content has transformed significantly with technological advancements and the rise of new media. In addition to revitalizing older works by making them accessible to a broader audience, streaming platforms also create exclusive original content designed specifically for online consumption. This is especially evident in horror films and television, where new methods of narration and storytelling have enhanced the genre and streaming has made it more widely available than before. This collection of essays examines audiovisual horror's adaptation to the features and audience of the digital era. The essays focus on the various effects of new media in the audiovisual landscape with regard to institutions, audiences, and content. The horror genre has undergone a rapid evolution and reinvention as technology has shaped both the narratives and the ways in which consumers interact with on-screen content.

Focus On: 100 Most Popular Television Series by Sony Pictures

Television Wikipedia contributors, *Streaming Media and Cultural Memory in a Postdigital Society* Renira Rampazzo Gambarato, Johannes Heuman, 2024-12-31. This book offers a relevant contribution to the studies of streaming media and transmediality with an original approach of cultural sustainability perfectly intertwined with cultural memory beyond borders. By critically reflecting on popular streaming media series, the book identifies their impact on the global circulation of cultural memory, their learning potential for educational purposes, and the societal challenges and opportunities that emerge from the ubiquitous streaming media penetration and potential for participatory practices. It also investigates how series available worldwide on commercial platforms such as Netflix and Max contribute to the global circulation of cultural memories in addition to illuminating the ethical, unsustainable, and educational concerns involved in the fictionalization of the past. Drawing on the authors' expertise in media studies and history, this transdisciplinary book will interest scholars in the fields of media studies, cultural studies, memory studies, history, transmedia studies, education, postdigital studies, television studies, social communication, sociology, and philosophy.

Bootlegging the Airwaves Eleanor Patterson, 2024-02-06. How fan passion and technology merged into a new subculture. Long before internet archives and the anytime anywhere convenience of streaming, people collected, traded, and shared radio and television content via informal networks that crisscrossed transnational boundaries. Eleanor Patterson's fascinating cultural history explores the distribution of radio and TV tapes from the 1960s through the 1980s. Looking at bootlegging against the backdrop of mass media's formative years, Patterson delves into some of the major subcultures of the era. Old-time radio aficionados felt the impact of inexpensive audio recording equipment, and the controversies surrounding programs like *Amos 'n' Andy*. Bootlegging communities devoted to buddy cop TV shows like *Starsky and Hutch* allowed women to articulate female pleasure and sexuality, while *Star Trek* videos in Australia inspired a grassroots subculture built around community viewings of episodes. Tape trading also had a profound influence on creating an intellectual pro-wrestling fandom that aided wrestling's growth into an international sports entertainment industry.

Streaming Wheeler W. Dixon, 2013-06-19. Analyzes the cultural and social effects of the increasing digital distribution of movies, discussing the ways in which it has impacted the making of motion pictures and altered the behavior

and habits of the film audience **Designing and Developing for Google Glass** Allen Firstenberg, Jason Salas, 2014-12-11
Creating apps for Google Glass is more involved than simply learning how to navigate its hardware APIs and SDK. You also need the right mindset. While this practical book delivers the information and techniques you need to build and deploy Glass applications, it also helps you to think for Glass by showing you how the platform works in and affects its environment. In three parts: Discover, Design, and Develop, Glass pioneers guide you through the Glass ecosystem and demonstrate what this wearable computer means for users, developers, and society as a whole. You'll learn how to create rich functionality for a consumer technology that's radically different than anything currently available. Learn the Five Noble Truths of great Glassware design. Understand the Glass ecosystem and learn why it's different. Sidestep Glass's societal concerns in your projects. Learn how Glass adapts to the user's world rather than the other way around. Avoid poor design by identifying Glassware antipatterns. Build cloud services with the Google Mirror API. Use the Glass Development Kit to develop client applications. Submit your project for review in the MyGlass directory. TV's American Dream Barbara Selznick, 2025-01-23
TV's American Dream examines how the U.S. television industry in the 2010s pursued audiences whose ideas about hope, fairness, work, and economic class were shaped by the Great Recession. While Americans navigated the trauma of the economic meltdown, the television industry faced growing pressure stemming from new program distribution and viewing methods, increasingly fragmented audiences, shifts in methods of advertising, and regulatory changes. To cut through the clutter of television content to appeal to elusive viewers, television programming reimaged some of the traditional representations of the American Dream and continued to bolster others. Exploring shows on different platforms from legacy networks to Netflix, Selznick takes a deep dive into representations of the American Dream on television. Each chapter of this book focuses on a particular strategy mobilized in the second decade of the new century to speak to audiences about their expectations for and concerns about the Dream. Bringing together research on industrial practices with an examination of sociocultural context, TV's American Dream demonstrates how interconnected forces give rise to the television programs that reinforce and redefine audiences' ideas about the world in which they live.
