Paul Torrance,2002-08-30 More than 40 years ago E Paul Torrance undertook to study creativity in students and study whether it would predict their creative achievements as adults He and his colleagues wanted to determine what other factors influence predict encourage or sustain their creativity over time There has never been a longitudinal study of creativity of this magnitude Its findings will be useful to and have implications for several audiences parents teachers counselors especially vocational counselors university and college instructors and educational administrators The Manifesto for Children was developed on the basis of the responses of 215 young adults who had attended two elementary schools in Minnesota from 1958 to 1964 They had been administered some creativity tests each year and they were followed up in 1980 On the basis of their questionnaire responses the Manifesto was developed to describe their ongoing struggle to maintain their creativity and use their strengths to create their careers and to provide guidance to children In 1998 they were followed up to assess their creative achievements and to validate the Manifesto Some of the participants had attained eminence while others had attained only mediocre careers *Creativity* Sing Lau,Anna H. H. Hui,Grace Y. C. Ng,2004 What actually is creativity And what contributes to its conceptualization and development For decades these and other questions have fascinated researchers educators parents and laypeople alike and equally so in the East and West This interesting collection of articles is an attempt at exploring and answering the above questions from both the Eastern and Western perspectives Readers may find some answers stimulating and others bewildering This is in fact the reality and fascination of *International Handbook on Giftedness* Larisa Shavinina,2009-08-12 If you publish you are trying to create something that is original that stands out from the crowd Above all you want to create something you are proud of Richard Branson 2002 p 57 After the publication of my bestselling *International Handbook on Innovation* publishers from around the world began to invite me to work on new books with them When Springer invited me to prepare the *International*

Handbook on Giftedness I was on a maternity leave with my 3 months old and my 5 year old was just starting school I however had wanted to prepare such a Handbook for a long time and was waiting for just the right moment to dive right into such an endeavor The time had come and I agreed to prepare a Handbook that would expose readers to new views great discoveries and significant advancements of scientific knowledge exactly as Richard Feynman advised see his opening quote at the beginning of the introductory chapter I have always been convinced of the paramount significance of the topic of giftedness and gifted education to the world as a whole There is no doubt that gifted individuals were are and will be extremely important to society One way to understand the history of human civilization is via inventions and discoveries of the gifted All human cultural development builds on the amazing technological scientific educational and moral achievements of the human mind Today people increasingly realize that gifted and talented individuals are even more important than in the past
