Ellis,2012 You have probably seen Rex Ellis on TV He is constantly turning up on the box with his team of camels and his adventurous urban guests hanging on for dear life somewhere in the sandy wastes of the Red Heart maybe near Birdsville Or traversing Lake Eyre full of water and pelicans in his beloved tinny Rex lives a nomadic desert life out there that you and I can only dream about For a desert wanderer he is pretty talkative and has a mad sense of humour but when he does do his block with a recalcitrant safari guest or a stubborn camel he gets volcanic Ellis has the knack of extracting the ridiculous or the absurd essence wherever he travels He is an observer of the human condition and focuses by inclination on the farcical Perhaps his lifetime of observing outback wildlife gives him an excellent basis for a comparative study of crazy human behaviour He has always taken paying guests on his outback adventures and his colourful and varied descriptions of their shenanigans will bring great satisfaction to the superior armchair adventurer And of course every evening there is the campfire Ellis sees the campfire as the quintessence of the freedom of the outback the relaxation after a hard day's yakka the yarn spinning the chai yacking and the camaraderie that develops so easily while you all stare at the mysterious inspiring flames rather than at a mind deadening TV set This is the very essence of outback travelling and Ellis's highly emotional introduction leaves no doubt about the way he feels about these magic evenings So folks it's still not too late If you can't get

out there straightaway then read the book *Ten Thousand Campfires* leaves no doubt that there is still plenty of the real old fashioned Australia in the Red Heart and it is pretty easy to distinguish it from what the author refers to as the sanitized metropolitan Australia

Tail of the Storm Alan Cockrell, 1995-01-30 Cockrell writes lyrically about flying and about the emotional and intellectual satisfaction enjoyed by those who fly Within days of Saddam Hussein s invasion of Kuwait the far reaching arm of American airpower sprang into action The skylines of the North Atlantic Europe and the Mediterranean became laced with the contrails of great jets flowing day and night toward the Persian Gulf From the skies manpower and material poured onto the bleak sands under the ominous clouds of the gathering storm and in only a few weeks the size of the effort eclipsed that of the Berlin Airlift The thousands of crewmembers flying the jets as well as those servicing and managing them became the backbone of history s largest air logistical operation Many of these men and women were Air Force reservists and the author participated as a pilot of a C 141B Starlifter with the Mississippi Air National Guard Cockrell writes lyrically about flying and about the emotional and intellectual satisfaction enjoyed by those who fly His focus is on the people recalled to active duty

who flew thousands of hours coping with fatigue cracked wings missile attacks and in some cases deteriorating businesses and families at home Tail of the Storm gives expression to their love of flight as well as their dedication to the endangered values of duty honor country This story is good reading not only for those who share the author s enthusiasm for flying but also for those who read for pleasure and have a curiosity about a pilot s world **Handbook of Distance Education**
