Aquaponics will create the stepping stones you need to start the change you desire in your life and in your family's life. Every little bit that we do counts and can impact not only ourselves but the world around us in either a positive or negative way. The choice you make today can be a very powerful one. This book doesn't just offer a wealth of knowledge but invites you to begin a wonderful journey to a new lifestyle. This new lifestyle will give you the ability to control the freshness of the foods you eat and the choice of which foods you have readily available to prepare for your meals without leaving your home. Choosing this path will give you the peace of mind in knowing that what you're preparing hasn't been contaminated and offers you and your family a healthy option. This journey will also pave the way for you to take control of your physical and mental health due to your dietary choices. Aquaponics is a great way to produce your own fish and plants not just simply for the benefit of a meal or saving the expense you would have if bought at a grocery store but it is also an excellent way for you to wage battle against major illnesses. The benefits of choosing Aquaponics are numerous but most are not aware of how it helps on a global level. There are many companies out there helping to improve the sustainability of the world as a whole especially in areas where the soil is not conducive to farming and there is a lack of water and food. But what many people may not realize is that by doing Aquaponics at home you are also helping the environment and can even help to improve the economy if you choose to expand this process into a business. Start your journey now by purchasing this book and you will reap the benefits easily and shortly thereafter. In this book you'll learn all the answers to your questions about what exactly Aquaponics is, how it works and how it differs from Hydroponics and Aquaculture. Everything you need to know to get started whether you start with a kit or do it yourself. How to create the most ideal Aquaponics environment and the differences in using assorted types of grow beds, filtration, containment systems, plumbing, water, light, temperatures, etc. What types of fish and plants work best and how to gain a better understanding of their requirements and differences amongst the varying seasons. In addition to this you will gain a good understanding of how to maintain your system so that you have a thriving ecosystem that is productive in providing sustenance for you and your family. And so much more. Get your copy of Aquaponics today.

Building an Aquaponics System Anthony Faircloth, Gabrielle Lofland, 2012-07. This book is designed and written to provide basic information and direction for people interested in building an aquaponics system. It is NOT a how-to manual listing parts and with step-by-step procedures but it's more like a conversation that you might have with a good friend about how he built his system. It is written in an easy manner with lots of pictures and graphics.
