The S-2 Project Jennifer Ferranno, 2004-03 Susan Kelsey has an ideal life She has a career with an electronics development firm in a big city a nice home and a new car Coming from a small town Susan finds herself uneasy with the city's crime rate Being a pacifist she is stunned to discover she is being stalked by a thief and the police are unable to identify him When the thief turns out to be a mass murderer who is targeting the highly classified S 2 Project her salvation comes in the form of an agent for Homeland Security Their worlds and their ideas on law enforcement are totally opposite but even Susan realizes he is her only chance to survive Neither of them counted on their emotions to get in the way and although opposites are supposed to attract can Susan forget that the man who stole her heart carries a gun everywhere When the tables are turned can she find the strength to do what it takes to save the agent's life *Lab Activity and Project* Holt, Rinehart and Winston Staff, 1997 **Congressional Record** United States. Congress, 2000 Arguments, Stories and Criminal Evidence Floris J. Bex, 2011-02-15 In this book a theory of reasoning with evidence in the context of criminal cases is developed The main subject of this study is not the law of evidence but rather the rational process of proof which involves constructing testing and justifying scenarios about what happened using evidence and commonsense knowledge A central theme in the book is the analysis of one's reasoning so that complex patterns are made more explicit and clear This analysis uses stories about what happened and arguments to anchor these stories in evidence Thus the argumentative and the narrative approaches from the research in legal philosophy and legal psychology are combined Because the book describes its subjects in both an informal and a formal style it is relevant for scholars in legal philosophy AI logic and argumentation theory The book can also appeal to practitioners in the investigative and legal professions who are interested in the ways in which they can and should reason with evidence **Intermediate Algebra** Elaine Hubbard, 1999 **Resources in Education**, 1998 *Mathematics for Social Justice* Gizem Karaali, Lily S. After Evil Robert Meister,2011 The way in which mainstream human rights discourse speaks of such evils as the Holocaust slavery or apartheid puts them solidly in the past Its elaborate techniques of transitional justice encourage future generations to move forward by creating a false assumption of closure enabling those who are guilty to elude responsibility This approach to history common to late twentieth century humanitarianism doesn't presuppose that evil ends when justice begins Rather it assumes that a time before justice is the moment to put evil in the past Merging examples from literature and history Robert Meister confronts the problem of closure and the resolution of historical injustice He boldly challenges the empty moral logic of never again or the theoretical reduction of evil to a cycle of violence and counterviolence broken only once evil is remembered for what it was Meister criticizes such methods for their deferral of justice and susceptibility to exploitation and elaborates the flawed moral logic of never again in relation to Auschwitz and its evolution into a twenty first century doctrine of the Responsibility to Protect
