Creating a Comprehensive Trauma Center Mary Beth Williams,Lasse A. Nurmi,2013-03-09 Early Thoughts on Creating Comprehensive Trauma Centers This volume has been many years in writing When Dr Donald Meichenbaum first suggested it and I approached my coauthor Lasse Nurmi it did not seem to be as formidable a task as it has become Interviewing the centers in this book has taken years to get responses to summarize those responses and to return the summaries for further comment Many centers have been created in that time others have suspended operation This volume does not claim to present even a majority of those centers However the ones contained herein are representative of what is out there The idea to create a comprehensive trauma center is not new The initial section of this forward examines thoughts I proposed as part of my comprehensive examination for my doctorate Many of the ideas proposed then 1989 seem to fit now It is my dream to put them into practice someday in the future

THE COMPREHENSIVE EXAMINATION QUESTION In 1989 one question on the written comprehensive examination questions for my doctorate was If you were to create a comprehensive trauma center in your suburban area making use of what you have learned in your doctoral experience describe the organization of that center the mission structure personnel funding objectives and services it would offer Some of the conclusions reached then now seem applicable to the task at hand design

ing comprehensive trauma centers CTCs for the 21st century *Psychology. Sielkunde* ,2001 **Amnesty, Human Rights and Political Transitions** Louise Mallinder,2008-09-10 Amnesty laws are political tools used since ancient times by states wishing to quell dissent introduce reforms or achieve peaceful relationships with their enemies In recent years they have become contentious due to a perception that they violate international law particularly the rights of victims and contribute to further violence This view is disputed by political negotiators who often argue that amnesty is a necessary price to pay in order to achieve a stable peaceful and equitable system of government This book aims to investigate whether an amnesty necessarily entails a violation of a state s international obligations or whether an amnesty accompanied by alternative justice mechanisms can in fact contribute positively to both peace and justice This study began by constructing an extensive Amnesty Law Database that contains information on 506 amnesty processes in 130 countries introduced since the Second World War The database and chapter structure were designed to correspond with the key aspects of an amnesty why it was introduced who benefited from its protection which crimes it covered and whether it was conditional In assessing conditional amnesties related transitional justice processes such as selective prosecutions truth commissions community based justice mechanisms lustration and reparations programmes were considered Subsequently the jurisprudence relating to amnesty from national courts international tribunals and courts in third states was addressed The information gathered revealed considerable disparity in state practice relating to amnesties with some aiming to provide victims with a remedy and others seeking to create complete impunity for perpetrators To date few legal trends relating to amnesty laws are emerging although it appears that amnesties offering blanket unconditional immunity for state agents have declined Overall amnesties have increased in popularity since the 1990s and consequently rather than trying to dissuade states from using this tool of transitional justice this book argues that international actors should instead work to limit the more negative forms of amnesty by encouraging states to make them conditional and to introduce complementary programmes to repair the harm and prevent a repetition of the crimes David Dyzenhaus This is one of the best accounts in the truth and reconciliation literature I ve read and certainly the best piece of work on amnesty I ve seen Diane Orentlicher Ms Mallinder s ambitious project provides the kind of empirical treatment that those of us who have worked on the issue of amnesties in international law have long awaited I have no doubt that her book will be a much valued and widely cited resource **Human Strengths and Resilience** Grant J. Rich,Skultip (Jill) Sirikantraporn,2017-12-18 Human and Strengths fills a gap in current literature on trauma survivors Co editors Grant J Rich and Skultip Jill Sirikantraporn have assembled an international group of leading contributors who have taught counseled consulted and conducted research in all regions of the world including North America Europe Asia Africa the Pacific Region Latin America the Caribbean Region and the Middle East Contributors to this edited collection use their expertise to highlight positive psychology and strength based approaches to post traumatic growth and resilience in understudied developing nations like Cambodia Haiti India Syria Armenia Sierra Leone Taiwan Guatemala

and South Africa Life and Death in the Delta K. among Assemblies of God World Missionaries Valerie A. Rance, 2021-12-21 Trauma from the fall of Adam and Eve forward impacts human lives in overpowering ways A review of the lives of biblical personalities and missionaries reveals shared traumatic experiences In addition to the stress of cultural adjustment missionaries often live in contexts of violence political unrest economic instability natural disasters and relational conflict The examined biblical personalities faced similar issues yet a majority coped with trauma in ways that led to well being The proposed biblical theory of well being assists missionaries to move deeper in their trust of God by utilizing the coping skills of the biblical personalities including asking God for help lifting up their praise and worship to God standing on a sense of call working with God lamenting venting to God in healthy ways embracing a theology of suffering and accepting assistance from friends and family The adherence to the constructs of this theory protects missionaries from the ravages of psychological trauma by avoiding negative coping and developing positive coping skills that lead to trusting in the only One who gives hope in seemingly hopeless situations
