*Kalamazoo* David George Kohrman, 2015 Kalamazoo experienced a dramatic transformation during the first decades of the 20th century Its factories churned out a wide variety of products and the downtown area was being rapidly transformed by the addition of new skyscraper office buildings hotels department stores theaters parks and government buildings These turn of the century developments coincided with the popularity of picture postcards Not only did postcards offer a convenient way to send brief messages across the country they also provided a means to show off the city and its landmarks When viewed today they offer a valuable record of the city s built environment

**Children at the Kalamazoo State Hospital 1859-1970** Roland Glenn Stanley, 1970 Madness Mary de Young, 2014-01-10 Madness is of course personally experienced but because of its intimate relationship to the sociocultural context it is also socially constructed culturally represented and socially controlled all of which make it a topic ripe for sociological analysis Using a range of historical and contemporary textual material this work exercises the sociological imagination to explore some of the most perplexing questions in the history of madness including why some

behaviors thoughts and emotions are labeled mad while others are not why they are labeled mad in one historical period and not another why the label of mad is applied to some types of people and not others by whom the label is applied and with what consequences *The Afterlives of the Psychiatric Asylum* Graham Moon, Robin Kearns, 2016-03-03 The last 40 years has seen a significant shift from state commitment to asylum based mental health care to a mixed economy of care in a variety of locations In the wake of this deinstitutionalisation attention to date has focussed on users and providers of care The consequences for the idea and fabric of the psychiatric asylum have remained stones unturned This book address an enduring yet under examined question what has become of the asylum Focussing on the recycling of both the idea of the psychiatric asylum and its sites buildings and landscapes this book makes theoretical connections to current trends in mental health care and to ideas in cultural urban geography The process of closing asylums and how asylums have survived in specific contexts and markets is assessed and consideration given to the enduring attraction of asylum and its repackaging as well as to retained mental health uses on former asylum sites new uses on former sites and interpretations of the derelict psychiatric asylum The key questions examined are the challenges posed in seeking new uses for former asylums the extent to which re use can transcend stigma yet sustain memory and how location is critical in shaping the future of asylum and asylum sites
