his work exhibitions sales of his pictures and of course the meaning of his art His letters reveal the challenges he faced during aging and illness and his determination to keep painting as health difficulties mounted He stopped writing to me

when he became seriously ill two years before his death In this context the late paintings presented in colour in this book take on a new poignancy **Alex Colville** Marlborough Fine Art Ltd,Alex Colville,1970 *The Arts in Canada* William J.
