This House Of Sky Landscapes Of A Western Mind By Ivan Doig:

This House of Sky: Landscapes of a Western Mind Ivan Doig, 1980 **On Sacred Ground** Nicholas

O'Connell, 2011-10-01 On Sacred Ground explores the literature of the Northwest the area that extends from the Pacific Ocean to the Rocky Mountains and from the forty ninth parallel to the Siskiyou Mountains The Northwest exhibits astonishing geographical diversity and yet the entire bioregion shares a similarity of climate flora and fauna For Nicholas O'Connell the effects of nature on everyday Northwest life carry over to the region's literature Although Northwest writers address a number of subjects the relationship between people and place proves the dominant one and that has been true since the first tribes settled the region and began telling stories about it thousands of years ago Indeed it is the common thread linking Chief Seattle to Theodore Roethke Narciissa Whitman to Ursula K Le Guin Joaquin Miller to Ivan Doig Marilynne Robinson to Jack London Betty MacDonald to Gary Snyder Tracing the history of Pacific Northwest literary works from Native American myths to the accounts of explorers and settlers the effusions of the romantics the sharply etched stories of the realists the mystic visions of Northwest poets and the contemporary explosion of Northwest poetry and prose O'Connell shows how the most important contribution of Northwest writers to American literature is their articulation of a more spiritual human relationship with landscape Pacific Northwest writers and storytellers see the Northwest not just as a source of material wealth but as a spiritual homeland a place to lead a rich and fulfilling life within the whole context of creation And just as the relationship between people and place serves as the unifying feature of Northwest literature so also does literature itself possess a perhaps unique ability to transform a landscape into a sacred place **A Companion to the**

Literature and Culture of the American West Nicolas S. Witschi, 2014-02-03 A Companion to the Literature and Culture of the American West presents a series of essays that explore the historic and contemporary cultural expressions rooted in America's western states Offers a comprehensive approach to the wide range of cultural expressions originating in the west Focuses on the intersections complexities and challenges found within and between the different historical and cultural groups that define the west's various distinctive regions Addresses traditionally familiar icons and ideas about the west such as cowboys wide open spaces and violence and their intersections with urbanization and other regional complexities Features essays written by many of the leading scholars in western American cultural studies **Ivan Doig** Axel Carl Bredahl, 1999

A Literary History of the American West Western Literature Association (U.S.), 1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long knowns to be of historical importance are also experiences that need and deserve a literature of importance Genealogies in the Library of Congress Marion J. Kaminkow, 2012-09 A complement to genealogies in the Library of Congress t p of fifth v **A Study**

Guide for Larry Watson's "Montana 1948" Gale, Cengage Learning, 2016-06-29 A Study Guide for Larry Watson's Montana 1948 excerpted from Gale's acclaimed Novels for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Novels for Students for all of your research needs Wide Open Fairways Bradley S. Klein, 2020-04-01 In golf the playing field is also landscape where nature and the shaping of it conspire to test athletic prowess As golf courses move away from the big business pristine lawn approach of recent times Bradley S Klein a leading expert on golf course design and economics finds much to contemplate and much to report in the way these wide open spaces function as landscapes that inspire us stimulate our senses and reveal the special nature of particular places A meditation on what makes golf courses compelling landscapes this is also a personal memoir that follows Klein's own unique journey across the golfing terrain from the Bronx and Long Island suburbia to the American prairie and the Pacific Northwest Whether discussing Robert Moses and Donald Trump and the making of New York City or the role of golf in the development of the atomic bomb or the relevance of Willa Cather to how the game has taken hold in the Nebraska Sandhills Klein is always looking for the freedom and the meaning of golf's wide open spaces And as he searches he offers a deeply informed and absorbing view of golf courses as cultural markers linking the game to larger issues of land use ecology design and imagination Purchase the audio edition At Home on the Earth David Landis Barnhill, 1999-08-05 The physical earth is clearly under unprecedented siege heated toxified scraped But almost as if they were antibodies the finest nature writers of any era have come forward to help in the fight This anthology collects many of the most important at their most eloquent May it ring and echo and do some good Bill McKibben author of The End of Nature This is a stunning collection of vivid writing about landscapes and the people who inhabit them The diverse narratives gathered here do more than describe hawks diving and twigs snapping although the book has its share of moving accounts of the natural world A concern to live responsibly in nature runs through this evocative anthology like a subterranean stream and that moral impulse together with the lively prose makes this the best collection of nature writing I've seen Thomas A Tweed editor of Retelling U S Religious History **Hell of a Vision** Robert L. Dorman, 2012-10-01 The American West has taken on a rich and evocative array of regional identities since the late nineteenth century Wilderness wonderland Hispanic borderland homesteader's frontier cattle kingdom urban dynamo Native American homeland Hell of a Vision explores the evolution of these diverse identities during the twentieth century revealing how Western regionalism has been defined by generations of people seeking to understand the West's vast landscapes and varied cultures Focusing on the American West from the 1890s up to the present Dorman provides us with a wide ranging view of the impact of regionalist ideas in pop culture and diverse fields such as geography land use planning anthropology journalism and environmental policy making Going well beyond the realm of literature Dorman broadens the discussion by examining a unique mix of texts He looks at major novelists such as Cather

