Active Collaborative Education Journey Teaching:

Active Collaborative Education Judith Barak, Ariela Gidron, 2015-12-28 ACE Active Collaborative Education set out on its educational journey in October 2001. At the time graduates of the college were enthusiastically accepted in the field smoothly slipping into the school system and highly appreciated as good teachers. However, this situation did not please this book's contributors. They wanted to see ACE graduates as different teachers, agents of change and innovation in their classrooms as well as in the wider circles of their society. It is against this background that the ACE program came into being, subversive in spirit, focusing on the process as much as on its end results, on dialogue instead of on competition and on learning communities and participation as much as on individual engagement.

Teacher Education and the Political Matthew Clarke, Anne Phelan, 2017-01-12 Teacher Education and the Political is a striking book which addresses the nature and purpose of teacher education in a global context characterised by economic and political anxieties around declining productivity and social inclusion. These anxieties are manifested in recent policy developments such as the promotion of professional standards, the deregulation and marketisation of teacher education and the imposition of performance related regimes that tie teachers' pay to outcomes in high stakes testing. The book assesses the implications of such policies for the work of teachers as well as for teacher educators and those undertaking initial teacher training. It is argued that these policy moves can be read as a depoliticising and de-intellectualising of teacher education. In this context they illustrate how contemporary theory can provide a language for critiquing recent developments and imagining new trajectories for policy and practice in teacher education. Drawing on the work of theorists from Derrida and Mouffe to Agamben and Lacan, this book argues for the need to maintain a space for intellectual autonomy as a critical dimension of the ethico-political work of teachers. Together these ideas and analyses provide examples of the power of negative thinking, illustrating its capacity to unsettle comfortable truths and foreground the political nature of teacher education. Current teachers, teacher educators and school leaders will be particularly interested readers alongside those concerned with policy in the wider educational landscape.

Ways of Learning to Teach Shlomo Back, 2012-10-22 This book deals with commonly reported accusations about the nature of teacher education based on arguments and disagreements about what teacher education should do, how it should do it and what it should produce in its graduates. Much of these accusations are on out of date or obsolete ideals of the good teacher. It is a philosophical exploration of the crisis in which teacher education finds itself in the world of neo-liberal capitalism, privatization, accountability, consumerism and globalization. The book develops a meta-theory of teacher education which analyses three major approaches to teacher education: Enlightenment, Romanticism and Belief Oriented programs. Each of them suggests a different epistemological and ethical world view. Accordingly, each of them leads to a different vision of teachers' identity and informs different types of programs of teacher education. While critically discussing how each of the three approaches is manifested in various Teacher Education programs, the book proposes a new synthesis arising from them.

Although seemingly contradictory they can be seen as various aspects of a more balanced multifaceted and adequate ideal of a better way to prepare teachers in the present era *Ways of Learning to Teach* is a tribute to the work of teacher educators and is informing for anyone who is interested in teaching and learning in the 21st century This is a compelling book that brings together a number of conflicting and often taken for granted views of teacher preparation in ways that helps to makes sense of the complex enterprise that is teacher education Back offers an interesting and thought provoking way of understanding criticisms about teacher education and offers a positive and productive way forward This book is a must read for teacher educators

Exploring Heutagogy in Higher Education Amnon Glassner, Shlomo Back, 2020-04-17 This book explores heutagogy self determined learning a new approach to teaching and learning in higher education and proposes a paradigm shift in teaching learning and the educational enterprise and ecosystem The first part of the book presents the philosophical psychological and sociological foundations of heutagogy and describes lessons learned from prior experiences of its implementation The second part presents a collaborative self study of five heutagogy courses in higher education The third discusses how the academic community can enhance the paradigm change and compares heutagogy to similar academic approaches The concluding chapter of the book explores the question of what next and suggests some possible elaborations of heutagogy At the beginning it was very difficult for me to appreciate the course s mode of learning All my life I had learned in a traditional manner Occasionally I felt that I was being thrown into deep water without a lifeguard But as the course progressed I succeeded in letting go of my deeply rooted habits and discovered a new learning approach through which I found in myself a new learner Student s reflection this book suggests a novel approach to learning and education and will become a widely read one Dr Lisa Marie Blaschke Carl von Ossietzky University of Oldenburg

Leadership for Change in Teacher Education Susan E. Elliott-Johns, 2015-02-03 Leadership for Change in Teacher Education Voices of Canadian Deans of

Education presents a rich sampling of diverse perspectives on the topic in a unique collection of reflections contributed by Canadian deans of education. The focus of the inquiry: What would we hear from deans of education invited to share their perspectives on leadership for change in contemporary teacher education? Invited deans of education to reflect on the research policies and practices currently informing their leadership. The results: fourteen engaging and provocative essays offer important insights and increased understandings of the complex nature of their work and explore concerns raised in relation to lived experience and the multi-faceted processes of leading change for teacher education in contemporary contexts. Reflections in these short essays underscore the critical role of deans in provoking, supporting, and championing new ideas and approaches to pedagogy for teacher education and make clear the complexities inherent in leading the change. The Coda highlights the limited scope of related research available in the current literature and recommends urgent attention in both research and practice to the preparation of deans and support for their ongoing professional learning and sustainable leadership. This book will be of great interest to scholars, deans of education, teacher educators, university administrators, and other policymakers. Leadership for Change was a catalyst to immersing myself in this book, promising as it does the Voices of Canadian Deans of Education. A member of the Association of Canadian Deans of Education (ACDE) for over a decade, I have been honoured to join these voices around many conference tables and other informal sessions. The promise of important insights these voices can share is fulfilled within every one of the compelling chapters. The book reminds us of the diverse geographical, political, and theoretical contexts that enhance understandings of multiple perspectives on leadership and the complex educational challenges inherent in contemporary teacher education. A deep commitment to public education and a profound work ethic towards stellar, relevant teacher education resonates across the work of these deans of education. This thought-provoking book makes a valuable contribution to the literature on reconceptualising leadership for teacher education.
