Aldo Van Eyck Aldo van Eyck, 1982 *Aldo van Eyck, Hubertushuis* Herman Hertzberger, Addie van Roijen-Wortmann, Francis Strauven, 1987 Beschrijving van het werk van de Nederlandse architect geb 1918 waarbij het Hubertushuis te Amsterdam als uitgangspunt genomen is **Utopias and Architecture** Nathaniel Coleman, 2007-05-07 Utopian thought though commonly characterized as projecting a future without a past depends on golden models for re invention of what is Through a detailed and innovative re assessment of the work of three architects who sought to represent a utopian content in their work and a consideration of the thoughts of a range of leading writers Coleman offers the reader a unique perspective of idealism in architectural design With unparalleled depth and focus of vision on the work of Le Corbusier Louis I Kahn and Aldo van Eyck this book persuasively challenges predominant assumptions in current architectural discourse forging a new approach to the invention of welcoming built environments and transcending the limitations of both the postmodern and hyper modern stance and orthodox modernist architecture **Functionalism Revisited** Jon Lang, Walter Moleski, 2016-12-05 A range of current approaches to architecture are neglected in our contemporary writings on design philosophies This book argues that the model of function and the concept of a functional building that we have inherited from the twentieth century Modernists is limited in scope and detracts from a full understanding of the purposes served by the built environment It simply does not cover the range of functions that buildings can afford nor is it tied in a conceptually clear manner to our contemporary concepts of architectural theory Based on Abraham Maslow s theory of human motivations and following on from Lang s widely used text *Creating Architectural Theory The Role of the Behavioral Sciences in Environmental Design* Lang and Moleski here propose a new model of functionalism that responds to numerous observations on the inadequacy of current ways of thinking about functionalism in architecture and urban design Copiously illustrated the book puts forward this model and then goes on to discuss in detail each function of buildings and urban environments **Encyclopedia of Twentieth Century Architecture** R. Stephen Sennott, 2004 A balance of sophistication and clarity in the writing authoritative entries and strong cross referencing that links architects and structures to entries on the history and theory of the profession make this an especially useful source on a century of the world s most notable architecture The contents feature major architects firms and professional issues buildings styles and sites the architecture of cities and countries critics and historians construction materials and planning topics schools movements and stylistic and theoretical terms Entries include well selected bibliographies and illustrations Reference that rocks American Libraries May 2005 **Modern Architecture in Europe** Dennis J. De Witt, Elizabeth R. publications and thesis titles 1994 2009 **Design and Agency** John Potvin, Marie-Ève Marchand, 2020-05-14 Design and Agency brings together leading international design scholars and practitioners to address the concept of agency in relation to objects organisations and people The authors set out to expand the scope of design history and practice avoiding the heroic narratives of a typical modernist approach They consider both how the agents of design construct and express their identities and subjectivities through practice while also investigating the distinctive contribution of design in the construction of individual identity and subjectivity Individual chapters explore notions of agency in a range of design disciplines and historical periods including the agency of women in effecting changes to the design of offices and working practices the role of Jeffrey Lindsay and Buckminster Fuller in developing the design of a geodesic dome Le Corbusier s Casa Curutchet a re consideration of the gendered historiography of the Jugendstil movement and Bruce Mau s design exhibitions Taken together the essays in Design and Agency provide a much needed response to the traditional texts which dominate design history With a broad chronological span from 1900 to the present and an equally broad understanding of the term design it expands how we view the discipline and shows how design itself can be an agent for social cultural and economic change From neo-Renaissance to post-modernism Marijke Beek, 1996 **The Penguin Guide to Amsterdam** Vincent Westzaan, 1990

Amsterdam Art Guide Christian Reinewald, 1985 **Architecture in the Netherlands** Hilde de Haan, Ids Haagsma, 1991 *Amsterdam* Time Out Guides Ltd, 2014-06-15 Europe s most infamous city remains one of its most popular and not without good reason between its world class art museums its eminently wanderable canals and its coffee shops that don t exactly specialize in coffee its variety is glorious indeed However with one of Europe s more forward thinking cultural scenes and striking new architectural developments in IJburg and the Bijlmermeer there s much more here to enjoy than the cliché s written researched and edited entirely by locals the Time Out Amsterdam guide will tell travelers all about it Highlights Amsterdam after dark the best restaurants bars and nightclubs in the city but also the ones to avoid Mini guides to the city s most notable works of art and where to find them An unmatched section on the city s modern day cultural scene galleries and performance art classical music and theater An in depth look at the city s stunning new urban architecture Trips Beyond Amsterdam to the flower auction in Aalsmeer the cheese market at Gouda and the windmills of Alblusserdam and also to the fizzing modern city of Rotterdam Architectuur als oude wetenschap Joost Meuwissen, 1988 World Architecture , 1992 **Critical seventies** Martien de Vletter, 2004 There is no period in the history of the Netherlands which excites such emotion resistance or aversion as the decade of the 1970s Following in the wake of the democratization wave of 1968 some regard the 1970s as a period when pluralism was possible and desirable at all levels For others the crowning moment of 1968 degenerated into a quagmire of public consultation and a culture of always inconclusive committee meetings The 70s were either hip and groundbreaking or dogmatic and rigid The architecture of the time which headed off in pursuit

of new definitions and forms is similarly divisive Though a number of architectural trajectories were driven by a devoted social engagement and a profound belief in architecture as a means of molding society the sheer plethora of movements failed to generate a single and unanimous alternative resulting instead in polarization and pluralism The Critical Years focuses on architecture urban planning and spatial planning from 1968 to 1982 Specific projects from the period are discussed and extensively documented on the basis of six themes and an introductory essay considers the context in which building and planning changed so radically With the imminent demolition and renovation of much of the infrastructure and architecture of the 1970s this book is a critical and timely document of one of the most important periods for architecture in the Netherlands Kleur en architectuur ,1986 Catalogus bij de tentoonstelling in Museum Boymans van Beuningen te Rotterdam 28 9 1986 TOT 9 11 86 en in het Groningermuseum 14 12 1986 tot 25 1 1987 **Jan Versnel** Jan Versnel,Flip Bool,Solange de Boer,Maarten Kloos,1997 Overzicht met zwart witte opnamen van het werk van de bekende Nederlandse architectuurfotograaf 1924