Steinbeck and Stegner as well as leading Native American writers But he also analyzes a variety of nonliterary sources in his book such as government reports planning documents and environmental impact studies *Hell of a Vision* is a compelling journey through the modern history of the American West a key region in the nation of regions known as the United States

Scenes from the High Desert Virginia Kerns, 2010-10-01 If a religion cannot attract and instruct young people it will struggle to survive which is why recreational programs were second only to theological questions in the development of twentieth century Mormonism In this book Richard Ian Kimball explores how Mormon leaders used recreational programs to ameliorate the problems of urbanization and industrialization and to inculcate morals and values in LDS youth As well as promoting sports as a means of physical and spiritual excellence Progressive Era Mormons established a variety of institutions such as the Deseret Gymnasium and camps for girls and boys all designed to compete with more worldly attractions and to socialize adolescents into the faith Kimball employs a wealth of source material including periodicals diaries journals personal papers and institutional records to illuminate this hitherto underexplored aspect of the LDS church In addition to uncovering the historical roots of many Mormon institutions still visible today *Sports in Zion* is a detailed look at the broader functions of recreation in society

Writing Together, Writing Apart Linda K. Karell, 2002-01-01 In this study of collaborative writing in western American literature Linda K Karell asks broad and fruitful questions about how writing in general is produced By examining collaboration both as a process and as a product she challenges the definition of an author as an individual genius who creates original works of art in isolation From a collaborative view what was a fairly direct cause and effect scenario individual author inspiration original literary masterpiece becomes something much less clear An individual is always located within a shifting context of texts from which he or she draws to produce often with substantial and varied support from other writers editors spouses or partners and institutions a work that will be termed original Collaboration insists on recognizing this oft hidden contribution of others as an important component of meaning something our traditional understanding of the author persists in ignoring or displacing Karell provides a close analysis of the various means by which writers work with others to produce their final literary products Methods include traditional joint writing practices such as ghostwriting or edited texts as in the case of Mourning Dove and ethnographer Lucullus McWhorter the incorporation of existing diaries or letters from other writers for example Wallace Stegner's *Angle of Repose* with Mary Hallock Foote and dual authored texts such as those produced by Louise Erdrich and Michael Dorris By challenging the seductive myth of the solitary writer within the context of the myth of the independent westerner Karell makes the compelling argument that collaboration is an inescapable part of writing

A New Significance, 1996 *The Mountainous West* William Wyckoff, Larry M. Dilsaver, 1995-01-01 Traditional interpretations of the American West have concentrated on the importance of its aridity to the region's cultural evolution and development But the West is marked by a second fact of physical geography that distinguished it from the experiences of settlers from the east As pioneers struggled

with the climate west of the hundredth meridian they were also confronted by mountains strewn across the region and offering their own set of limitations and opportunities This volume focuses on these green islands of the Mountainous West that have witnessed patterns of settlement and development distinct from their lowland neighbors In thirteen essays the contributors address the mountains by means of five themes the mountains as barriers to movement islands of moisture a zone of concentrated resources an area of government control and a restorative sanctuary The focus ranges from California s Sierra Nevada to the Rocky Mountains of Colorado Utah and Montana William K Wyckoff is an associate professor Department of Earth Sciences Montana State University He is the author of *The Developer s Frontier The Making of the Western New York Landscape* and of articles in many journals including *The California Geographer* *Social Science Journal* *Geographical Review* and *Journal of Historical Geography* Lary M Dilsaver is a professor in the Department of Geology and Geography University of South Alabama The author with William Tweed of *Challenge of the Big Trees A Resource History of Sequoia and Kings Canyon National Parks* he has also written articles in journals such as *Geographical Review* *Annals of Tourism Research* and *Yearbook of the Association of Pacific Coast Geographers*

