Beyond Prisons A New Interfaith Paradigm For Our Failed Prison System:

Beyond Prisons Laura Magnani, Harmon L. Wray, The Society of Friends Quakers founded America's first penitentiary in the 1790s For more than forty years the American Friends Service Committee has worked with prisoners parolees and victims of crime seeking just alternatives to incarceration In Beyond Prisons the AFSC offers a powerful moral critique of the American criminal justice system and describes a new paradigm for dealing with criminals based on restorative justice and reconciliation The authors include a specific twelve point plan for immediate changes Book jacket **The End of Prisons.**

Mechthild E. Nagel, Anthony J. Nocella, 2013-05-01 This book brings together a collection of social justice scholars and activists who take Foucault's concept of discipline and punishment to explain how prisons are constructed in society from nursing homes to zoos This book expands the concept of prison to include any institution that dominates oppresses and controls Criminologists and others who have been concerned with reforming or dismantling the criminal justice system have mostly avoided to look at larger carceral structures in society In this book for example scholars and activists question the way patriarchy has incapacitated women and imagine the deinstitutionalization of people with disabilities In a time when popular sentiment critiques the dominant role of the elites the one percenters the state's role in policing dissenting voices school children LGBTQ persons people of color and American Indian Nations needs to be investigated A prison as defined in this book is an institution or system that oppresses and does not allow freedom for a particular group Within this definition we include the imprisonment of nonhuman animals and plants which are too often overlooked Occupational Therapies

without Borders - Volume 2 Frank Kronenberg, Nick Pollard, Dikaios Sakellariou, 2011-10-24 The companion text to Occupational Therapy without Borders Volume 1 learning from the spirit of survivors In this landmark text writers from around the world discuss a plurality of occupation based approaches that explicitly acknowledge the full potential of the art and science of occupational therapy The profession is presented as a political possibilities based practice concerned with what matters most to people in real life contexts generating practice based evidence to complement evidence based practice As these writers demonstrate occupational therapies are far more than as some critical views have suggested a monoculture of practice rooted in Western modernity Nobel Peace Laureate Desmond Tutu captures the ethos of this book which essentially calls for engagements in the service of a purpose that is larger than the advancement of our profession's interests Your particular approach to advancing our wellbeing and health strikes me as both unique and easily taken for granted Whilst you value and work with medical understandings your main aim seems to go beyond these You seem to enable people to appreciate more consciously how what we do to and with ourselves and others on a daily basis impacts on our individual and collective wellbeing As occupational therapists you have a significant contribution to make allowing people from all walks of life to contribute meaningfully to the wellbeing of others Links philosophy with practical examples of engaging people in ordinary occupations of daily life as a means of enabling them to transform their own lives Includes contributions

from worldwide leaders in occupational therapy research and practice Describes concrete initiatives in under served and neglected populations Looks at social and political mechanisms that influence people s access to useful and meaningful occupation Chapters increase diversity of contributions geographically culturally and politically Emphasis on practice education and research maintains academic credibility A glossary and practical examples in nearly every chapter make text more accessible to students The Scandal of White Complicity in US Hyper-incarceration A. Nonprofits in Policy Advocacy Sheldon Gen, Amy Conley Wright, 2020-08-01 Policy advocacy is an increasingly important function of many nonprofit organizations as they seek broad social changes in their concerning issues Their advocacy practices however have often been guided by their own past experiences anecdotes from peer networks and consultant advice Most of their practices have largely escaped empirical and theoretical grounding that could better root their work in established theories of policy change The first book of its kind Nonprofits in Policy Advocacy bridges this gap by connecting real practices of on the ground policy advocates with the burgeoning academic literature in policy studies In the process it empirically identifies six distinct policy advocacy strategies and their accompanying tactics used by nonprofits Case studies tell the stories of how advocates apply these strategies in a wide variety of issues including civil rights criminal justice education energy environment public health public infrastructure

