Karna,2023-04-03 Our life is astronomical It is just one tiny cosmos among billions of others People we meet are floating rocks and tiny asteroids And the ones we value the most are like falling stars They are rare and beautiful to look at but hard to catch They make us feel as if they exist for no one besides us They come and go in a flash They are comets And comets pass away Penn s life has been uprooted and he finds himself alone in a new city with only his diary and pen As he navigates this unfamiliar landscape he delves into his past through the pages of his diary and conversations with those he has left behind But the complexities of human existence start unfolding in front of him the intricacies of friendships the heartbreak of young love and the weight of death Through his writing Penn searches for answers and for a sense of belonging in a world that feels increasingly distant

Pauwels,Emma-Louise Silva,2023-07-28 In recent decades age studies has started to emerge as a new approach to study children s literature This book builds on that scholarship but also significantly extends it by exploring age in various aspects of children s literature the age of the author the characters the writing style the intended readership and the real reader

Moreover the authors explore what different theories and methods can be used to study age in children's literature and what their affordances and limits are. The analyses combine age studies with life writing studies, cognitive narratology, digital humanities, comparative literary studies, reader response research, and media studies. To ensure coherence, the book offers an in-depth exploration of the oeuvre of a single author, David Almond. The aesthetic and thematic richness of Almond's works has been widely recognised. This book adds to the understanding of his oeuvre by offering a multi-faceted analysis of age. In addition to discussing the film adaptation of his best-known novel *Skellig*, this book also offers analyses of works that have received less attention, such as *Counting Stars*, *Clay*, and *Bone Music*. Readers will also get a fuller understanding of Almond as a crosswriter of literature for children, adolescents, and adults.

[Children's Culture and the Avant-Garde](#) Marilynn Strasser Olson, 2013-03-05 This volume explores the mutual influences between children's literature and the avant-garde. Olson places particular focus on fin de siècle Paris, where the Avant-garde was not unified in thought and there was room for modernism to overlap with children's literature and culture in the Golden Age. The ideas explored by artists such as Florence Upton, Henri Rousseau, Sir William Nicholson, Paula Modersohn-Becker, and Marc Chagall had been disseminated widely in cultural productions for children; their work in turn influenced children's culture. These artists turned to children's culture as a new way of seeing, allied to a contemporary interest in international artistic styles. Children's culture also has strong ties to decadence and to the grotesque, the latter of which became a distinctively Modernist vision. This book visits the qualities of the era that were defined as uniquely childlike: the relation of childhood to high and low art and the relation of children's literature to fin de siècle artistic trends. Topics of interest include the use of non-European figures, the Golliwogg, approaches to religion and pedagogy, to oppression and motherhood, to Nature in a post-Darwinian world, and to vision in art and life. Olson's unique focus covers new ground by concentrating not simply on children's literature but on how childhood experiences and culture figure in art.
