Trauma Room Two Philip Allen Green,2015 In every hospital emergency department there is a room reserved for trauma It is a place where life and death are separated by the thinnest of margins A place where some families celebrate the most improbable of victories while others face the most devastating of losses A place where what matters the most in this life is revealed Trauma Room Two is just such a place In this collection of short stories Dr Green takes the reader inside the hidden emotional landscape of emergency medicine Based on fifteen years of experience as an ER physician he reveals the profound moments that often occur in emergency rooms for patients their families and the staff that work there People of the ER Philip Allen Green, M.d.,2017-09-09 Standing in the trauma room of an emergency department is like standing at ground zero of a nuclear reaction only it's not radiation that is released but stories Stories that are told and retold sometimes just until the end of the shift but sometimes for decades A survivor of domestic violence makes it to the hospital but cannot trust anyone An anonymous man passes away after being taken to the emergency room and no one can identify him The spouse of a cancer patient must decide whether to force her to undergo chemotherapy or to let her pass away in peace These stories and all the rest in People of the ER grapple with what it means to be human in the face of trauma and death Written by the author of Trauma Room Two People of the ER delves deeper into the lives of the patients and staff that work in a small rural emergency room **Current Catalog** National Library of Medicine (U.S.),1982 First multi year cumulation covers six years 1965-70 **New York Magazine** ,1982-12-13 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Sixteen Modern American Authors** Jackson R. Associated Press Coverage of a Major Disaster Thomas Fensch, 2015-07-16 Originally published in 1989 This diary of a news event looks at how the reporting happened as spread by the news wire system of the Associated Press service in America Analysing the flow of information in this detailed way this book presents how a major disaster a fast moving story with considerable spin was fed out to the press via the Dallas bureau in 1988 Introductory chapters outline the workings of a press bureau office during a major story and present interview sections with key reporters on the story about how their role unfolded Sidebar commentary alongside the reproductions of the news wires organised by date and time adds interesting discussion throughout the book while a conclusion evaluates the coverage of the story The Appendices include reproductions of Texas newspapers resulting pages about the crash This is a fascinating case study of the dissemination of news date before the internet compiled at a time when computers were just large enough to retain in memory all stories relating to event X in order for this kind of analysis to be attempted **University Health System at 100** George B. Hernández Jr., Karen F. Glenney, 2019-09-19 At the start of the twentieth century South Texas was a melting of troops training for deployment in World War I and thousands of refugees fleeing the Mexican Revolution With the influx of immigrants and injured veterans returning from the war the area was in desperate need of a charity hospital to serve the burgeoning community The city of San Antonio and Bexar County each contributed half the funding to build the Robert B Green Memorial Hospital named for a socially conscious county judge and Texas state senator The Green hospital filled a critical need and was completed just in time to care for victims of the 1918 flu epidemic One hundred years later the hospital is one of many in the University Health System which continues to fulfill the diverse health care needs of South Texas *University Health System at 100* chronicles the compelling history of a nationally recognized teaching hospital and its network of outpatient healthcare centers with archival photographs and extended captions Highlights include the 1955 creation of the property tax funded Bexar County Hospital District the 1968 founding of the University of Texas Medical School at San Antonio now called UT Health San Antonio and the 1999 opening of the Texas Diabetes Institute The book also looks ahead to the next one hundred years as medical advancements and concerns and the needs of the South Texas region continue to evolve Whatever the future of health care holds the University Health System aims to continue the mission that has guided it from the beginning to treat all those in need in the community with compassion respect and skill **The British National Bibliography** Arthur James Wells, 1993
