Schoolhouse Activists Tondra L. Loder-Jackson, 2015-10-26 Examines the role of African American educators in the Birmingham civil rights movement Schoolhouse Activists examines the role that African American educators played in the Birmingham Alabama civil rights movement from the late nineteenth century to the present day Drawing on multiple perspectives from education history and sociology Tondra L Loder Jackson revisits longstanding debates about whether these educators were friends or foes of the civil rights movement She also uses Black feminist thought and the life course perspective to illuminate the unique and often clandestine brand of activism that these teachers cultivated The book will serve as a resource for current educators and their students grappling with contemporary struggles for educational justice

From Behind the Veil Robert B. Stepto, 1991 This pioneering study of Afro American narrative is far more critical historical and textual than biographical chronological and atextual Robert Stepto asserts that Afro American culture has its store of canonical stories or pregeneric myths the primary one being the quest for freedom and literacy This second edition includes a new preface and an afterward entitled Distrust of the Reader in Afro American Narratives **Show Us How You Do It** Edward J. Robinson, 2008-05-21 A major figure in southern black restorationist church history **A Higher Duty** Mark A. Weitz, 2005-12-01 This book addresses the most important issues associated with Confederate desertion How many soldiers actually deserted when did they desert and why What does Confederate desertion say about Confederate nationalism and the war effort Mark A Weitz has taken his argument beyond the obvious reasons for desertion that war is a horrific and cruel experience and examined the emotional and psychological reasons that might induce a soldier to desert Just as loyalty to his fellow soldiers might influence a man to charge into a hail of lead loyalty to his wife and family could also lead him to risk a firing squad in order to return home The Rise and Fall of Modern American Conservatism David Farber, 2012-08-26 The story of modern conservatism through the lives of six leading figures The Rise and Fall of Modern American Conservatism tells the gripping story of perhaps the most significant political force of our time through the lives and careers of six leading figures at the heart of the movement David Farber traces the history of modern conservatism from its revolt against New Deal liberalism to its breathtaking resurgence under Ronald Reagan to its spectacular defeat with the election of Barack Obama Farber paints vivid portraits of Robert Taft William F Buckley Jr Barry Goldwater Phyllis Schlafly Ronald Reagan and George W Bush He shows how these outspoken charismatic and frequently controversial conservative leaders were united by a shared insistence on the primacy of social order national security and economic liberty Farber demonstrates how they built a versatile movement capable of gaining and holding power from Taft's opposition to the New Deal to Buckley's founding of the National Review as the intellectual standard bearer of modern conservatism from Goldwater's crusade against leftist politics and his failed 1964 bid for the presidency to Schlafly's rejection of feminism in favor of traditional gender roles and family values and from Reagan's city upon a hill to conservatism's downfall with Bush's ambitious

presidency The Rise and Fall of Modern American Conservatism provides rare insight into how conservatives captured the American political imagination by claiming moral superiority downplaying economic inequality relishing bellicosity and embracing nationalism This concise and accessible history reveals how these conservative leaders discovered a winning formula that enabled them to forge a powerful and formidable political majority Some images inside the book are unavailable due to digital copyright restrictions *REAL.
