

The background of the book cover is a painting of a mountain landscape. The sky is a mix of pale yellow and light blue, suggesting a hazy or dawn/dusk atmosphere. Below the sky, there are rolling hills and mountains covered in dense green foliage. The overall style is painterly and somewhat ethereal.

Norman K Bakken Ph D gleans from his life all that is simple all that is delicate and all that is Sacred On life Nature has a way of speaking to us when all the world around is quiet when others are nowhere present and when we in such moments pause to listen and to see On spirit A child avoids reality by dreaming an adult by idealistic escape which is never fully overcome or avoided without an understanding that we too are part of that reality Hopefully someday we will come to our senses including a sense of the sacred lying at the base of all life On our relationship with God Now I have been tempted to go too far ahead to say too little of what is already too much To be quiet to be attentive that I have learned is the essence of faith in any tradition

Reconstructing the Native South Melanie Benson Taylor, 2012-01-15 In *Reconstructing the Native South* Melanie Benson Taylor examines the diverse body of Native American literature in the contemporary U S South literature written by the descendants of tribes who evaded Removal and have maintained ties with their southeastern homelands In so doing Taylor advances a provocative even counterintuitive claim that the U S South and its Native American survivors have far more in common than mere geographical proximity Both cultures have long been haunted by separate histories of loss and nostalgia Taylor contends and the moments when those experiences converge in explicit and startling ways have yet to be investigated by scholars These convergences often bear the scars of protracted colonial antagonism appropriation and segregation and they share preoccupations with land sovereignty tradition dispossession subjugation purity and violence Taylor poses difficult questions in this work In the aftermath of Removal and colonial devastation what remains for Native and non Native southerners to be recovered Is it acceptable to identify an Indian lost cause Is a deep sense of hybridity and intercultural affiliation the only coherent way forward both for the New South and for its oldest inhabitants And in these newly entangled postcolonial environments has global capitalism emerged as the new enemy for the twenty first century *Reconstructing the Native South* is a compellingly original work that contributes to conversations in Native American southern and transnational American studies

Red States Gina Caison,2018-10 *Red States* uses a regional focus in order to examine the tenets of white southern nativism and Indigenous resistance to colonialism in the U S South Gina Caison argues that popular misconceptions of Native American identity in the U S South can be understood by tracing how non Native audiences in the region came to imagine indigeneity through the presentation of specious histories presented in regional literary texts and she examines how Indigenous people work against these narratives to maintain sovereign land claims in their home spaces through their own literary and cultural productions As Caison demonstrates these conversations in the U S South have consequences for how present day conservative political discourses resonate across the United States Assembling a newly constituted archive that includes regional theatrical and musical performances pre Civil War literatures and contemporary novels Caison illuminates the U S South s continued investment in settler colonialism and the continued Indigenous resistance to this paradigm Ultimately she concludes that the region is indeed made up of red states but perhaps not in the way readers initially imagine
