Alexander History Origin Growth Earliest:

The Cambridge Companion to Alexander the Great Daniel Ogden, 2024-01-18 Has any ancient figure captivated the imagination of people over the centuries so much as Alexander the Great In less than a decade he created an empire stretching across much of the Near East as far as India which led to Greek culture becoming dominant in much of this region for a millennium Here an international team of experts clearly explains the life and career of one of the most significant figures in world history They introduce key themes of his campaign as well as describing aspects of his court and government and exploring the very different natures of his engagements with the various peoples he encountered and their responses to him The reader is also introduced to the key sources including the more important fragmentary historians especially Ptolemy Aristobulus and Clitarchus with their different perspectives The book closes by considering how Alexander's image was manipulated in antiquity itself *The Magazine of American History*, 1890 The Magazine of American History with Notes and Queries John Austin Stevens, Benjamin Franklin DeCosta, Henry Phelps Johnston, Martha Joanna Lamb, Nathan Gillett Pond, 1890 The Origins and Early Development of the Antichrist Myth Gregory C. Jenks, 2011-05-02 Die Reihe Beihefte zur Zeitschrift für die neutestamentliche Wissenschaft BZNW ist eine der ältesten und renommiertesten internationalen Buchreihen zur neutestamentlichen Wissenschaft Seit 1923 publiziert sie wegweisende Forschungsarbeiten zum frühen Christentum und angrenzenden Themengebieten Die Reihe ist historisch kritisch verankert und steht neuen methodischen Ansätzen die unser Verständnis des Neuen Testaments befördern gleichfalls offen gegenüber **ALEXANDER THE GREAT IN BACTRIA AND INDIA NARRATIVE** Dan-Tudor IONESCU, 2025-01-01 This book is not only the attempt at the reconstruction of the military expedition of the army of Alexander the Great in Bactria and India and an analysis of the historical sources on which our modern image of Alexander's age is based but also aims at reconstructing the imago mundi that the ancient Greeks and Macedonians had on the world they conquered The birth and development of Alexander's myth are also treated in these pages **Warfare in Pre-British India - 1500BCE to 1740CE** Kaushik Roy, 2015-06-03 This book presents a comprehensive survey of warfare in India up to the point where the British began to dominate the subcontinent It discusses issues such as how far was the relatively bloodless nature of pre British Indian warfare the product of stateless Indian society How far did technology determine the dynamics of warfare in India Did warfare in this period have a particular Indian nature and was it ritualistic The book considers land warfare including sieges naval warfare the impact of horses elephants and gunpowder and the differences made by the arrival of Muslim rulers and by the influx of other foreign influences and techniques The book concludes by arguing that the presence of standing professional armies supported by centralised bureaucratic states have been underemphasised in the history of India The Magazine of History with Notes and Queries, 1890 **The Conquests of Alexander the Great** Waldemar Heckel, 2007-11-05 Waldemar Heckel provides a revisionist overview of the conquests of Alexander the Great Emphasising the aims and impact of his military expeditions the

political consequences of military action and the use of propaganda both for motivation and justification his underlying premise is that the basic goals of conquest and the keys to military superiority have not changed dramatically over the millennia Indeed as Heckel makes clear many aristocratic and conquest societies are remarkably similar to that of Alexander in their basic aims and organisation Heckel rejects the view of Alexander as a reincarnation of Achilles as an irrational youth on a heroic quest for fame and immortality In an engaging and balanced account of key military events Heckel shows how Alexander imposed his will on the willing and how the defeated were no longer capable of resisting his military might
