Visions of Belonging Judith E. Smith, 2004 Elaine May author of *Homeward Bound* American Families in the Cold War Era

What America Read Gordon Hutner, 2009-11-05 Despite the vigorous study of modern American fiction today's readers are only familiar with a partial shelf of a vast library Gordon Hutner describes the distorted canonized history of the twentieth century American novel as a record of modern classics insufficiently appreciated in their day but recuperated by scholars in order to shape the grand tradition of Hemingway Fitzgerald and Faulkner In presenting literary history this way

Hutner argues scholars have forgotten a rich treasury of realist novels that recount the story of the American middle class's confrontation with modernity. Reading these novels now offers an extraordinary opportunity to witness debates about what kind of nation America would become and what place its newly dominant middle class would have and Hutner suggests should also lead us to wonder how our own contemporary novels will be remembered. *Omnibook Magazine*, 1948

Kelly, 1993-01-01 Much has been written about the housing policies of the Depression and the Postwar period. Much less has been written of the houses built as a result of these policies or the lives of the families who lived in them. Using the houses of Levittown, Long Island, as cultural artifacts, this book examines the relationship between the government-sponsored mass-produced housing built after World War II, the families who lived in it, and the society that fostered it. Beginning with the basic four-room slab-based Cape Cods and Ranches, Levittown homeowners invested time and effort, barter, and money in the expansion and redesign of their houses. The author shows how this gradual process has altered the socioeconomic nature of the community as well, bringing Levittown fully into the mainstream of middle-class America. This book works on several levels. For planners, it offers a reassessment of the housing policies of the 1940s and 50s, suggesting that important lessons remain to be learned from the Levittown experience. For historians, it offers new insights into the nature of the suburbanization process that followed World War II. And for those who wish to understand the subtle workings of their own domestic space within their lives, it offers food for speculation.
