Contemporary American Culture William Patrick Day,2021-02-15 While vampire stories have been part of popular culture since the beginning of the nineteenth century it has been in recent decades that they have become a central part of American culture Vampire Legends in Contemporary American Culture looks at how vampire stories from Bram Stoker's Dracula to Blacula from Bela Lugosi's films to Love at First Bite have become part of our ongoing debate about what it means to be human William Patrick Day looks at how writers and filmmakers as diverse as Anne Rice and Andy Warhol present the vampire as an archetype of human identity as well as how many post modern vampire stories reflect our fear and attraction to stories of addiction and violence He argues that contemporary stories use the character of Dracula to explore modern values and that stories of vampire slayers such as the popular television series Buffy the Vampire Slayer integrate current feminist ideas and the image of the Vietnam veteran into a new heroic version of the vampire story

Such a Dark Thing M. Jess Peacock,2015-02-05 Evil death demons reanimation and resurrection While such topics are often reserved for the darker mindscapes of the vampire subgenre within popular culture they are equally integral elements of religious history and belief Despite the cultural shift of presenting vampires in a secular light the traditional figure of the vampire within cinema and literature has a rich legacy of serving as a theological marker Whether as a symbol of the allure of sin as an apologetic for assorted religious icons or as a gateway into a discussion of liberationist theology the vampire has served as a spiritual touchstone from Bram Stoker's Dracula to Stephen King's Salem's Lot to the HBO television series True Blood In Such a Dark Thing Jess Peacock examines how the figure of the vampire is able to traverse and interconnect theology and academia within the larger popular culture in a compelling and engaging manner The vampire straddles the ineffable chasm between life and death and speaks to the transcendent in all of us tapping into our fundamental curiosity of what if anything exists beyond the mortal coil giving us a glimpse into the interminable while maintaining a cultural currency that is never dead and buried

been indelibly stamped on moviegoers' psyches and are now considered seminal works of horror. Guiding readers along the twisted paths between audience, auteur, and cultural history, author Kendall R. Phillips reveals the macabre visions of these films' directors in *Dark Directions*. Romero, Craven, Carpenter, and the Modern Horror Film. Phillips begins by analyzing the works of George Romero, focusing on how the body is used cinematically to reflect the duality between society and chaos, concluding that the unconstrained bodies of the *Living Dead* films act as a critical intervention into social norms. Phillips then explores the shadowy worlds of director Wes Craven. In his study of the films *The Serpent and the Rainbow*, *Deadly Friend*, *Swamp Thing*, *Red Eye*, and *Shocker*, Phillips reveals Craven's vision of technology as inherently dangerous in its ability to cross the gossamer thresholds of the gothic. Finally, the volume traverses the desolate frontiers of iconic director John Carpenter. Through an exploration of such works as *Halloween*, *The Fog*, and *In the Mouth of Madness*, Phillips delves into the director's representations of boundaries and the haunting consequences for those who cross them. The first volume ever to address these three artists together, *Dark Directions* is a spine-tingling and thought-provoking study of the horror genre. In analyzing the individual works of Romero, Craven, and Carpenter, Phillips illuminates some of the darkest minds in horror cinema.

Mr. Mikey's Video Views; Volume One J. Michael Dlugos, 2000 Mr. Mikey's *Video Views* started as a response to the three-line reviews found in most review guides and the self-serving and exceedingly picky reviews written by most popular critics. Mr. Mikey is a movie lover and has fun and enjoys virtually every movie he sees. His reviews reflect this love of movies.

New Vampire Cinema Ken Gelder, 2019-07-25 *New Vampire Cinema* lifts the coffin lid on forty contemporary vampire films from 1992 to the present day, charting the evolution of a genre that is rather like its subject: at once exhausted and vibrant, inauthentic and original, insubstantial and self-sustaining. Ken Gelder's fascinating study begins by looking at Francis Ford Coppola's *Bram Stoker's Dracula* and Fran Rubel Kuzui's *Buffy the Vampire Slayer* films that seemed for a moment to take vampire cinema in completely opposite directions. *New Vampire Cinema* then examines what happened afterwards across a remarkable range of reiterations of the vampire that take it far beyond its original Transylvanian setting: the suburbs of Sweden in *Let the Right One In*; the forests of North America in the *Twilight* films; New York City in *Nadja*; the addiction in Mexico in *Cronos*; from dusk till dawn in Japan in *Blood The Last Vampire*.

Nightmare Movies Kim Newman, 2011-04-18 Now over twenty years old, the original edition of *Nightmare Movies* has retained its place as a true classic of cult film criticism. In this new edition, Kim Newman brings his seminal work completely up to date, both reassessing his earlier evaluations and adding a second part that analyses the last two decades of horror films with all the wit, intelligence, and insight for which he is known. Since the publication of the first edition, horror has been on a gradual upswing and has gained a new and stronger hold over the film industry. Newman negotiates his way through a vast back catalogue of horror and charts the on-screen progress of our collective fears and bogeymen from the low-budget slasher movies of the 1960s through to the slick releases of the 2000s. *Nightmare Movies* is an invaluable companion that not only provides a newly updated history

of the darker side of film but also acts as a truly entertaining guide with which to explore the less well trodden paths of horror and rediscover the classics with a newly instructed eye A Dark Night's Dreaming Tony Magistrale, Michael A.

Morrison, 1996 *A Dark Night's Dreaming* opens by defining the shape of horror fiction today illuminating the genre's narrative themes psychological and social contexts and historical development The core of the volume focuses on the lives and major works of the six who have dramatically shaped the genre William Peter Blatty Thomas Harris Stephen King Anne Rice Peter Straub and Whitley Strieber A final chapter analyzes the complex relationship between horror fiction and its adaptation to film Looking beyond the tormented maidens madmen monsters and other archetypes of the genre these critics differentiate contemporary Gothic fiction from that of earlier generations while demonstrating that horror remains one of the most important and consistent strains connecting the diverse elements of the American literary tradition They comment on the genre's enormous popularity and undeniable influence in American society and scrutinize its changing representations of women monsters and gore The volume concludes with an extensive bibliography of primary and secondary works
