

BEYOND INVISIBLE HAND

Groundwork for a
New Economics

Standard economics considers markets as being in equilibrium and assumes that the market forces of supply and demand allocate and allocate efficiently. This is a double-edged sword: it is both a strength and a weakness. It is a strength because it is a simple and elegant theory, but it is a weakness because it is a theory that is not based on reality.

—Joseph A. DiMasi, University of California

The author's argument is compelling and convincing. It is a theory that is not based on reality, but it is a theory that is not based on reality. It is a theory that is not based on reality, but it is a theory that is not based on reality. It is a theory that is not based on reality, but it is a theory that is not based on reality.
