**Childhood** Mark Heimermann, 2017-03-01 Comics and childhood have had a richly intertwined history for nearly a century From Richard Outcault's Yellow Kid Winsor McCay's Little Nemo and Harold Gray's Little Orphan Annie to Hergé's Tintin Belgium José Escobar's Zipi and Zape Spain and Wilhelm Busch's Max and Moritz Germany iconic child characters have given both kids and adults not only hours of entertainment but also an important vehicle for exploring children's lives and the sometimes challenging realities that surround them Bringing together comic studies and childhood studies this pioneering collection of essays provides the first wide ranging account of how children and childhood as well as the larger cultural

forces behind their representations have been depicted in comics from the 1930s to the present. The authors address issues such as how comics reflect a spectrum of cultural values concerning children, sometimes even resisting dominant cultural constructions of childhood. How sensitive social issues such as racial discrimination or the construction and enforcement of gender roles can be explored in comics through the use of child characters and the ways in which comics use children as metaphors for other issues or concerns. Specific topics discussed in the book include diversity and inclusiveness in Little Audrey comics of the 1950s and 1960s, the fetishization of adolescent girls in Japanese manga, the use of children to build national unity in Finnish wartime comics, and how the animal child hybrids in *Sweet Tooth* act as a metaphor for commodification.

*Contemporary Latin American Cultural Studies* Stephen Hart, Richard A. Young, 2014-02-24

*Contemporary Latin American Cultural Studies* is a collection of new essays by recognised experts from around the world on various aspects of the new discipline of Latin American cultural studies. Essays are grouped in five distinct but interconnected sections focusing respectively on I the theory of Latin American cultural studies II the icons of culture III culture as a commodity IV culture as a site of resistance and V everyday cultural practices. The essays range across a wide gamut of theories about Latin American culture, some for example analyse the role that ideas about the nation and national icons have played in the formation of a sense of identity in Latin America, while others focus on the resonance underlying cultural practices as diverse as football in Argentina, TV in Uruguay, cinema in Brazil, and the bolero and soaps of modern day Mexico.

*Contemporary Latin American Cultural Studies* has an introduction setting the ideas explored in each section in their proper context. The essays are written in jargon-free English; all Spanish terms have been translated into English and are supplemented by a concluding section with suggestions for further reading.

*Comics and Memory in Latin America* Jorge Catalá Carrasco, Paulo Drinot, James Scorer, 2017-07-06

Latin American comics and graphic novels have a unique history of addressing controversial political, cultural, and social issues. This volume presents new perspectives on how comics on and from Latin America both view and express memory formation on major historical events and processes. The contributors, from a variety of disciplines including literary theory, cultural studies, and history, explore topics including national identity, construction, narratives of resistance to colonialism and imperialism, the construction of revolutionary traditions, and the legacies of authoritarianism and political violence. The chapters offer a background history of comics and graphic novels in the region and survey a range of countries and artists such as Joaquín Salvador Lavado, aka Quino, Hector G. Oesterheld, and Juan Acevedo. They also highlight the unique ability of this art and literary form to succinctly render memory. In sum, this volume offers in-depth analysis of an understudied yet key literary genre in Latin American memory studies and documents the essential role of comics during the transition from dictatorship to democracy.