Goodbye Wives and Daughters Susan K. Resnick, 2010-03-01 One morning in 1943 close to eighty men descended into the Smith coal mine in Bearcreek Montana Only three came out alive *Goodbye wives and daughters* wrote two of the miners as they died The story of that tragic day and its aftermath unfolds in this book through the eyes of those wives and daughters women who lost their husbands fathers and sons livelihoods neighbors and homes yet managed to fight back and persevere

The Cowboy Blake Allmendinger, 1992 The Cowboy uses literary historical folkloric and pop cultural sources to document the cowboy s role in the culture of the American West In doing so Allmendinger makes use of early oral poems recited by cowboys in the course of their work and later poems histories and autobiographies written by cowboys most of which have never before been studied by scholars

New Westers Michael L. Johnson, 1996 These New Westers Johnson reveals line dance and two step listen to Garth Brooks and George Strait drink beer from long neck bottles wear clothes ordered from Sheplers watch rodeo on ESPN play Wild West arcade games eat fajitas and tacos in stuccoed Mexican cafes collect Western art and Native American crafts and vacation in and move to the West New Westers rewrite the history and biography of the West They reimagine the West in Cowboy sagas and poetry Native American novels Mexican American drama nature writing revisionist films eclectic visual artwork and neo traditional music They flock to movies like *Thelma and Louise* *Unforgiven* and *Dances with Wolves* watch mini series like *Lonesome Dove* and read bestsellers like *The Crossing* and *All The Pretty Horses* New Westers are men and women who may or may not have ever hitched up a horse but who crave connection with the West At the end of a century of urbanization technological change and cultural confusion they seek a more natural home a fuller and wider sense of place and a deeper and more colorful personal identity They also want to revive the dream of the mythic West but on different terms They overrun the Old West and yet strive to preserve it raising troubling new concerns about the differences between

the mythic and the real between traditional and contemporary cultural influences **Dick Fehnel: Lessons from Gravers School (Hardback)** Richard A. Fehnel, 2012 Dick Fehnel worked as higher education consultant for World Bank Ford Foundation and the Human Sciences Research Council He held the positions of acting representative 1998 1999 and programme officer 1993 2000 for the Ford Foundation Southern Africa after which he semi retired to Portland Oregon and continued to travel and consult until his death in May 2006 Rhetoric in the Rest of the West Shane Borrowman, Marcia Kmetz, Robert L. Lively, 2010-04-16 While the study of the history of rhetoric has expanded to include an ever growing range of rhetorical traditions lesser known figures and under and un studied texts it has continued to exist in the hermetically sealed binary of West and Rest Rhetorical scholars have begun uncovering the many marginalized rhetorical traditions silenced by the homogenous nature of our histories themselves reading and writing new histories of the rhetorical tradition through frames from gender to geography Despite these substantial challenges to the traditionally received history of rhetoric many voices are still silenced and many spaces are still excluded voices speaking within the spaces of the less than monolithic West itself This silencing and excluding continues perhaps because of assumptions that no texts exist from these marginalized voices or that substantial rhetorical activity was not conducted in these marginalized spaces regardless of already extant evidence of rhetorical activity as diverse as rural civic ethos in Classical Greece and Etruscan influences on Roman rhetoric or long standing passive knowledge of scholarly activity in Medieval Andalusia and Ireland Rhetoric in the Rest of the West attempts to expand the conversation in those gaps in the history of rhetoric by examining the traditions that lost the cultural competition and have been shrouded in the shadow of the rhetorical tradition *Postwestern Cultures* Susan Kollin, 2007-01-01 Synthesizes topics of contemporary scholarship of the American West This work examines subjects ranging from the use of frontier rhetoric in Japanese American internment camp narratives to the emergence of agricultural tourism in the New West to the application of geographer J B Jackson s theories to vernacular or abandoned western landscapes
