Mathis, Avishalom Tor, 2024-04-30 While previous volumes have examined specific issues and developments such as the coronavirus crisis or digital transformation from a law and economics perspective the anniversary edition returns to the methodological and philosophical fundament of the discipline of law and economics The present book aims to examine these foundations in general and in particular efficiency reciprocity and meritocracy and their relation to law and justice from an interdisciplinary perspective Efficiency Traditionally the economic analysis of law has been guided by the goal of efficiency Economists usually define efficiency as Pareto or Kaldor Hicks efficiency Any change that makes one member of society better off without anyone else being worse off is a Pareto improvement A change is a Kaldor Hicks improvement if the gainers value their gains more than the losers value their losses with only hypothetical compensation required Reciprocity Economists have traditionally based their models on the self interest hypothesis of homo oeconomicus In this model an individual maximises his own utility without being altruistic or jealous Behavioural economics challenges the self interest hypothesis In fact many people deviate from purely self interested behaviour There are also signs that considerations of fairness and mutual benefit are important in bilateral negotiations and in the functioning of markets Meritocracy The concept of meritocracy refers to a system organisation or society in which people are selected and promoted to positions of success power and influence on the basis of their abilities and merits This means that an individual is able to climb the social ladder through hard work Moreover meritocracy directs the most talented people into the most functionally important positions thereby increasing a society's efficiency However the equalising function of meritocracy has been criticised Rather than reducing inequality meritocracy is seen as the cause of racial economic and social inequality *Exampler by Svastham Part 4* Akash Tiwari, Hand picked Collection of MCQs by experienced and Experts highest probable MCQs for Nursing Competitive Exams on Syllabus of NORCET ESIC Central Govt various State Public Service Commission Gujarat Health Department *Oswaal CBSE Class 9 English Language and Literature Question Bank (2024 Exam)* Oswaal Editorial Board, 2023-01-16 Description of the product 100% Updated with Latest Syllabus Fully Solved Board Paper Crisp Revision with Topic wise Revision Notes Mind Maps Mnemonics Extensive Practice with 2000 Questions 2 Practice Papers Concept Clarity with 1000 concepts Smart Mind Maps Mnemonics Final Boost with 50 concept videos 100% Exam Readiness with Competency Based Questions *ISC | 10 Sample Question Papers | Class 11 | Economics (2024)* Oswaal Editorial Board, 2023-08-30 Description of the product Fresh Relevant with 2024 ICSE ISC Specimen Paper Fully Solved Score Boosting Insights with 500 Questions 1000 Concepts Insider Tips Techniques with On Tips Notes Mind Maps Mnemonics Exam Ready Practice with 10 Highly Probable SQPs *Economics Class 12* Dr. Anupam Agarwal, Mrs. Sharad Agarwal, 2023-04-29 Part A Introductory Micro Economics 1 Micro Economics An Introduction 2 Central Problems of an Economy 3 Consumer's Equilibrium 4 Demand and Law of Demand 5 Price Elasticity of Demand 6 Production Function Returns to a Factor and Returns to Scale 7 Production Costs 8 Concepts of Revenue 9 Producer's Equilibrium Meaning and
