Divided Power Emily Grafton, 2025-10-06T00:00:00Z Reconciliation as set out by the Truth and Reconciliation Commission is a process of understanding the Canadian state s genocide against Indigenous Peoples and creating a new relationship between Indigenous Peoples and settlers based on mutual respect and dignity Given the racism and paternalism embedded in the Canadian state and related institutions building such a relationship is a monumental task but in addition there is a major structural roadblock in the way federalism the political system that organizes Canadian governance Divided Power argues that Canada s system of federalism rooted in settler colonialism has dispossessed Indigenous Peoples for settler benefit Far from being a neutral balanced way to distribute responsibilities and powers the division between the state and provinces and territories obstructs Indigenous Peoples agency and governance Under such coercive political exclusion how can truth and reconciliation be fully achieved Emily Grafton meticulously traces the ways that federalism limits the potential for reconciliation and proposes alternative power sharing models Guiding readers through the terrain of debate Grafton deftly and accessibly merges a political analysis of federalism with a clear assessment of settler colonialism to argue

that reconciliation will be incomplete for as long as the current division of powers persists Divided Power points to a promising approach to holding the Canadian state responsible for integrating the principles of truth and reconciliation into its very foundation      **The End of This World** Angele Alook,Emily Eaton,David Gray-Donald,Joël Laforest,Crystal Lameman,Bronwen Tucker,2023-01-17 The climate crisis is here and the end of this world a world built on land theft resource extraction and colonial genocide is on the horizon In this compelling roadmap to a livable future Indigenous sovereignty and climate justice go hand in hand Drawing on their work in Indigenous activism the labour movement youth climate campaigns community engaged scholarship and independent journalism the six authors challenge toothless proposals and false solutions to show that a just transition from fossil fuels cannot succeed without the dismantling of settler capitalism in Canada Together they envision a near future where oil and gas stay in the ground where a caring economy provides social supports for all where wealth is redistributed from the bloated billionaire class and where stolen land is rightfully reclaimed under the jurisdiction and sovereignty of Indigenous peoples Packed with clear eyed analysis of both short and long term strategies for radical social change The End of This World promises that the next world is within reach and worth fighting for
