excellent academic research achievements the academia industry collaboration and technology transfer are underestimated or quite often neglected Underestimation of the role of industry unfamiliarity with new trends and restraint from technology transfer results with time in lack of external financial support and drastic decline in the number of students interested in Power Electrical Engineering

Investigation of Electromagnetic Field Threat to Fuel Tank Wiring of a Transport Aircraft

Jay J. Ely, 2000 National Transportation Safety Board investigators have questioned whether an electrical discharge in the Fuel Quantity Indication System FQIS may have initiated the TWA 800 center wing tank explosion Because the FQIS was designed to be incapable of producing such a discharge on its own attention has been directed to mechanisms of outside electromagnetic influence To support the investigation the NASA Langley Research Center was tasked to study the potential for radiated electromagnetic fields from external radio frequency RF transmitters and passenger carried portable electronic devices PEDs to excite the FQIS enough to cause arcing sparking or excessive heating within the fuel tank