and youth This book will appeal to both practitioners and academicians as each gains insights into the other's views of policy change and the actions that produce it **Where the River Bends** Michael T. McRay, 2015-12-09 Myriad works discuss forgiveness but few address it in the prison context For most people prisoners exist out of sight and out of mind Their stories are often reduced to a few short lines in news articles at the time of arrest or conviction But what happened before in the lives of the convicted What has happened after How have people in prison dealt with the harm they have caused and the harm they have suffered What does forgiveness mean to them What can we outsiders learn about the nature of forgiveness and prison from individuals who have both dealt and endured some of life's most painful experiences Expanding on his MPhil dissertation *Echoes from Exile with Distinction* from Trinity College Dublin Michael McRay's important new book brings the perspectives and stories of fourteen Tennessee prisoners into public awareness Weaving these narratives into a survey of forgiveness literature McRay offers a map of the forgiveness topography At once storytelling academic activism and cartography McRay's book is as necessary as it is accessible There is a whole demographic we have essentially ignored when it comes to conversations on forgiveness What would we learn if we listened **Interreligious/Interfaith Studies** Eboo Patel, Jennifer Howe Peace, Noah Silverman, 2018-08-21 A groundbreaking academic anthology that explores the emerging field of interreligious interfaith studies As it is now backed by an impressive number of courses academic programs and centers faculty positions journals and publications funding and professional partnerships there is no longer a question as to whether the interreligious interfaith field exists But its meaning and import are still being debated How is this field distinct from yet similar to other fields such as religious or theological studies What are its signature pedagogies and methodologies What are its motivations and key questions In other words what is the shape of interfaith and interreligious studies and what is its distinct contribution These questions are the driving force behind this anthology Carceral Space, Prisoners and Animals Karen M. Morin, 2018-02-28 *Carceral Space Prisoners and Animals* explores resonances across human and nonhuman carceral geographies The work proposes an analysis of the carceral from a broader vantage point than has yet been done developing a trans species carceral geography that includes spaces of nonhuman captivity confinement and enclosure alongside that of the human The linkages across prisoner and animal carcerality that are placed into conversation draw from a number of institutional domains based on their form operation and effect These include the prison death row execution chamber and the animal slaughterhouse sites of laboratory testing of pharmaceutical and other products on incarcerated humans and captive animals sites of exploited prisoner and animal labor and the prison solitary confinement cell and the zoo cage The relationships to which I draw attention across these sites are at once structural operational technological legal and experiential embodied The forms of violence that span species boundaries at these sites are all a part of ordinary everyday industrialized violence in the United States and elsewhere and thus this carceral comparison amongst them is appropriate and timely *Normal Life* Dean Spade, 2015-07-23 Revised and Expanded Edition Wait what's wrong

with rights It is usually assumed that trans and gender nonconforming people should follow the civil rights and equality strategies of lesbian and gay rights organizations by agitating for legal reforms that would ostensibly guarantee nondiscrimination and equal protection under the law This approach assumes that the best way to address the poverty and criminalization that plague trans populations is to gain legal recognition and inclusion in the state's institutions But is this strategy effective In *Normal Life* Dean Spade presents revelatory critiques of the legal equality framework for social change and points to examples of transformative grassroots trans activism that is raising demands that go beyond traditional civil rights reforms Spade explodes assumptions about what legal rights can do for marginalized populations and describes transformative resistance processes and formations that address the root causes of harm and violence In the new afterword to this revised and expanded edition Spade notes the rapid mainstreaming of trans politics and finds that his predictions that gaining legal recognition will fail to benefit trans populations are coming to fruition Spade examines recent efforts by the Obama administration and trans equality advocates to pinkwash state violence by articulating the US military and prison systems as sites for trans inclusion reforms In the context of recent increased mainstream visibility of trans people and trans politics Spade continues to advocate for the dismantling of systems of state violence that shorten the lives of trans people Now more than ever *Normal Life* is an urgent call for justice and trans liberation and the radical transformations it will require

Lambda Literary Award for Best Book in Transgender Nonfiction 2013 If feminist studies and transgender studies are so intimately connected why are they not more deeply integrated Offering multidisciplinary models for this assimilation the vibrant essays in *Transfeminist Perspectives in and beyond Transgender and Gender Studies* suggest timely and necessary changes for institutions of higher learning Responding to the more visible presence of transgender persons as well as gender theories the contributing essayists focus on how gender is practiced in academia health care social services and even national border patrols Working from the premise that transgender is both material and cultural the contributors address such aspects of the university as administration sports curriculum pedagogy and the appropriate location for transgender studies Combining feminist theory transgender studies and activism centered on social diversity and justice these essays examine how institutions as lived contexts shape everyday life
