Bloom, 2007 Publisher description *Developing Young Minds* Rebecca A. Shore, 2015-09-17 Ever wonder what is going on in a baby s brain Or how you can best nurture a child s natural development Or why exactly Bach is better than Mozart for babies This book will explain why No technical knowledge is necessary as Shore makes recent neurological findings accessible to all those who come into contact with young children Everything a baby experiences in his or her first five years is building the foundation of life s learning potential Through increasing the complexity of the early childhood environment in developmentally appropriate ways we can nurture young children s brains Developing Young Minds is a must have for new parents or caregivers of young children The Dana Sourcebook of Brain Science David Balog, 2006 The Creating Brain Nancy C. Andreasen, 2005 In her tour of creativity and the brain Nancy Andreasen professor of psychiatry at the University of Iowa and the winner of the National Medal of Science shows us that creativity is not the same as intelligence nor the same as skill Rather we discover the essence of creativity is to shape the materials of life in new and unexpected ways Andreasen explores how the human brain achieves creative breakthroughs in art literature music and science the role of genes and

environment extraordinary creativity vs ordinary creativity the possession of a omnivorous vision the value of not having a standard education and the question of genius and insanity The author examines what extraordinary creators such as Mozart Henri Poincare and Coleridge said about creating and how their insights reflect particular qualities of creative people and the creative process She includes her fascinating interview with the playwright Neil Simon in which he described how his mind and brain work Andreasen also shows how her studies of participants in the Iowa Writer s Workshop and other evidence suggest that while creativity often may be inherited and may sometimes be associated with mental disorders neither is inevitable or necessary for creativity to flourish The Creating Brain offers insight into what creates the creative brain and offers advice to nurture it in both children and adults BOOK JACKET Learning to Teach Young Children Anna Kirova,Larry Prochner,Christine Massing,2019-12-12 The book provides the reader with the tools to critically engage with the key concepts and beliefs in early childhood education theory and practice It also includes a companion website offering overviews of the concepts covered in the book supplementary information and references reflective questions and case studies to support the reader s learning
