India 1885-1947 Ian Copland, 2014-07-10 The establishment of the Indian National Congress in 1885 marked a turning point in modern South Asian history At the time few grasped the significance of the event nor understood the power that its leader would come to wield From humble beginnings the Congress led by Gandhi would go on to spearhead India s fight for independence from British rule in 1947 it succeeded the British Raj as the regional ruling power Ian Copland provides both a narrative and analysis of the process by which Indians and Pakistanis emancipated themselves from the seemingly iron clad yoke of British imperialism In so doing he goes to the heart of what sets modern India apart from most other countries in the region its vigorous democracy

in the subject and asks how Americans have dealt with the expansionist legacy Lenin's Revolution David R. Marples, 2014-06-06 This study examines one of the key events in history the Russian Revolution Since the late Gorbachev period a wealth of new material has become available to historians that has triggered intense scholarly debate on the nature of revolution This timely new book takes account of the new scholarship including for example the role of Lenin It is argued that the initial flexibility of Lenin and the Bolshevik party allowed them to take power but that the conduct of both changed considerably once they were obliged to take steps to maintain their authority This book charts the February Revolution the October Revolution the Civil War and the main individuals involved giving a remarkable degree of clarity to the tumultuous events in Russia whose consequences the world lived with for the rest of the twentieth century **Japan faces the World, 1925-1952** Mary L. Hanneman, 2013-11-14 By 1925 the process of Japan's transition to a modern industrialised westernised state was pretty much complete Not only had the imperial tradition been restored with the Meiji Restoration in 1868 but some forms of democratic parliamentary institutions had been set up However during the years that followed the so called imperial democracy came under pressure as the Japanese sought to impose tight control over not only their own people but their neighbours as well This impressive survey looks at developments at home Japan's aggressive foreign policy particularly in China during the 1930s and 1940s and her role in the Second World War Finally the post war reconstruction orchestrated by the Americans is examined The cut off point is 1952 the date when Allied Occupation formally came to an end and Japan once again became independent *The Korean War* Steven Hugh Lee, 2013-12-02 Tens of thousands of US soldiers and untold millions of Koreans died in this war the first major arena of the East West conflict This concise international history of the war offers a new approach to its understanding tracing its origins and dynamics to the interplay between modern Korean history and twentieth century world history The narrative also uniquely examines the social history of the conflict and includes material on the newly racially integrated US fighting forces war and disease women and war and life in the Prisoner of War camps While most surveys stop at 1953 with the signing of the armistice Steven Hugh Lee carries the story through to the Geneva Conference in the spring of 1954 the last major international effort before recent years to negotiate a permanent peace for the Korean peninsula *The Soviet Union under Brezhnev* William J. Tompson, 2014-07-30 The Soviet Union Under Brezhnev provides an accessible post Soviet perspective on the history of the USSR from the mid 1960s to the mid 1980s It challenges both the evil empire image of the USSR that was widespread in the early 1980s and the stagnation label attached to the period by Soviet reformers under Gorbachev The book makes use of a range of memoirs interviews archival documents and other sources not available before 1990 to place Brezhnev and his epoch in a broader historical context The author examines high politics foreign policy and policy making explores broader social cultural and demographic trends presents a picture of Soviet society in the crucial decades prior to the upheavals and crises of the late 1980s While stopping well short of a full scale rehabilitation of Brezhnev Tompson rejects the prevailing image of the Soviet leader as a colourless

non entity drawing attention to Brezhnev's real political skills as well as his faults and to the systemic roots of many of the problems he faced China Since 1949 Linda Benson, 2002 This new text on the People's Republic focuses on its rapid transformation during the past half century and the challenges this presents Written for A level and undergraduate students without previous background on China and supported by primary source materials it provides a coherent narrative of the major events in China's recent past and a balanced account of China's on going transformation as it moves toward a more open society a market oriented economy and an increasing role in international affairs **The Origins of the Vietnam**

War Fredrik Logevall, 2014-01-14 Why did the US make a commitment to an independent South Vietnam Could a major war have been averted Fredrik Logevall provides a concise comprehensive and accessible introduction to the origins of the Vietnam War from the end of the Indochina War in 1954 to the eruption of full scale war in 1965 and places events against their full international background **Napoleon** Clive Emsley, 2003 Probably no other single individual has had such a

profound impact on the development of modern France and on that of nineteenth century Europe as Napoleon Clive Emsley brings the subject up to date historiographically and provides an accessible introduction to the post revolutionary period in European history of 1799 to 1815 **The Origins of French Absolutism, 1598-1661** Alan James, 2014-01-14 This

controversial study takes the provocative line that the French monarchy was a complete success James turns the idea of royal absolutism on its head by redefining the French monarchy's success from 1598 1661 The Origins of French Absolutism 1598 1661 maintains that building blocks were not being laid by the so called architects of absolutism but that by satisfying long established traditional ambitions cardinal ministers Richelieu and Mazarin undoubtedly made the confident ambitious reign of the late century possible
